November 2021 Release Notes

Two areas of improvement:

1 Ability for Employers to Add Carrier Forms to Plan:

- Employers are now able to import carrier forms from their broker, and add them to plans.
- If an employer deletes the form, this will not be deleted from the broker account, only the employer's imported form will be deleted.

2 Design Improvements to Applicant Tracking:

- We have updated the design of the Applicant Tracking area with an improved look and feel.
