Healthcare & Benefits Management

Manage Healthcare Costs & Simplify Benefits Renewals

R&R Insurance offers its clients interactive softwares to eliminate spreadsheets and the frustration that comes with the benefits renewal process. Our dynamic presentation tools, Applied Benefits Designer and Claros, generate visual charts, models, and scenarios that respond in real time to updates and interactions, helping you make educated decisions faster.

APPLIED BENEFITS DESIGNER

- Compare plans

Instantly highlight the difference between plans to see the immediate impact of each plan design change

- Model funding options

Ability to include HSA contributions, deductible and co-insurance HRA, and utilization projections

- Streamline proposal generation

Store medical, Rx, and ancillary plans in your database giving all designated users instant access

- Real time cost updates
- Helps you find a plan that fits your budget and manage costs
- Ensure ACA compliance

CLAROS

- Enhanced benchmarking index - Actuarial Advisor
- Risk decision support - self funded simulator
- Experience mitigation - predict membership changes based on demographics
