

JWU

COLLEGE OF HEALTH & WELLNESS

**Have you been diagnosed with;  
headache, dizziness, migraines,  
vertigo, concussion or  
post-concussion syndrome ?**

This researchers at Johnson & Wales University are performing a study to investigate how often limitations in neck mobility are found in patients suffering from headache, dizziness, migraines, vertigo, concussion and post concussion syndrome.

If you would like to participate in this 10 minute study, please contact Paul Ullucci (401)598-1359 or [pullucci@jwu.edu](mailto:pullucci@jwu.edu) to set up an appointment to see him in Providence or at one of the facilities engaged in the study. There is no cost associated with participating and choosing to participate or not participate will have no impact on your relationship with the facility, your physical therapist or Johnson & Wales University. This study has been approved by the Johnson & Wales University Internal Review Board.
