

BUILDING TUNE-UP PROGRAM

Maximize your facility's energy performance with JCP&L's Building Tune-up Program.

The Building Tune-up Program provides incentives to offset the upfront costs for adjustment and calibration of building systems and controls, diagnostic testing and installation of other measures that enhance building energy performance and savings.

Choose from a range of solutions.

Sample measures include:

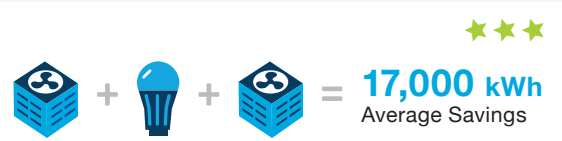

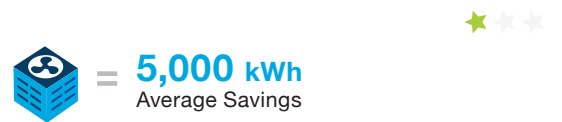

- HVAC controls to optimize rooftop units and air handlers
- Variable frequency drives (VFD) for fans and pumps
- Refrigeration controls for evaporator fans and door heaters
- Lighting controls and optimization schemes
- Dual enthalpy economizers for HVAC
- Other complimentary program eligible energy saving measures

PROGRAM BENEFITS

Get up to 70%¹ off installed equipment when you bundle different upgrades.

Maximize Your Savings with Bundling Upgrades:

¹Exact percentage will vary based on type and quantity of equipment installed.

Energy Efficiency Made Easy!

From enrollment to incentive, we make it easy to find the best energy-efficient solutions for your building.

1

Enroll

Provide your building's basic information via an online application.

2

Analyze

Real-time evaluation of energy-efficiency improvements bundled with whole-building strategies.

3

Implement

You work with a JCP&L Program Ally to complete the scope of work.

4

Verify

We will work with you to complete a post-installation inspection and M&V process.

5

Final Payment

Receive your financial incentive based on the final scope of work and calculated energy savings.

Customer Eligibility

The Building Tune-up Program is available for most non-residential project types including commercial, industrial, institutional, governmental, and multifamily common areas.

TYPES OF BUSINESSES

Healthcare

Costs of these programs may be recovered through customer rates in accordance with New Jersey law. For a complete list of commercial, industrial, residential, and low-income energy efficiency programs, please visit https://www.firstenergycorp.com/save_energy/save_energy_new_jersey/for_your_business_nj.html.

By participating in these energy efficiency and peak demand reduction programs, customers agree to allow their utility to retain ownership of all Capacity Rights which refers to the demand reduction associated with any energy efficiency and peak demand reduction measure for which incentives were provided by the Company. Your utility will aggregate these energy efficiency demand reduction attributes into the PJM capacity market with proceeds being used to offset the program costs.

FirstEnergy's New Jersey utility, their parents, subsidiaries, employees, affiliates and agents assume no responsibility for the performance of the equipment or equipment warranty, the quality of the work, labor and/or materials supplied, and/or the acts or omissions of any contractor.
