The purpose of this announcement is to solicit applications to strategically support, expand, and fund local certified Texas Crime Stoppers organizations that help protect our communities.

Available Funding

State funds for these projects are authorized under Article 102.013 of the Texas Code of Criminal Procedure. Selection Process

Application Screening: The Office of the Governor will screen all applications to ensure that they meet the requirements included in the funding announcement, to understand the overall demand for the program and to identify significant variations in costs per item. After this review, the Office of the Governor will determine if eligible applications can be funded based on funds available, if there are cost-effectiveness benefits to normalizing or setting limits on the range of costs, and if other fair-share cuts may allow for broader distribution and a higher number of projects while still remaining effective.

Timely submission of the Probation Fee and Repayment Report and Statistics Reports are a requirement of funding.

Peer/Merit Review: The Office of the Governor will review all applications for quality, capability, and past performance. Other factors may be considered in determining which programs to fund. Factors might include geographic distribution, fairness among different sizes of population areas and need based on crime rate or other similar factors, including economic factors. Additionally, preference will be given to any of the following:

- Projects that support the organization's campus program expansion efforts.
- Projects that support participation in the annual conferences.
- Projects that support information systems such as tip management software, answering services, phone service, or web hosting services.
- Financial need of the organization based on Annual Probation Fee and Repayment Report (PFRR).

Final Decisions: The Office of the Governor will consider rankings along with other factors and make all final funding decisions. Other factors may include cost effectiveness, overall funds availability, PSO or state government priorities and strategies, legislative directives, need, geographic distribution, balance of focuses and approaches, or other relevant factors.

The Office of the Governor may not fund all applications or may only award part of the amount requested. In the event that funding requests exceed available funds, the Office of the Governor may revise projects to address a more limited focus.
