

ORGANIC BUG REPELLENT

INGREDIENTS

Essential Oils ↓

20 drops Eucalyptus

20 drops Citronella

20 drops Lavender

20 drops Geranium

20 drops Rosemary

2 tablespoons 190-Proof Organic Alcohol

½ cup Witch Hazel

½ cup Water

1 teaspoon Jojoba or Olive Oil

to combine - optional

Glass Spray Bottle

I used a 12-ounce bottle

PREPARATION

1 Mix Water, Witch Hazel, and Alcohol together in Glass Spray Bottle

2 Drop in your Essential Oils

3 Add your teaspoon of oil which will help to combine

4 Shake it up!

You may need to shake before use each time to ensure your well combined, but it's worth it. Not only will this be a good alternative to a store-bought product that may contain unsavory chemicals, but it'll keep you smelling fresh you up on those camping excursions.
