

HOMEMADE HERBAL DRY SHAMPOO

ORGANIC
ALCOHOL
CO.

INGREDIENTS

**1 tsp Calcium Carbonate
(powdered)**

1/4 teaspoon Silk Peptide Powder

4 tablespoons Organic Alcohol

I used Organic Grape for this recipe

6 tablespoons Water, or Hydrosol

10-12 drops your choice Essential Oil

Note that citrus oils can effect hair color!

Spray Bottle for application

I used an 8oz. size because it's the only size I could find in glass (the powders can clog normal atomizers, try a trigger nozzle bottle for a little less clog)

PREPARATION

1 Measure out your dry ingredients and using a funnel, pour into your spray bottle

2 Add in water, alcohol, and essential oils of your choice

3 Close and shake VERY well to combine

4 Label and Apply!

5 Store in a cool place out of direct sunlight, I give it a little shake every time I use to ensure it's well mixed
