

Configura 9.9.2 • Release Notes

December 20, 2021

News and changes

Configura Core version 9.9.2 is a minor version update as presented below.

Miscellaneous

- The SketchUp 3D Warehouse, accessed from the SketchUp browser in Configura, has been updated to a new version. On computers running versions of Windows older than Windows 10 build 18363 (Nov. 2019), the 3D Warehouse will open in your default web browser, whereas Windows 10 build 18363 or newer will see the 3D Warehouse open in a separate Configura dialog, just as before.
- Configura now supports SketchUp 2021 models.
- The Catalogue Server and the Render Server have been upgraded to the latest version (12.5).

Bug fixes

- General bug fixes
