

# Systems Integration Services

## Let Us Guide You Every Step Of The Way

Our Systems integration services team assists OEM's, Government R&D Agencies, and Academic Research Institutions building robust aircraft for flying in the national airspace.

Sagetech technology stacks can be seamlessly integrated with non-cooperative sensors, autopilots, and peripheral accessories. Utilize the Sagetech BVLOS tech stack to enable safer flight, and hire us to assist with the technical integration and configuration.

### PRODUCT TRAINING

Customized product training to meet your unique needs.

#### Services Include

- Product overview
- Aircraft integration
- Ground control station integration
- Product provisioning and administration
- Troubleshooting
- Basic installation

### AIRCRAFT INTEGRATION & FLIGHT TESTING

Leverage our team to integrate our solutions for you, saving you valuable time.

#### Services Include

- Requirements gathering, requirements definition, integration, acceptance test planning based on requirements post integration
- Implementation and integration of additional 3rd party products (sensors, auto pilot, etc.)
- BVLOS technology stack solutions, as part of integration with flight testing
- Integration and flight testing for our DAA Prototypes and MX Series transponders
- Flight test support
- Product demonstration support
- DoD and NATO exercise support
- DoD AIMS 1102 / 1103 Testing and Certification
- Detailed technical support
- Non-cooperative sensor fusion and integration

## Ready To Get Started?

Sagetech is an aerospace technology company, empowering safe flight in crewed and uncrewed aircraft with certifiable situational awareness solutions.

Currently serving military and civil duty on a broad range of UAV platforms, Sagetech solutions are mission-proven and offer decades of program experience, certifications, and millions of flight hours to deliver maximum value over the life of a platform. Today, Sagetech is expanding its technology platform to create comprehensive, certifiable systems such as detect and avoid solutions.

Every day, Sagetech works to concert with its extensive ecosystem of OEM customers, technology partners, and resellers to ensure UAVs and crewed aircraft fly safer with Sagetech on board.
