

O-Key

the safe and organic keycard

Protects the environment. Protects your guests.

Dear customers, partners and friends,

can a keycard open the door into a more sustainable future? O-Key can! O-Key, the safe and organic keycard presented by Messerschmitt, is the ecological evolution of classic keycards. We call it the “ecolution” providing an appropriate answer to the challenges faced by tomorrow’s hotel industry.

For your environmental certification:

- made from FSC® certified Ginkgo wood
- biodegradable material
- eco-friendly, IMPRIM’VERT®-certified colours are used for printing
- made in EU

For your hygiene certification:

- antibacterial material

For your budget:

- 10 % price advantage in comparison with Messerschmitt PVC keycards
- Special offer: 10 % additional discount on your first O-Key order

O-Key can be seamlessly integrated in existing locking systems, also those of third-party suppliers, without technical adaptations.

As you can see, more sustainability can entail various benefits! Get ready for the future: with future-proof solutions by Messerschmitt. With O-Key – the safe and organic keycard.
