

Inpatient Sepsis Bundle

Time Zero: *The earliest time when the final criteria falls into place within 6 hours: (2 SIRS, suspected/documentated infection and organ dysfunction) ..OR.. The time of provider documentation of Severe Sepsis/Septic Shock.*

Important Notes to Physicians:

- *The “INPT Sepsis Basic Bundle” Meditech order-set is to be utilized for inpatient Sepsis.*
- *Bundle elements that are already done recently or contraindicated can be unchecked from the order-set but must have documentation why it was excluded per SEP-1 guidelines.*
- *If patient is suspected for COVID19 or a known positive, a canned text for Covid/Viral Sepsis found at Dx&P must be entered for exclusion. (see separate education)*
- *If 30ml/kg IVF cannot be given due to Advanced CHF or Advanced Renal Disease, a canned free-text must be entered for exclusion. (see separate education)*
