**THE EASIEST WAY**
TO MANAGE COMPLIANCE

FROM CAR TO TRUCK AND EVERYTHING IN BETWEEN

enterprise
FLEX-E-RENT

" The new Enterprise compliance management tool gives you complete control over event scheduling and documentation for your fleet.

The platform is completely free of charge and available to all customers, so we encourage everyone to register and start benefiting as soon as possible. "
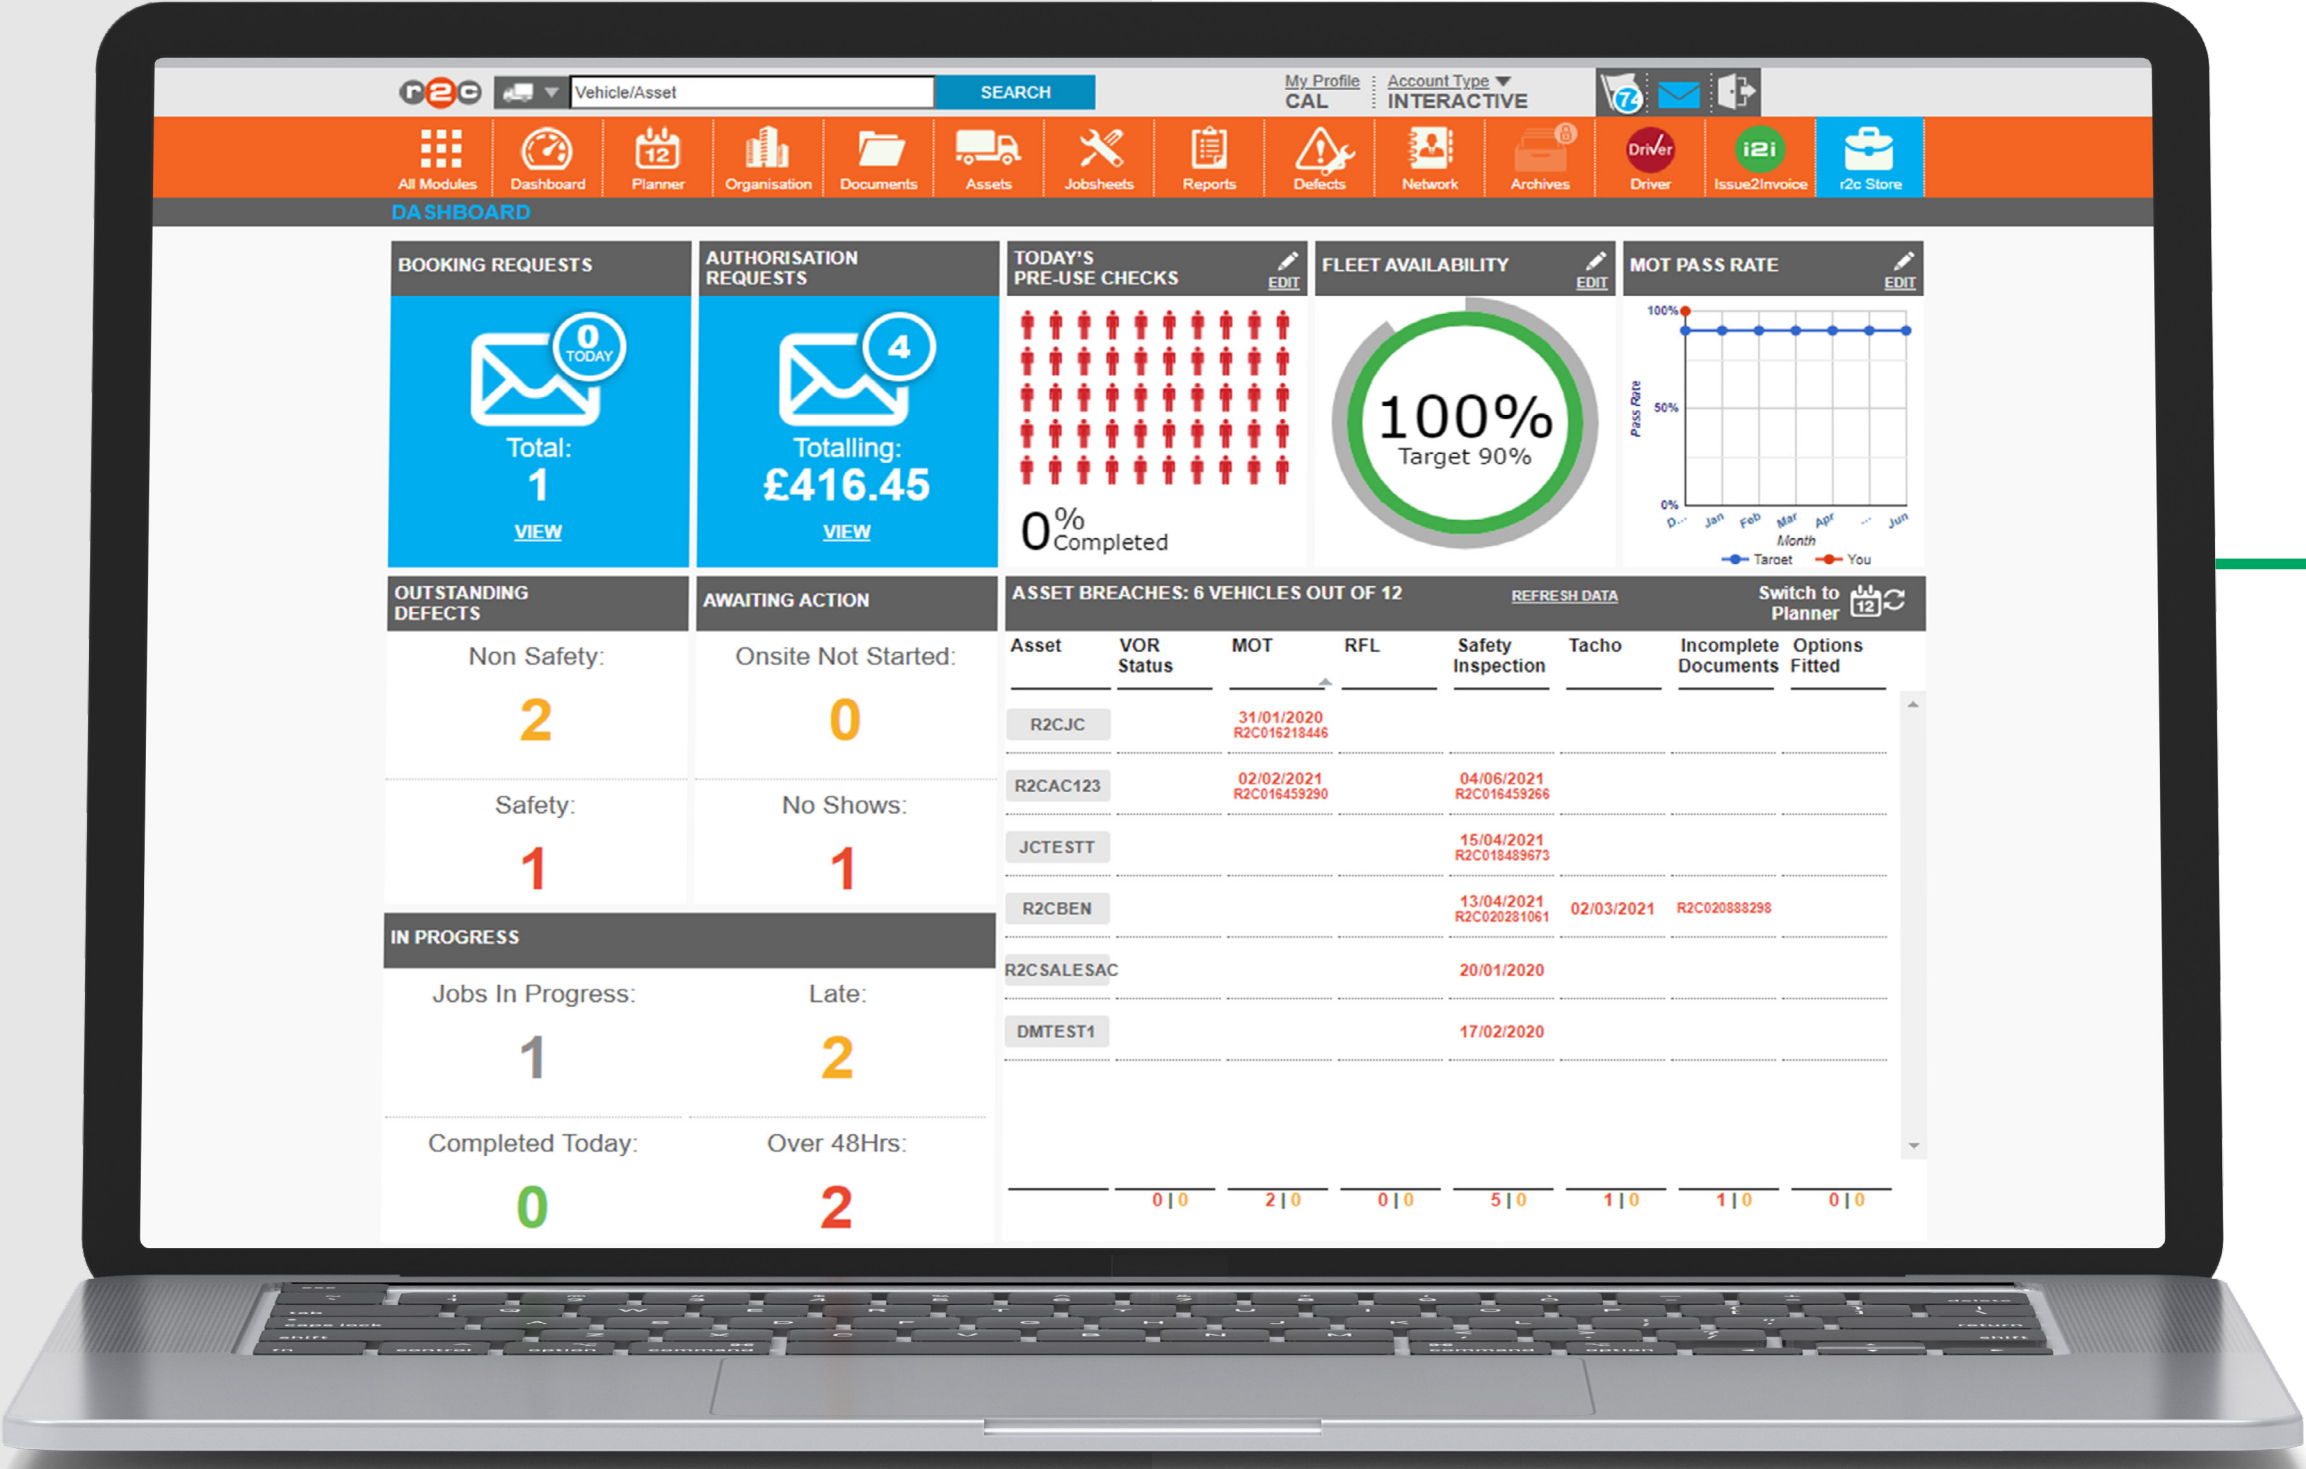

JAMES WALKER
GROUP SERVICE, MAINTENANCE AND REPAIR MANAGER

We understand that compliance management is a critical area for every customer. And, with one of the largest and most diverse fleets in the UK, we know the importance of being able to carefully plan events and access accurate, up-to-date, documentary evidence.

No matter how large or small your fleet, and whatever vehicles or equipment you operate, we want to make it easier to keep fully compliant vehicles on the road, delivering maximum value to your business.

The new Enterprise compliance platform is available free of charge to all customers and covers every vehicle we supply. As soon as you are registered and set up on the system, you will be able to:
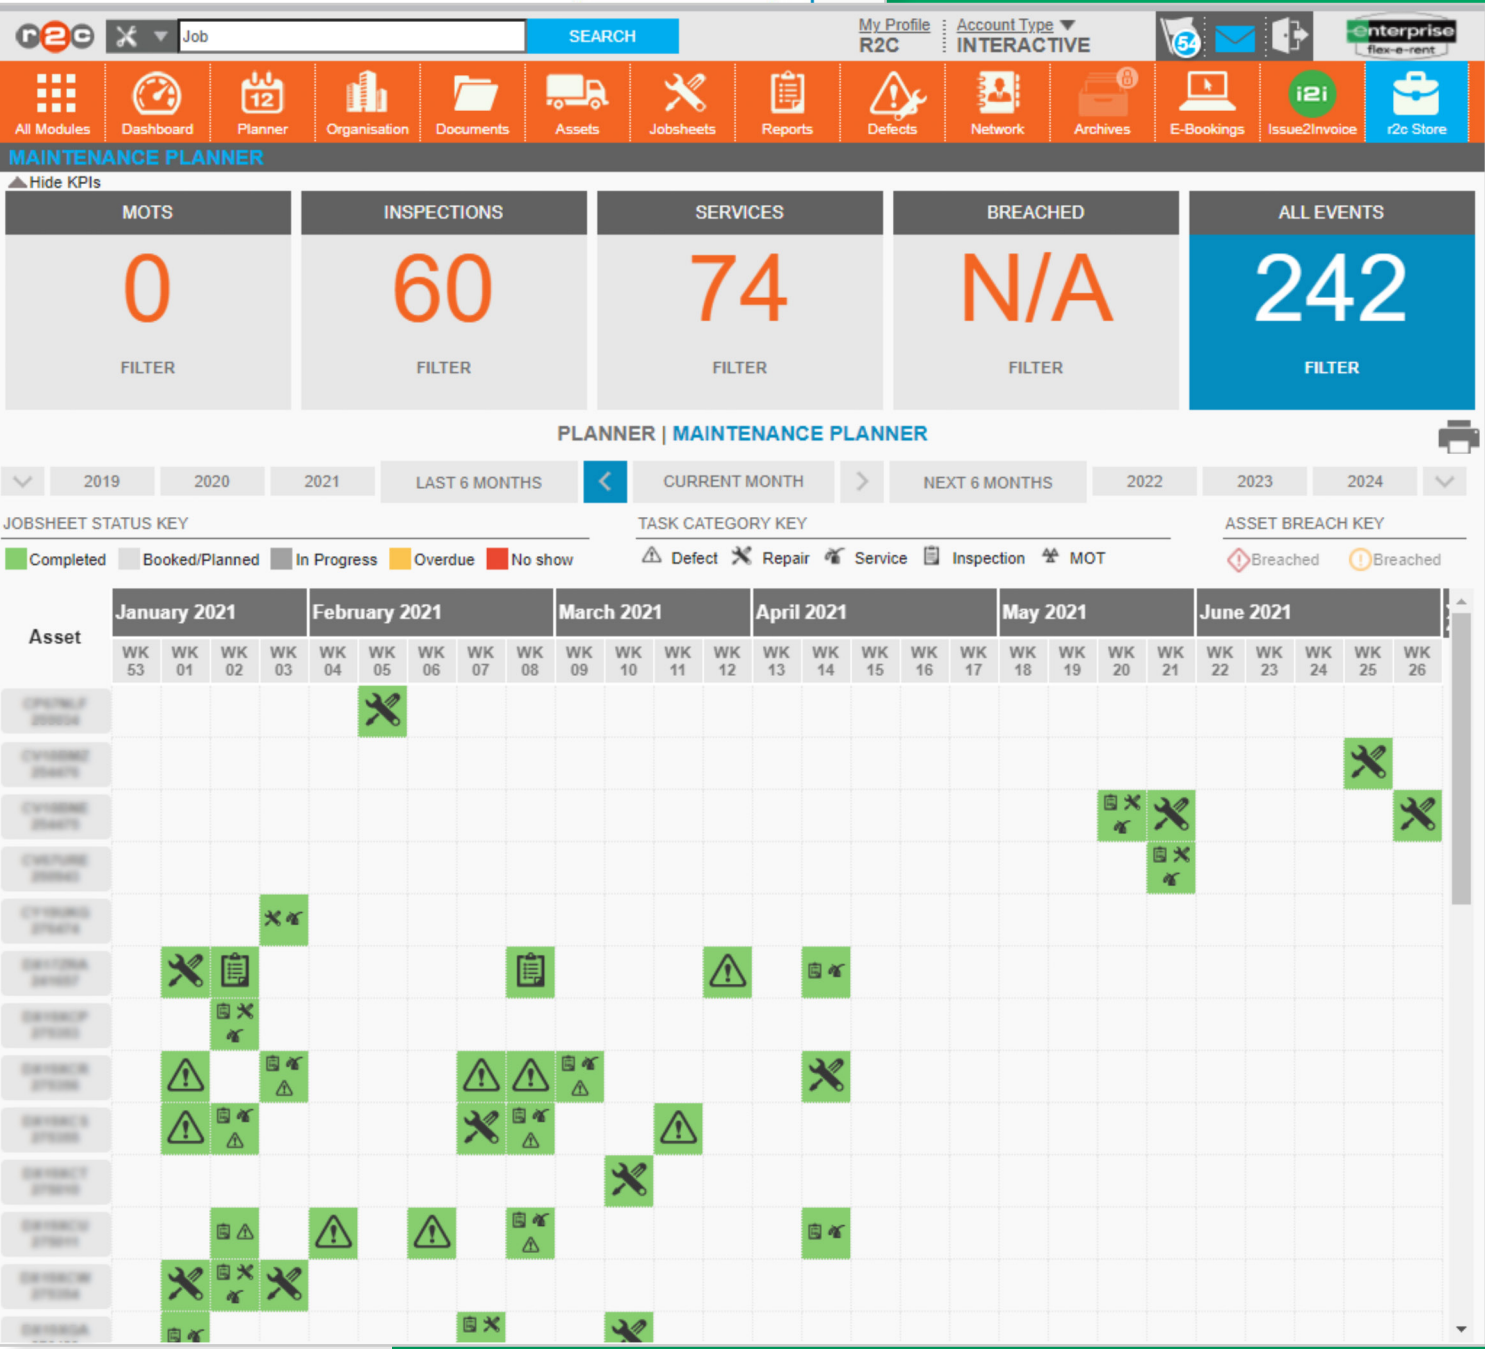

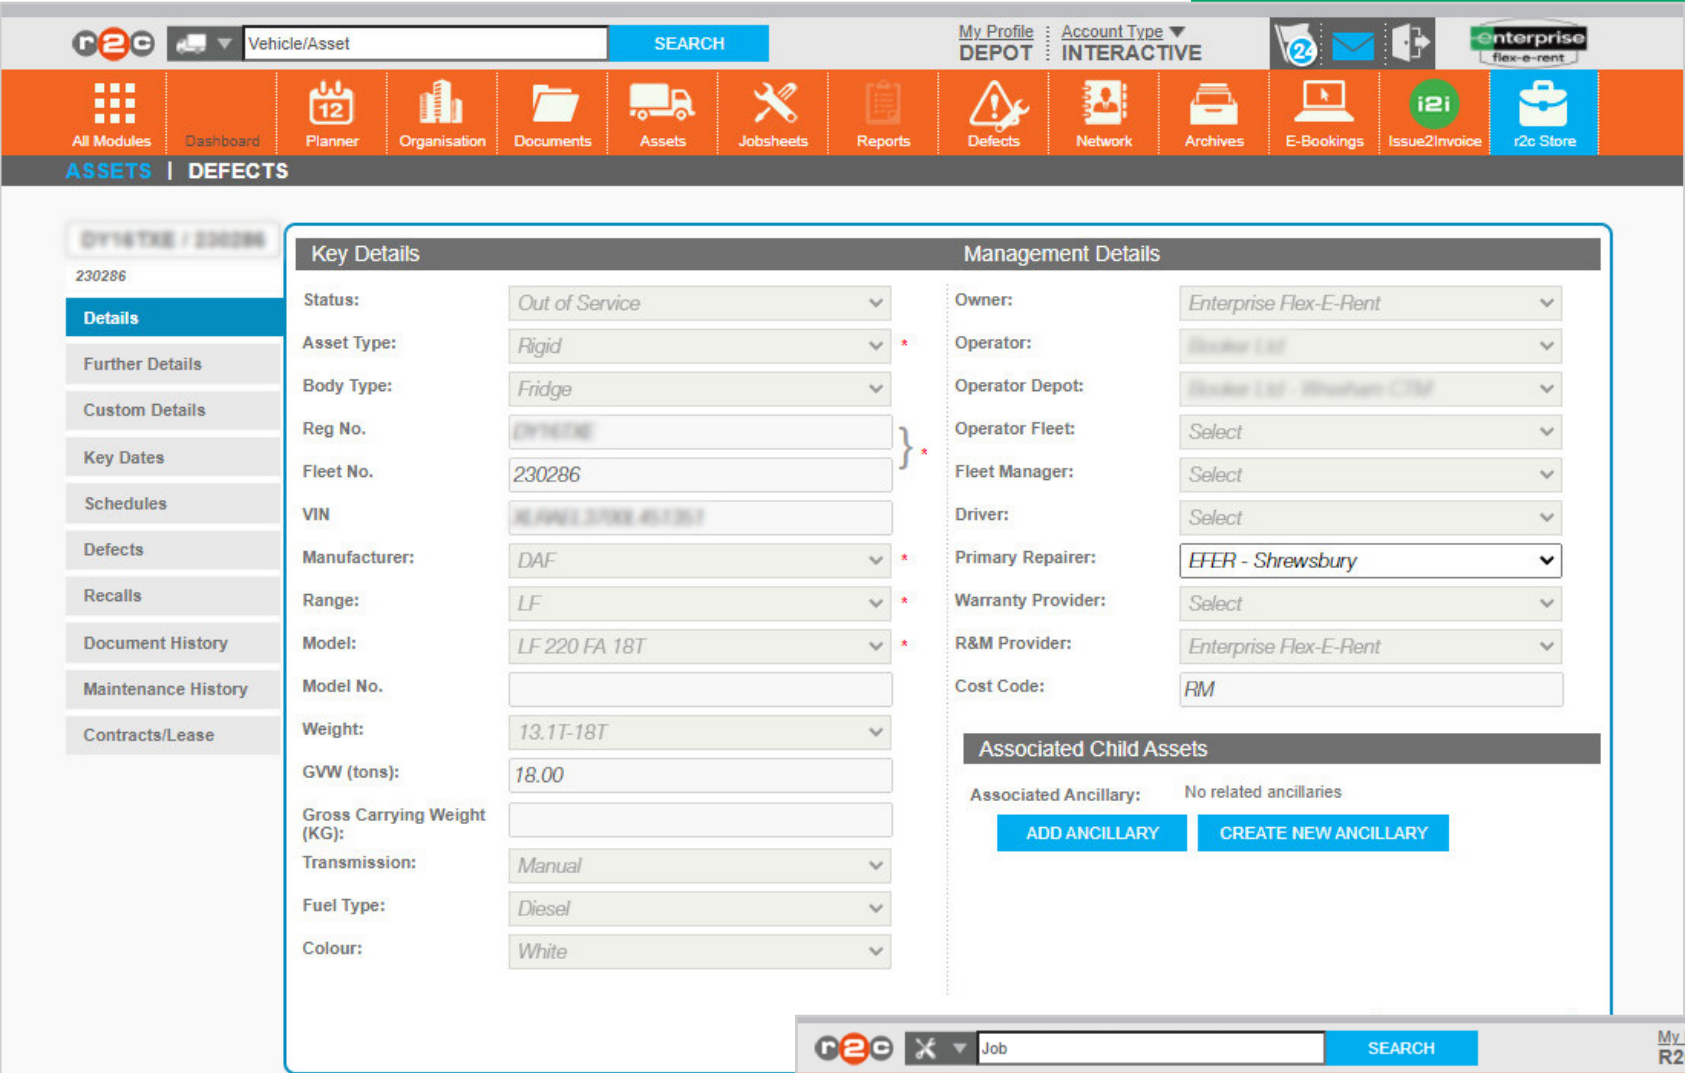

- Access a full schedule of events for your Enterprise fleet

- View a comprehensive list of all servicing and compliance dates for each vehicle

- View a complete history of inspections, repairs, and other events

- Download all relevant documentary evidence and reports

EASY SCHEDULING OF EVENTS

As soon as you access the new Enterprise compliance platform, you'll be seeing exactly the same information we use in order to manage your vehicles. This means that whether it is at fleet overview level, or an individual vehicle, you can clearly see when events are planned and determine how this fits in with your operational schedule.
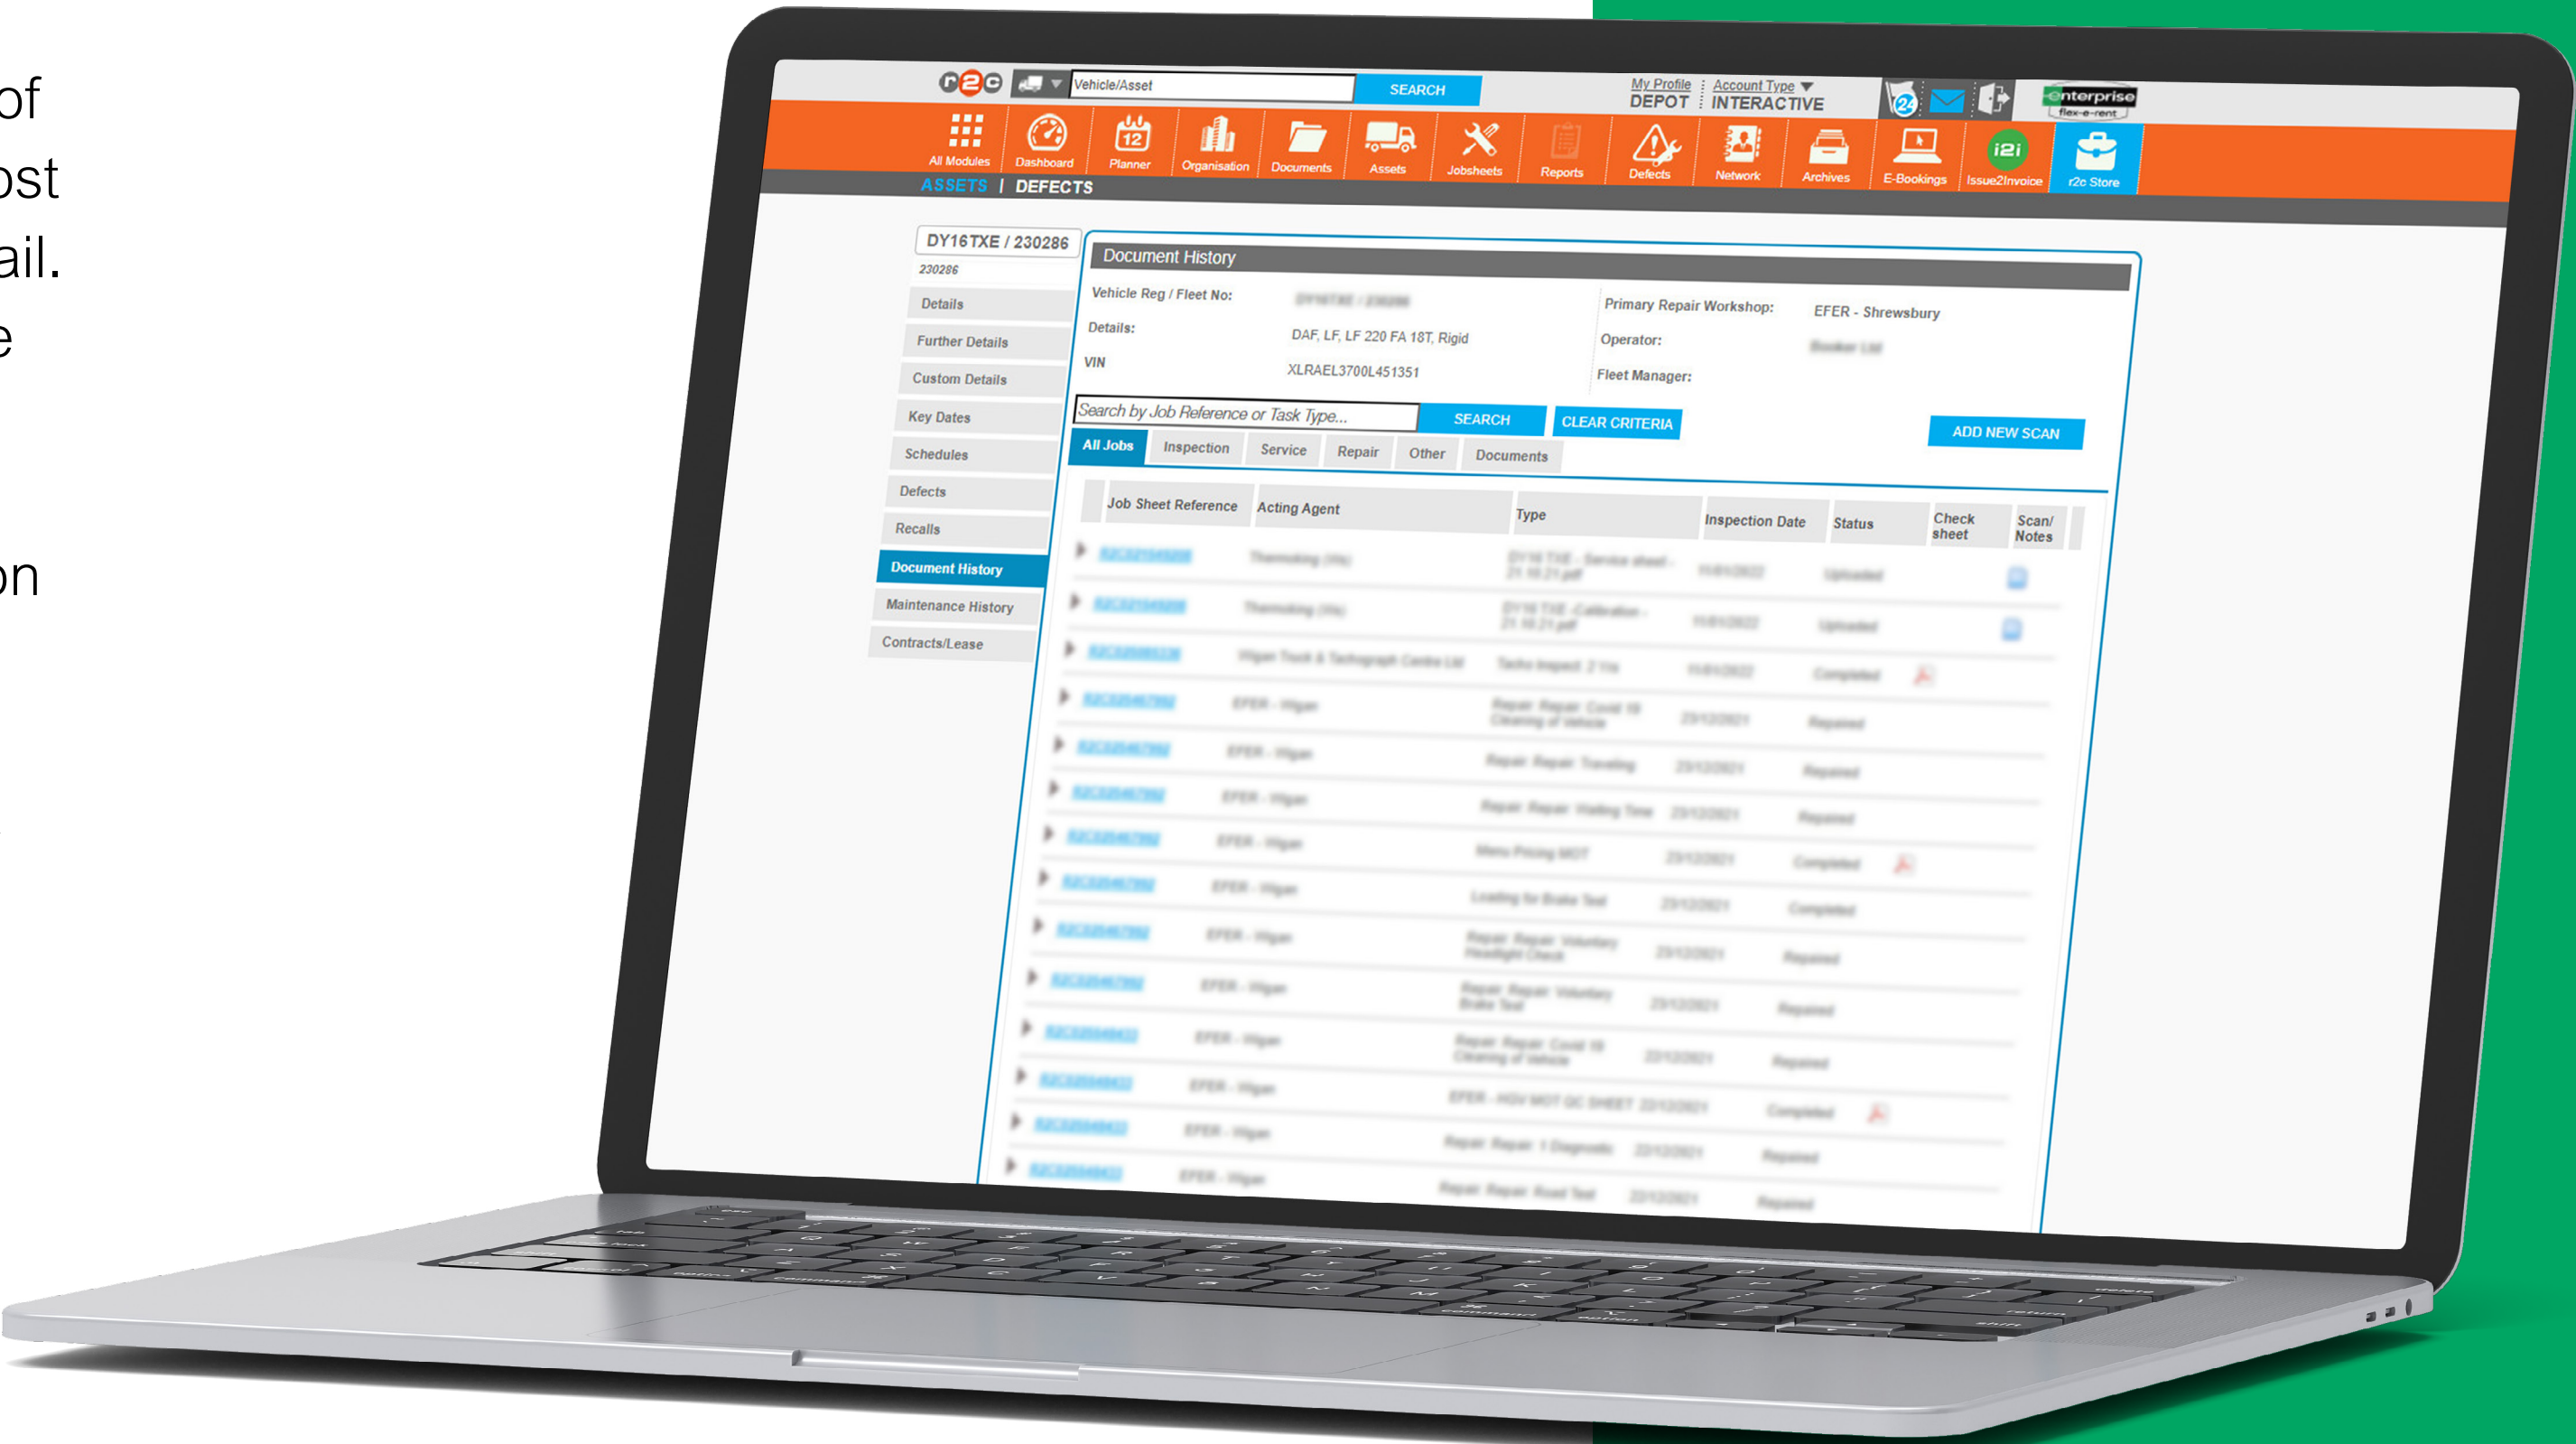

Once individual dates have been confirmed with you, the system automatically raises all the necessary paperwork so that the event can take place with the minimum of fuss. And don't worry, if any of the scheduled events don't fit in with your plans, you can request a change of date and see the new information updated in the system as soon as it's confirmed.

INSTANT ACCESS
TO VEHICLE DOCUMENTS

We know how important it is to access documentary evidence of all compliance related events and work carried out. To date, most customers have requested this information by telephone or email. It's a system that works, but there is an inherent delay whilst the request is received, processed, and responded to.

Now, you will be able to access all the necessary documentation for each Enterprise vehicle at a click of a button. This includes inspection reports, invoices, detailed servicing information and repair documentation. There's even a live DVLA feed of the last MOT issued date. In other words, you'll get instant access to all the information and documents you need to manage a fully compliant fleet.

HOW TO
REGISTER

We've made it quick and easy for everyone to get set up on the new system. Simply contact your Enterprise Account Manager and let them know that you would like full access to our R2C compliance platform and confirm with them:

👤 **Contact Name**

📞 **Contact Number**

✉️ **Email Address**

The best news of all is that there is no charge to register, access the system, or download the information you need. It's all part of our commitment to making it easier and more efficient to operate any type of Enterprise vehicle.

⊗ HOW CAN WE HELP YOU?
