

# LIONGARD IS UNPARALLELED AUTOMATION FOR MSPs

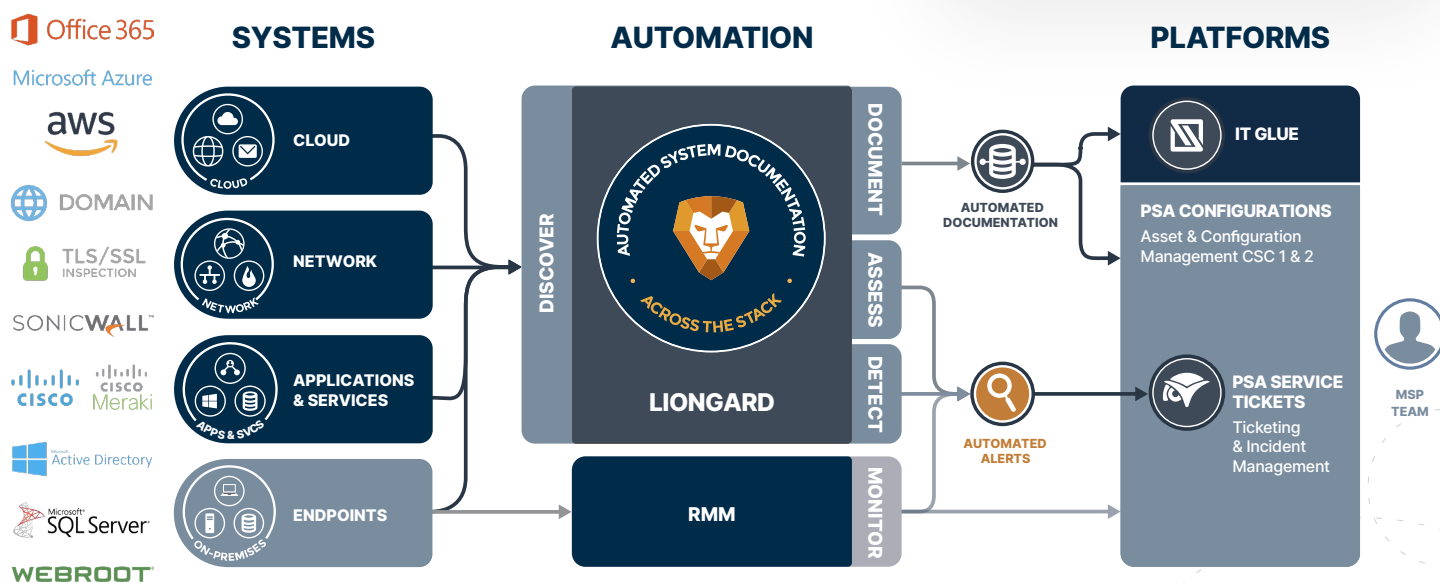

## AUTOMATED DOCUMENTATION

### IT GLUE PARTNERS UNDERSTAND THE VALUE OF DOCUMENTATION.

IT Glue partners understand the value of Documentation. Liongard's platform automatically remotes into systems to document configurations, and derives actionable insights so your team doesn't have to. With automated and up-to-date documentation, you can strengthen the processes that grow your MSP. Spend less time on manual tasks, and more time providing value to your customers. **Where the RMM stops, Liongard begins.**

"Liongard automates the documentation process and delivers all of that data in a central location, leaving our technical resources to do what they do best, and that is fix client issues. It has been a pleasure working with them and I couldn't recommend them highly enough.

**VINCE KENT**  
President, CloudIT, LLC

### ANSWERS YOU NEED, NOW

MSP teams can depend on rich, automated, up-to-date, and rustworthy system configurations to quickly resolve issues and confidently answer questions.

### SPUR VALUABLE ACTIONS

MSP teams can depend on rich, automated, up-to-date, and rustworthy system configurations to quickly resolve issues and confidently answer questions.

### DRIVE PROFITABILITY

MSP teams can depend on rich, automated, up-to-date, and rustworthy system configurations to quickly resolve issues and confidently answer questions.

## LIONGARD FEATURES: THE VALUE OF AUTOMATION

### FEATURE

### BENEFIT

Purpose-built for MSPs	→ Having been in your shoes, we've focused on the systems, the answers you need, and where you need them
PSA Integration & Live-Tables in IT Glue	→ Your team doesn't need another platform to learn. Roar continuously updates our Configuration Items into ConnectWise and into rich tables in IT Glue
Auto-Discovery of related systems	→ You can only manage what you know. With Auto-Discovery, Inspectors will find related and child systems to give your MSP a more comprehensive scope.
Pay-as-you-Grow Pricing	→ We're priced per customer environment, so you're not paying for more than you need
Unlimited User Licenses	→ Empower every team member with the ability to quickly answer questions and eliminate escalations
Multi-tenant Dashboard	→ Whether you have 20 customers or 1000, get access to all of your customers in one central location
Secure AWS Hosting	→ Liongard is software-as-a-service, so there's no need to worry about installing software, updating and patching
Rapid exports to CSV spreadsheets	→ Export data for QBRs, PBRs, and compliance reporting → Offer rapid Security, Policy, & User Access Reviews
Automated & continuous documentation with Time Travel	→ Unlike anything before, Liongard's Time Travel timeline feature lets you review historical snapshots so you can track changes and know when they happened. → Rapid troubleshooting & root cause analysis
Change Detection	→ Since snapshots are taken at regular intervals, Liongard indicates where certain critical changes have occurred
Assessments with Smart-Templates	→ Customize Liongard assessments so different rule sets apply to different Customers

## ROI CALCULATOR

	Hours to document	
x		Number of customers
x		Avg cost of hourly resource
=		Total cost of manual effort

An MSP spending 1 hour per customer across 30 customers, and an average cost of \$30 per hourly resource, results in \$900 of wasted manual effort per month!

## SYSTEM INSPECTORS

MSP teams can depend on rich, automated, up-to-date, and trustworthy system configurations to quickly resolve issues and confidently answer questions.
