Guide Book - Contents

1. [Year 12 Data Collection Process](#)
2. [How to set-up the API](#)
3. [Important rules for exporting student applications](#)
4. [Which fields are imported](#)
5. [How to perform the export of application data from Admissions+ to Cloud School](#)
6. [How to perform the export of UDF's from Admissions+ to Cloud School](#)
7. [How to perform the Classes export from Admissions+ to Cloud School](#)
8. [How to perform the import of Year 11 students from Cloud School to Admissions+](#)

Sixth Form Admissions Process

Section 1: Cloud School API Integration with Admissions+

1. Before you start to export data to your Cloud School MIS from Admissions+ you need to ensure your system is integrated with your MIS by setting up Applicaa for REST API.
2. Log-in as School Administrator in Cloud School.
3. Go to **System** → **Web API V2** → **Manage Companies Access**
4. Click on the **+** to add a new record.

Manage Companies Access

Company Name	Email	Active

Section 1: Cloud School API Integration with Admissions+

8. Click the save icon on the top right of the window to save the user. You will see the record has been added to the list.

At this stage, an email will be sent to **Applicaa** with a User Id and password which we can use to access the REST API.

Section 2: Important rules for exporting student applications

1. We use the First Name and Last Name to find existing contacts so they can be matched during export. If the returned contact has the same postcode they will be pre-selected in the list of contacts displayed.
2. We don't change addresses for on-roll students and existing contacts.
3. We can only add 1 email address to a student or a contact.

Section 3: Which fields are imported for students - name, birthday, gender and home address

Property Name	File Comment	How this processed	Cloud School Import
Legal Surname	60 characters max, 1 character min	Existing data replaced with new data from A+	Yes
Legal Forename	60 characters max, 1 character min	Existing data replaced with new data from A+	Yes
Preferred Surname	60 characters max, Default to Surname if missing or null	Existing data replaced with new data from A+	Yes
Preferred Forename	60 characters max, Default to Forename if missing or null	Existing data replaced with new data from A+	Yes
Former Surname	60 characters max, 1 character min	Existing data replaced with new data from A+	Yes
Middle Name	60 characters max, 1 character min	Existing data replaced with new data from A+	Yes
Birthday	YYYY-MM-DD	Existing data replaced with new data from A+	Yes
Gender	Either M or F	Existing data replaced with new data from A+	Yes
Flat name and or number		Addresses are only imported for new external students. The API does not support updating data (including addresses) for internal on-roll students	Yes
House name or number		Same as above	Yes
Street		Same as above	Yes
Town/City		Same as above	Yes
County		Same as above	Yes
PostCode		Same as above	Yes

Section 3: Which fields are imported for students - *phone, email, ethnicity, nationality, language, religion, service child, dietary and medical info*

Property Name	File Comment	How this processed	Cloud School Import
All Telephones	20 characters max	Existing data for students in pre-admissions is replaced with new data from A+	Yes
Email Address	60 characters max	Same as above	Yes
Ethnicity	Lookup	Same as above	Yes
Ethnicity Source	Lookup	Same as above	Yes
Nationality	Lookup	Same as above	Yes
Home Language	Lookup	Same as above	Yes
First Language	Lookup	Same as above	Yes
Religion	Lookup	Same as above	Yes
Religion Source	Lookup	Same as above	Yes
Service Child	Lookup	Same as above	Yes
Service Child Source	Lookup	Same as above	Yes
Dietary Needs	Can be Multiple needs. Lookup	Existing dietary needs in Cloud School are removed and news ones are added from A+	Yes
Medical Conditions	Can be Multiple conditions. Lookup	Existing medical conditions in Cloud School are removed and news ones are added from A+	Yes

Section 3: Which fields are imported for students - *SEN, GP details, mode of travel, UPN and Learner Code / Id*

Property Name	File Comment	How this processed	Cloud School Import
Do you have a SEN?	Can be Multiple conditions. Lookup	Existing SEN needs in Cloud School are removed and news ones are added from A+	Yes
What type of SEN?	Can be Multiple conditions. Lookup	Existing SEN needs in Cloud School are removed and news ones are added from A+	Yes
Agency Name			No
Agency House Number			No
Agency Street Description			No
Agency Town			No
Agency Postcode			No
Mode of Travel		Existing data replaced with new data from A+	Yes
UPN		Existing data replaced with new data from A+	Yes
ULN		Existing data replaced with new data from A+	Yes
Application Notes			Yes
Learner Code			Yes
Learner Id			Yes

Section 3: Which fields are imported for contacts - name, gender, parental responsibility and priority

Property Name	File Comment	How this processed	Cloud School Import
Title	Uses the Cloud School list of options (look-ups) for this property	Added for new contacts only. Update existing contacts available.	Yes
Relationship	Uses the Cloud School list of options (look-ups) for this property	Existing data replaced with new data from A+	Yes
Legal Surname	60 characters max, 1 character min	Added for new contacts only. Update existing contacts not available.	Yes
Middle Name	60 characters max, 1 character min	Same as above	
Legal Forename	60 characters max, 1 character min	Same as above	Yes
Gender	Either M or F	Same as above	Yes
Parental Responsibility	'T' for True or 'F' for False Legal parental responsibility	Existing data replaced with new data from A+	Yes
Contact Priority	1 – 10 This is the order of priority of a parent in terms of the school contacting home of the student	Existing data replaced with new data from A+	Yes
Emergency Level			Yes
Next of Kin			Yes

Section 3: Which fields are imported for contacts - phone, email and home address

Property Name	File Comment	How this processed	Cloud School Import
Contact ID	For new contacts this is generated on when the contacts is created and then saved on Cloud School and A+. If a contact on A+ is mapped to an existing contact in Cloud School, the Contact ID in Cloud School is saved to A+		Yes
Telephones	20 characters max	Added as new number, if the same number is already present then it is not added again	Yes
Mobile Telephone	20 characters max	Same as above	Yes
Work Telephone	20 characters max	Same as above	Yes
Home Email	60 characters max	Same as above	Yes
Flat		For new contacts addresses are imported. For existing contacts addresses are only imported if the existing contact does not already have an address in Cloud School	Yes
Number		Same as above	Yes
Street Description		Same as above	Yes
Town		Same as above	Yes
Postcode		Same as above	Yes
Country		Same as above	Yes
Same Address			Yes

Section 3: Which fields are imported for school - *LA / school number, name, entry / leaving date and reason*

Property Name	File Comment	How this processed	Cloud School Import
LA Number			Yes
School Number			Yes
School Name			Yes
Entry Date			Yes
Leaving Date			Yes
Leaving Reason			Yes

Section 3: Which additional fields are imported for learner - *traveller, county of birth and proficiency*

Property Name	File Comment	How this processed	Cloud School Import
Traveller			Yes
Traveller Name			Yes
Traveller Source			Yes
Country of Birth			Yes
Proficiency			Yes
Assessed Date			Yes

Section 3: Which other fields are imported for learner health - *learning difficulties, disability, allergy, food pref and dietary notes*

Property Name	File Comment	How this processed	Cloud School Import
Learning Difficulties			No
Disability			Yes
Allergy			Yes
Food Preference			Yes
Dietary Notes			Yes

Section 3: Which fields are imported for learner - *photo*

Property Name	File Comment	How this processed	Cloud School Import
Photo Data			Yes

UDFS and Teaching Groups are also imported

Property Name	File Comment	How this processed	Cloud School Import
User Defined Fields (UDFs)		Existing data replaced with new data from A+	Yes
Teaching Groups (timetable classes)		Existing data replaced with new data from A+	Yes

Section 4: Cloud School MIS Admissions+ Export

Step 1: Enrolling students to be exported

1. When your students are ready to be exported to your MIS they should be enrolled in Admissions+.
2. For Year 7 students this can be done within the Student Profile or in bulk:
Student Profile method
Bulk Student Selection method
3. For Sixth Form students when they are put on their Courses their enrolment status will change to Enrolled.
4. The **Student Profile** and **Bulk Student Selection** methods can also be used to enrol Sixth Form students.

Step 2: Exporting students to Cloud School MIS

1. Log into Admissions+.
2. Navigate to **Data** → **Export**.
3. Click on **Start an Export** at the top-right.
4. **Give you export a name** then select **Progresso** (Cloud School) and click on **Next**.

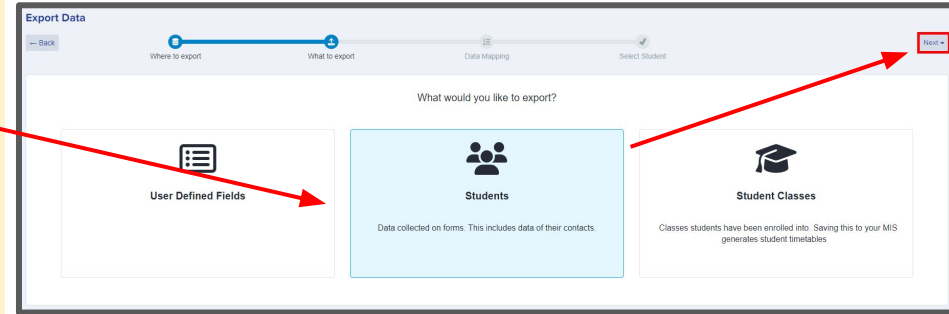

Start an Export

Step 2: Exporting students to Cloud School MIS

1. On the next step select **Students** then click **Next**.
2. On the next screen you need to:
Select **Academic Year** e.g. 2022/2023
Select **NCYear** e.g. 12
Select **Course Code** e.g. KS5
Select **Student Status** e.g. Draft (PreAdmissions)
Enter the **Date of Entry** e.g, 01/09/2022
3. The mappings should be correct then click **Next**.

Next →

SELECT PROGRESSO ACADEMIC YEAR, COURSE CODE, YEAR

Select academic year × ↓

Select NCYear × ↓

Select Course Code × ↓

Select Student Status × ↓

Date of Entry dd/mm/yyyy

Other Options

- Contact Priority is sequential
- Export Parental Portal for Parent

Step 2: Exporting students to Cloud School MIS

1. On the next step you may use the **Advanced Filters** and then **'Select all'** students for your export if required or you can select only students you want to export.
2. Click **Next**.

Step 2: Exporting students to Cloud School MIS

1. On the Progresso Student Mismatch Checking step potential mismatched students will be displayed if they are different in your MIS.
Click on **Resolve** for each student in the **Unresolved Matches** list.

Progresso Student Mismatch Checking

Potential mismatch students!
We have detected that **1 student** you are exporting from Admissions+ seems to have changed since it was originally in your MIS. This could be intentional, for example if a student has changed how they spell their name, or they may have moved house.

Unresolved Matches 1 **Resolved Matches** 0

Admissions+ Students	Progresso Students	Resolution	Actions
Kurt Wagner ↗	Kurt Wagner	Not resolved	✎ Resolve

Resolve Potential Mismatch

Fields	Admissions Student	Progresso student
Name	Kurt Wagner ↗	Kurt Wagner
Student ID	21	cloud8008
Gender	M	M
DOB	20/02/2007	19-02-2007
Email	oanh+student4@aplica.com	
Address

Select resolution:

Ignore difference and continue exporting

These are not the same person, unlink them

[Confirm & Next](#)

2. Select the **Ignore difference and continue exporting** option to confirm they are a match.
3. Select the **These are not the same person, unlink them** to confirm they are **not** a match.
4. Click **Confirm & Next** which will show the next student.

Step 2: Exporting students to Cloud School MIS

1. Once you have selected an appropriate option for your student(s) they will appear in **Resolved Matches**
Click on **Change** to select a different option if required.

Progresso Student Mismatch Checking

ⓘ Potential mismatch students!
We have detected that **1 student** you are exporting from Admissions+ seems to have changed since it was originally in your MIS. This could be intentional, for example if a student has changed how they spell their name, or they may have moved house.

Unresolved Matches 0 **Resolved Matches 1**

Admissions Student	Progresso Students	Resolution	Resolved on	Resolved by	Change resolution
Kurt Wagner	Kurt Wagner	Cloud8008	16 Feb 2023, 11:43	Andy Applicaa Support	Change

[Go to Student Matching](#)

2. Click **Go to Student Matching** once all students have been checked.

Please note: If there are too many mismatched students you will need to contact Support or your Customer Success Manager, when this happens the message below will be displayed and you will not be able to continue with the export.

Progresso Student Mismatch Checking

ⓘ Potential mismatch students!

We have checked the data you are about to import, and multiple records in A+ seem to have changed significantly from when they was originally in your MIS. This appears to be the case with 14 records in this import... To prevent the possibility of corrupting the data in your MIS, [we need you to contact technical support and/or your CSM](#), and they will be able to assist you in importing this data.

[Raise a Support ticket](#)

Step 2: Exporting students to Cloud School MIS

1. In the Arbor Student Mapping screen you will need to **Resolve** any **Unresolved Matches**.

Progresso Student Mapping 🔗 What should I do with matching students?

⚠️ **Potential duplicates detected!**
We have detected that **12 students** you are exporting may already exist in Progresso. Please review the rows below and let us know if we should create a new person, or match it to an existing person?
This typically takes around 3 minutes to check.

Unresolved Matches 1 **Resolved Matches** 11

Admissions+ Students	Progresso Students	Matching Score	Resolution	Actions
Zztimmy Zztestington-Fryer-Sampsonandellillah 🔗	Zztimmy Zztestington-Fryer-Sampsonandellillah	<div style="width: 100%; height: 10px; background-color: green;"></div>	Not resolved	🔧 Resolve

2. Select the **Merge to Progresso student** option to merge them with the selected student, there maybe more than one student displayed to select.
3. Select the **Export as new student** option to export them as a new Arbor student.
4. Select the **Skip this student** option to not export them.
5. Click **Confirm & Next** which will show the next student.
6. Click on **Next**.

Resolve Suspected Duplicates

Export Admissions+ student as a new Progresso student.
This keeps information from both Admissions+ student and Progresso student as separate records.

Skip this student for now and decide later.

11 / 12 Resolved

[Confirm & Next](#)

[Next →](#)

Step 2: Exporting students to Cloud School MIS

1. On the Contact Mapping step contacts will be pre-selected if they match.
Select New Contact if they are not an existing contact in your MIS or Skip Contact if they should not be synced. Contacts are matched using the following rules:
 1. The system looks through existing Cloud School contacts, and finds any one with an exact match for the First Name and Last Name as the person on Admissions+
 2. Matching people are listed as 'Potential Matches'
2. Click **Next**.

Matched to an existing contact - links the A+ and Cloud School contact, saves the Cloud School Contact Id to Admissions+ and updates the available data from A+ to the Cloud School contacts (see the data table for import rules)

New Contact - creates a new person in Cloud School

Skip Contact - does nothing, the contact is not imported

Step 3: Export Report

1. Once the export process has finished click on the report to check your students exported successfully.
2. If there were any issues with the export you will see the reason in the **Export Status** column for each student.
In the example below all students and contacts were exported successfully.

Export Finished!

1 students were processed!

Step 1: Importing students

1. Select **Progresso** (Cloud School).
2. Click **Next**.

Step 1: Importing students

1. On the **Data Mapping** step click **Next**.
The Cloud School and Admissions+ properties will already be mapped. If anything hasn't been mapped they can manually be mapped to a property.
2. On the **Import Summary** step select a year using the **Filter By Year** drop down or select a start date using the **Filter By Start Date** dropdown.
3. Click on **Select all** to import all students into Admissions+.
4. Click **Next** to **Import** your students.
