

# Mov-it Telesitter Cart

Our Mov-it Telesitter Carts help leverage technology, enhancing patient care, and add to the financial bottom line.

The Telesitter can be equipped with a video camera and 2-way audio that transmits to a central monitoring station. The lightweight, clean, and small footprint design fit into nurse workflows seamlessly.

Traditional approaches of patient sitters are no longer financially sustainable for many facilities. Tele-sitters have entered the scene as a reliable resource that has bridged the gap of budget cuts and staffing shortages.

Create your "perfect fit" telesitter solution today.

## Features

-  63" Fixed height frame (optional rotatable tablet mount) meets just about any users height need
