Making Sense of Measurement

October 2021

Don't miss this coffee chat with Geoff on Oct 26th !

He will discuss how QIF will be a crucial brace to absorb the blow of the labor shortage. We'll review the demographic stats and show why the cresting wave of retirements will hit Inspection

Departments hardest. We'll show some examples of how QIF helps by enabling critical tasks to be automated and to manufacture faster, better, cheaper. And we'll look at a couple of ongoing QIF implementations to extract valuable lessons learned.

Recap of CMTS 2021 - A Great Success

All attendees at SME's [CMTS 2021](#) said the same thing: "it's great to be back." Origin exhibited with its partner [CAD Micro](#) at CMTS. To accommodate COVID concerns there was a virtual and an in-person trade show at the same time. Given that, the in-person turnout was expected to lag previous years, and it did. The in-person attendees made up in enthusiasm for what they lacked in numbers. Based on what we heard, the outlook for investment is good.

There was significant interest in [CheckMate Point Cloud Metrology](#), and learning how to mesh CMMs and scanners into inspection workflows, using CheckMate.

One topic that threaded through one-on-one conversations and conference presentations is how to deal with the growing skilled labor shortage. The Education Task Force, group of industry partners, suppliers, teachers and school board officials facilitated by CTMA (Canadian Tooling and Machining Association), is working to improve technical courses currently being taught in schools. Retired toolmakers have gotten teaching credentials, machine tool vendors have donated equipment and now six school boards are offering hands-on machining instruction in their high school shop classes. Check out the [Career-Ready with CTMA Program](#). To support this effort, Origin has joined CTMA.

CHECKMATE UPDATE

A new update of CheckMate is targeted in the 4th quarter. It is taking us longer as we are adding a new module. Stay tuned! Stay in the know by [subscribing to our blog](#). You will be notified of upcoming update information.

What Our Customers Have to Say

You are Awesome!!!! You Guys always take care of us!! Thank You! **Kevin Romanowski/ Quality CMM Programmer / Bucher Hydraulics Inc.**

Just so you know...YOU'RE THE BEST!!! In all my years in this industry (like 30+) , I've NEVER had or heard of this level of response and support with software!! And I've been around. **John C. Morin III / G.P.R. Co.**

"Checkmate technical support is superb, it is like the search engine "Google". You ask Cecil a question, literally, I receive a reply most of the times in minutes. I really appreciate Checkmate technical support team"

Riyad Abdel-Ghani / Pilkington North America
