

## Which of your staff have been vaccinated for Covid-19?

EdSmart's COVID-19 Certification Management gives your school risk management peace of mind. It provides an easy, efficient and secure means of knowing everyone's immunisation status at a glance, which assists your school in its compliance with Federal and State vaccine mandates.

With privacy considerations top of mind, staff can control how, what and where data is shared while remaining securely encrypted within EdSmart.

Existing EdSmart schools can be up and running in less than 10 minutes. New customers can be set up in just 60 minutes.

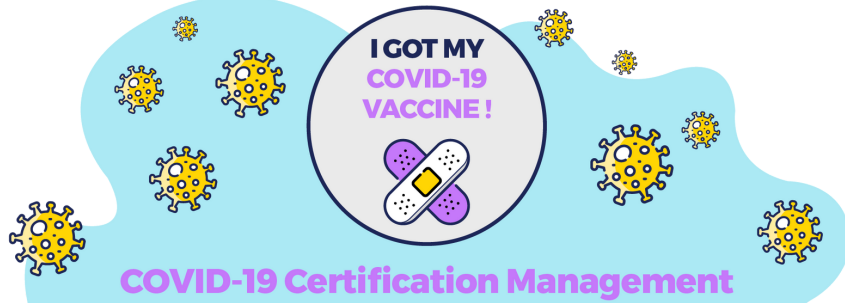

### Save time and say goodbye to spreadsheets:

EdSmart's COVID-19 Certification Management function is so simple to use yet powerful in the information it provides and safeguards. Schools can securely collect crucial vaccination data and evidence via an encrypted platform to keep everyone safe.

## COVID-19 Certification Management

### How does it work?

- Verify evidence as your Administration staff evaluate uploaded vaccination records to ensure they meet requirements.
- See what percentage of the school community have been vaccinated and how progress is trending.
- Download certificates and make them easy to import to other systems.
- Ensure compliance – staff are listed by vaccination status.
- View real-time results via the Leadership dashboard.
- Track progress to vaccination goals with instant access to reporting for identification of at-risk staff.
- Provide critical reporting and insight into your school's governance, risk and compliance management efforts.
