

INFORMMOBILE

REACH YOUR CUSTOMERS FROM ANYWHERE
WITH ON-THE-GO ERP ACCESS

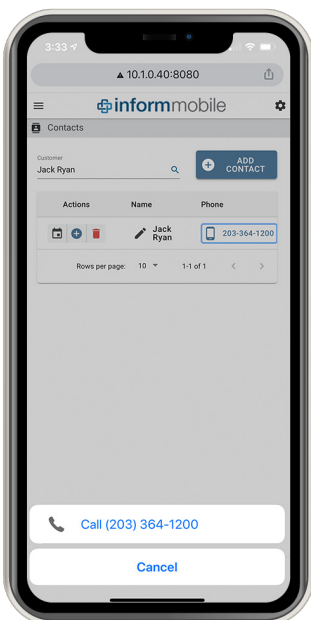

Equip your team with contactless
selling tools

InformMobile is real-time ERP with screens expertly designed by our US development team to harness big ERP functions and data on a small smartphone screen, so you can service customers anytime, anywhere.

POWER YOUR SALES TEAM FOR INCREASED PRODUCTIVITY

- ✓ ERP functionality in the palm of your hand
- ✓ View and create follow-up tasks while on the road
- ✓ Build quotes and orders or inquire and edit existing ones
- ✓ Add new customers and non-stock products
- ✓ Create a sales order, place a call or make a follow-up task right from the contact
- ✓ Checkout with on account or credit card payment
- ✓ View A/R and send customer invoices
- ✓ Place a call or send an email directly from the contact with just one click

Place Orders with Visibility Into Order Status & Availability

- ✓ Manage order details
- ✓ Adjust ordered, ship and backorder quantities with internal and external line item notes
- ✓ Ship products from alternate warehouses
- ✓ Find and edit orders and modify sell prices
- ✓ 100% compatible and in real-time sync with Inform Desktop and Inform eCommerce

Increase field sales with the ability to create sales order and quotes with your smartphone

Frequently Asked Questions

Is the data in InformMobile live from our server or is it updated periodically?

InformMobile data is a real-time sync that matches data on both Inform desktop and Inform eCommerce.

Can signatures be captured for deliveries with InformMobile?

InformMobile allows for proof-of-delivery signatures to be viewed on customer invoices. *(They cannot be captured with InformMobile)*

Can I take credit cards on InformMobile?

Yes! Allow customers to pay on account or with a credit card.
