

# SELLER CLOUD FOR INFORM ERP

SELL YOUR PRODUCTS IN ONLINE MARKETPLACES

## Solve the Multi-Channel eCommerce Marketplace Challenge

*DDI System is proud to offer Inform ERP users the ability to connect to leading online storefronts. Maintain online catalogs automatically, retrieve sales orders & refresh inventory counts. This service is beneficial for customers operating in multiple selling channels, or looking to eliminate double order entry from outside shopping cart websites.*

### Get your products online with a single connector to shopping cart systems and marketplaces

- ✓ Connect with one or multiple online selling channels
- ✓ Manage a single connected gateway to update online catalogs, accept prepaid marketplace and webstore orders, and return order status and tracking numbers to multiple connected systems
- ✓ Maintain a single, synchronized integration point for inventory and product pricing across multiple sites
- ✓ Periodically refresh products, eCommerce price, and inventory availability
- ✓ Automatically receive online orders and update shipment status. with package tracking info from UPS, FedEx, and USPS
- ✓ Inform manages prepaid and post-shipment payment methods appropriate to different channels

*Participate in high-traffic online marketplaces including eBay, Walmart, Amazon, Sears, Newegg and more*
