**For custom to measurements option (without mold) and for optimum fit and results we REQUIRE providing us with ALL of the measurements & frontal photo of the patient's knee. Please scan and email the photo and orthometry form to*

info@anatomicalconceptsinc.com

**More than 10 degrees varus/valgus REQUIRES cast to accompany measurement form*

**For custom to mold option and for optimum fit and results we REQUIRE providing us with the * measurements*

Suggested L-Codes:

L1846- Double Upright KO (Base code)
L2755- ADDITION TO LOWER EXTREMITY
ORTHOSIS, HIGH STRENGTH, LIGHTWEIGHT
MATERIAL, ALL HYBRID LAMINATION/
PREPREG COMPOSITE, PER SEGMENT, FOR
CUSTOM FABRICATED ORTHOSIS ONLY

It's recommended to obtain proper medical necessity from patient(s) physician for any orthosis before you measure/fabricate any device.

For Treatment of Osteoarthritis (OA), Degenerative Joint Disease (DJD), Genu Varum (Bowleg), Genu Valgum (Knock Knee), Knee buckling from pain or musculature impairment, Gross medial – lateral instabilities

Casting Tips (for custom to mold options)

1. Take a non weight bearing mold with the leg in a corrected position.
2. It is helpful to align the leg in the frontal and sagittal plane in the most pain free position (slight distraction may be beneficial).
3. Place the knee in a comfortable fully extended position (as possible).
4. It is advisable to complete all of the measurements.
5. Place the cast removal cutting strip on the posterior aspect of the leg if possible.
6. If possible cast impression should be a minimum of 10" above and below the knee center.
7. It is REQUIRED to outline the border of the patella with an indelible pencil and locate and mark the knee center.
8. Please create indentation to cast impression on both sides of the patellar tendon with fingers on order to locate the center of the patella accurately.
9. Please tape or staple cut seam to prevent distortion to cast impression during shipping.

ANATOMICAL CONCEPTS INC.
C-FAB POLICY UPDATE

01/01/2016

Due to the high demand for our custom made devices the standard turnaround time on C-Fab cases is approx. 10-15 business days.

Please note these cases are not guaranteed before 15th day unless the listed **RUSH option is checked on our Orthometry form.**

As customary, all **RUSH options requested by our C-FAB customers that require us to put on hold other cases before them will need to expect an additional service charge as follows:**

RUSH options for any C-Fab cases are:

24hrs = \$100.00 ea.

2-5 business days = \$75.00 ea.

6-9 business days = \$50.00 ea.

Conversely, if there is no need for us to place existing cases on hold or the need for us to compensate our technicians for overtime hours then no additional rush service charge will be imposed.
