

Changing a data series in a model

In some circumstances it may be necessary for you to replace a data series in your model. This document guides you through how you can do this.

First, you will need to navigate to the My Models section of Mintec Analytics; you can do this by clicking on **My Models** from the home screen or by clicking on the My Models icon on the navigation bar.

Next locate your model in the sidebar, click on the three dots to beside the model name and then click the **edit** icon.

Then choose the model category that your data series resides in (i.e. Raw Materials, Packaging, Transport). Now you can change a data series simply by clicking on the series name and then using the search bar or category menu to select new data series to add to your model.

	ADD MODEL	SELECT A SERIES	×			~
	Raw Materials	Search for data series		Advanced	Formula Builder	
Q	Packaging	Please select a category			Total Percentage 1	Rescale %
200	Transport	Beverages	322		Series	Percentage
	Energy	Economics	1792	O OSC Weight	CRPD - Cocoa powder exw E~	40 1
	Labour	Energy & Transport	727		4D32 - Sugar white granulat~	30
	Duty/Tariff	Fish Food Ingredients	775 700		J118 - WMP mp EU ~	30
	Other Cost	Forest Products	562			
		Fruit, Treenuts & Derivati	1134			
		Grains, Feed & Derivatives	954			

Once you have made the necessary changes to your model, click **Save** to keep the changes.
