RSS feeds in Dashboards

Follow the step-by-step instructions under the 'Need help?' button for "Create a Dashboard"

Select the 'Information Panel' widget, click and drag it to a space on your Dashboard:

Mintec	ADD DASHBOARD	Back to My Dashboards Save	
Q	New Dashboard Name		
000			
\bigcirc			
负			
	BAR CHART		
	SPARKLINE		
		he Information Panel Widget allows you to display news articles orm other websites via RSS feeds.	

Under the 'User-defined' option you can paste in a url for a feed from any source external to Mintec.

CREATE A WIDGET	Add User-defined Feed	
Search Feed type	Feed Title	Feed URL
User-defined	Feed Title	Enter the URL
Mintec Standard RSS Feed	+ Add Feed	

Searching for an RSS feed on a site you visit regularly

Go to your usual website e.g. http://www.fruitnet.com/fpj

Either search for an "RSS feed"

Or search for the RSS icon:

fruitnet.com/fpj

No. of Concession, Name of	Sainsbury's suppliers 'must cover no-deal tariffs'	25	Dave Lewis to step down as Tesco boss

You can click on the feed once you've found it and you will see a page of code – that's the code for the feed to go from that website to a 'container' such as the Information Panel.

Don't worry about the code - it looks very complicated!

Copy the url

Back to Mintec Analytics – paste the url in to the 'Feed URL' field, give the feed a title in the 'Feed Title' field, and click on the 'Add Feed' button

CREATE A WIDGET (X)	Add User-defined Feed		
Search Feed type	Feed Title Feed URL		
User-defined	Brexit news http://www.fruitnet.com/fpj/rss/topic/brexit		
Mintec Standard RSS Feed	+ Add Feed		

Complete the Widget Properties (give the Info Panel Title and choose the size, then click 'Ok' to save.

You will see the articles from the RSS feed you've added in the Information Panel and each item is clickable, so you can click and a new tab will open allowing you to read the article in full.
