GAS DETECTION
RENTAL
PROGRAM

INDUSTRIAL SCIENTIFIC

• Turnarounds • Outages • Special Projects • Emergencies
• Experiments/Tests • Contractor Work • Repair Replacement

4 REASONS to RENT

When you need gas detectors, and need them quickly, renting is the most efficient and effective route. When speed is critical, gas detectors can be readied for same-day or next-day delivery. Whether the driving factor is a turnaround or outage, special project, natural disaster, or repair replacement, you can depend on Industrial Scientific rentals for your short-term gas detection needs.

1. FULLY STOCKED INVENTORY

With **over 25,000 pieces** of equipment available for rent, we have you covered. The best part is—if we run out, we can quickly add more instruments to our rental fleet because we manufacture them!

2. HIGHEST QUALITY

Our rental equipment is serviced by **factory trained** Industrial Scientific employees. Who better to rent from than the same people who make the equipment?

3. WIDE VARIETY

Whether it is a simple H_2S personal monitor or a high-tech 7-gas area monitoring system with wireless communication and live monitoring, we can meet your needs. We also rent our **full line** of accessories including probes, spare battery packs, and docking stations and can make recommendations based on your application.
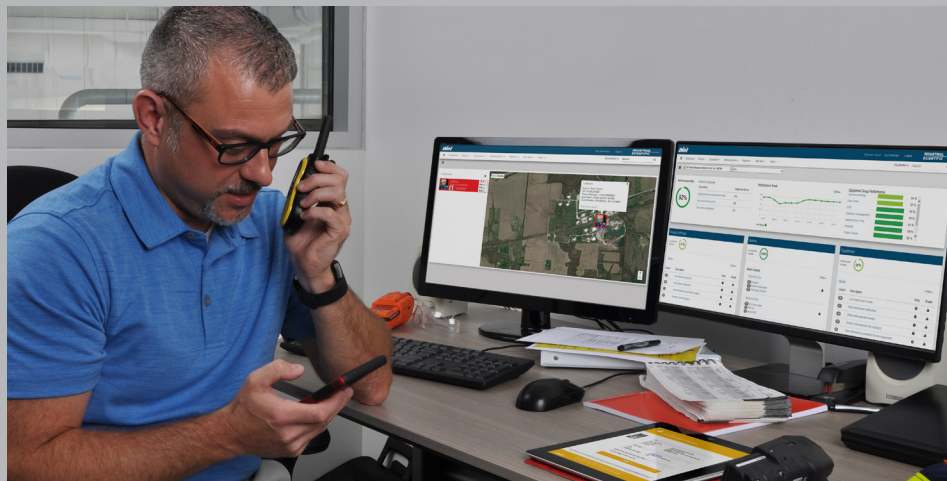

4. FAST DELIVERY

In most cases, we can ship rental orders the **same day**. Pick-up service is also available from our Pittsburgh, Houston, and Edmonton facilities. Monitors will be pre-calibrated, and calibration certificates will be included with the instrument.

LIVE MONITORING RENTAL SOLUTIONS

Connecting your Radius® BZ1 Area Monitor and/or Ventis® Pro5 Multi-Gas Monitor to your central command center for live monitoring is as easy as **1-2-3**.

1. Build Your Radius® BZ1 and/or Ventis Pro5

2. Choose your RGX™ Gateway

3. Activate your iNet® Now account

Contact Industrial Scientific to learn more about our gas detector rental service and to discuss how easy it is to set up real-time monitoirng on your next project.
