

Safe Elevators

THE PROBLEM

The customer is a manufacturer of all types of elevators catering to Residential, Commercial, Industrial and Hospital needs. The products are designed to offer superior performance under a wide range of environmental conditions in India, keeping in mind harsh climates, uncertain power supply. They have installed and Maintained lifts all over India and count leading builders amongst their clientele . The customer is using a Bending L3 Model Salvagnini Make Machine for its manufacturing purpose.

FUJI ELECTRIC SOLUTION

The team of engineers from Fuji Electric studied the operations of the customer and based on this suggested the installation of a Falcon 5000 UPS of 60 KVA rating in a standalone configuration.
