

Matchless Masalas

THE PROBLEM

The Problem: The customer is a leading player in the packaged masala, candies and mouth freshener category with manufacturing plants across the country and a turnover of Rs 6500 crores. As the manufacture the various masalas and mouth freshners in continuous process all equipment needs to be operating in a continuous basis.

FUJI ELECTRIC SOLUTION

The team of engineers from Fuji Electric did a study of the requirements of the customer and the operations of the manufacturing process and based on this suggested the installation of multiple UPS units to be installed to provide back up to important and critical equipment in the plant. The customer currently has 2 nos of Falcon 5000 UPS of 250 KVA, Falcon 8500 UPS 120 KVA and 60 KVA
