

# Perfect Tools & Dies

## THE PROBLEM

The customer is in the business of making Tools and Dies in Chennai over the last twenty five years using a variety of state-of-the-art CNC machines and supporting Conventional machines. They cater to Tools & Dies of highest accuracy to the ever growing demands of Industry and also makes complicated 3D shaped components. The machines need uninterrupted power supply for the various CNC and laser cutting machines to work perfectly and reduce the wastage as well as rejects.

## FUJI ELECTRIC SOLUTION

The team of engineers from Fuji Electric did a detailed study of the site and the requirements of the customer, based on this the team suggested installation of a Falcon 7000 UPS of capacity 160 KVA for the TRUMPF laser machine used for flexible sheet metal and tube processing for laser cutting.

## CUSTOMER NAME

A Leading Heavy Machine Company

## INDUSTRY

Heavy Machine

## APPLICATION

Laser Machine

## PRODUCT / SOLUTION

UPS

## LOCATION

Chennai

## RESULT

The customer is happy that they have reduced the wastage of raw materials as well as rejects of finished products with the installation of the UPS over the last two years. They have also been able to ensure optimum usage of the machine as downtime due to power fluctuations has been eliminated.
