

Perfect Steering

THE PROBLEM

The customer is one of the oldest auto component manufacturer in India based out of Chennai with group sales of over 5000 crores. They are preferred supplier for many OE and suppliers for global auto majors manufactures steering and suspension systems, friction materials, valve train components, occupant safety systems, die-casting products and provide connected mobility solutions.

FUJI ELECTRIC SOLUTION

The team of engineers from Fuji Electric studied the requirements of the customer and the various types of Horizontal & Vertical Injection Moulding machines and CNC Machines used for the manufacture of critical auto parts. Based on this they recommended the installation of a Falcon 5000 UPS of 100 KVA rating to ensure the perfect operations of the various injection moulding and CNC machines.

CUSTOMER NAME

Leading Steering Systems for Auto

INDUSTRY

Auto Components

APPLICATION

Injection Moulding & CNC Machines

PRODUCT / SOLUTION

UPS

LOCATION

Chennai

RESULT

The customer is satisfied with the solution suggested by Fuji Electric and the operations of the UPS in supporting the injection moulding and CNC machines.
