

# Drives for Packaging Industry

## BACKGROUND

World Largest Laminated Packaging & manufacturer Company of tubes with 20 state of the art facilities in eleven countries, selling approximately 7 billion tubes. These facilities cater to diverse categories that include brands in Beauty & Cosmetics, Pharma & Health, Food, Oral and Home. The company required rugged, durable and low maintenance drives for the extruder motor as well as blower and tube cutter to maintain continuous operations.

## FUJI ELECTRIC SOLUTION

The Fuji Electric team of engineers studied the requirements and suggested a 30 kw Mega Series VFD to rotate the main extruder motor and three more VFD to rotate the blower, co-extruder and the tube cutter.

## CUSTOMER NAME

World Largest Laminated Packaging Company

## INDUSTRY

FMCG/Packaging

## APPLICATION

Extruder

## PRODUCT / SOLUTION

Variable Frequency Drive (VFD)

## LOCATION

Bhiwandi, Maharashtra

## RESULT

The customer has been able to operate its extruder machine in a smooth and uninterrupted way over the last one year after installation of the new Fuji Electric drives.
