

# Perfect PET Processing Machinery

## BACKGROUND

The customer facility is one of the most modern and largest manufacturing facilities among PET processing machine manufacturers in the world. The facility started operations in 2000 and it is a 100% Export Oriented Unit.

## FUJI ELECTRIC SOLUTION

The team of engineers from Fuji Electric studied the requirement of the customer and suggested installation of total 22 no's of HVAC drives with V9series HMI. All drives communicate on Ethernet communication with single HMI. Through the single HMI all the drives can be operated as well as monitor all data from the cabin.

## CUSTOMER NAME

Japanese PET Processing Machine Manufacturer

## INDUSTRY

Plastic

## APPLICATION

AHU

## PRODUCT / SOLUTION

VFD

## LOCATION

Mumbai

## RESULT

The operations of the customer have been working smoothly for the last 6 years without any interruptions.
