

Bank

THE PROBLEM

Our customer the training college of country's central bank established in 1963 in Chennai that primarily caters to the training needs of the officers of the bank over their entire career cycle. The College conducts programmes meeting the knowledge and skill needs of the participants on various central banking policy areas. It also conducts international programs for participants from various foreign central banks on topics such as Fintech Regulation, Payment and Settlement Systems etc. The college has various types of servers including web servers, mail servers, and file servers which support the smooth conduct of various courses as well as systems and printers.

FUJI ELECTRIC SOLUTION

A team of engineers from Fuji Electric did a detailed study of the site and the requirements of the customer for the servers, computer systems and printers and suggested the installation of two numbers of Falcon 7000 UPS of 80 KVA rating in parallel configuration.
