

Safe and Perfect CT Scan

THE PROBLEM

The customer is a multi speciality hospital located in Indore, they have been in operation over the last 3 decades and are well known in the city for their patient care. The hospital has a Toshiba and Wipro GE machine for CT scans which require uninterrupted power supply to operate smoothly and give good imaging for the doctors to make an accurate diagnosis.

FUJI ELECTRIC SOLUTION

The team of engineers from Fuji Electric studied the requirements of the customer and the CT Scan Toshiba and Wipro GE - Optima 360 and based on this suggested the installation of a Falcon 8000 UPS of rating 120 KVA in a standalone configuration.
