Role Definition

About Us

EV is a young, fast paced, growing FinTech company and the leading UK provider of financial planning and advice technology.

Working with over 80% of large financial institutions in the UK, EV's white labelled solutions were used by approximately 200,000 consumers and financial advisers in 2017.

We have 70 talented integrated specialists, working across offices in Newbury and London.

The benefits of joining our exciting team

As well as offering fantastic opportunities for career progression once established in your role, you will be joining a friendly and relaxed working environment where you will be continuously supported and encouraged to reach your full potential. We have an open culture where you are encouraged to find and fix problems and not to pass them on to some other team. We are a great environment for makers and builders.

Sound like you?

We have fantastic benefits, including

- 25 days annual leave, bank holidays, one extra 'company day' for Christmas plus the option to buy a further five days annual leave
- Generous company pension scheme
- Bonus
- Private medical
- Long term disability and Life Insurance
- Study support policy
- Free parking
- A huge range of free hot and cold drinks
- Excellent fully funded company events
- Weekly yogalates classes (on return to office)
- Company football team and Table Tennis team (on return to office)
- Poker nights with pizza! (on return to office)
- The opportunity to support local charities through fundraising events organised throughout the year

Actuarial Analyst/Tester

Key responsibilities

You will have responsibility for the set-up, testing and servicing of channel solutions and stochastic modelling tools, accountable to the Delivery Lead.

Working closely with the developers, Delivery Lead and other analysts, you will have responsibility for:

- functional and numerical system testing of new and existing tools
- independent checking of stochastic forecast results
- ensuring your channel solutions are maintained with standard regular updates, adhering to solid processes and checks. For example, returns updates, tax year updates
- carrying out small client projects with support from more senior members of the team, including running Client Acceptance Test windows with direct contact with our clients
- supporting the resolution of Service Desk incidents and support queries directed to your channel

Within your role you will be keen to:

- show a positive 'can do' attitude, completing work as required within provided timescales
- define and monitor processes to enable optimal delivery, fostering a culture of continuous improvement
- help the non-technical audience to understand the technicalities of our solutions

Required knowledge:

- strong numerical background
- excellent attention to detail
- sound knowledge of Excel

If you want to be part of a business that is looking to shape the future of financial services, contact us today!
