UNKNOWN SPEAKER: Yeah yeah. It's a term what it he give you the wrong number and Here's looking at it 1 night. 1 2. Sorry. fine. Yeah means you got Long Road. Yeah. Hello. Why. so that means 30 time there's a naked number. Law you tell you at a part of numbers are you sure. Yeah but I just reduced Stott's Hydro Ken and now my requirements requirements number. Wow are went to to the 2 3 she's gone. Yeah think that Besides wrong. When I need to take that money. No no no you right. 2 law. Under this. 9. Ok so positive number as long can a numbers are you sure Yeah. Now. so what did you say is that boy me what it says imbalance is you taking the resource imbalance it OK OK thanks for coming home oh no I am I130K I've got AI got a resource imbalance divided by. Number of days times 24 times A199 pence times -1. Well is the fine I see 8 years. That sign is right it depends which are you looking at it because the embarrassing recess a mountain light 25 actually moved sure long because you take care are you loads of you might have thing you resources the Hydro on the phone matter G99 want to harsh required. 32. Hydro engineer. 25. Ok so what are you resource imbalance shows a number 10 please. Excellent. to mackerel. Ok so that means we. Access by law in Hydro now it makes sense to me I am I got it. Yeah thank you for explaining my sheet. Sorry fixed up. No no this is what we have you when we talk about. This is the exactly 10 and we need 10 at the tournament and you can extend as the are now obviously well having sex for size was poor budget purposes. For those purposes I made some assumptions that while. They may not. You know. Track. I figured they were as good as any you could make and that is that. Ah. oh requirements. On a monthly basis we'll be. Right but the his life to numbers in just added the because back. Peak get a hotel. And. on the energy the Hydro are foam energy years contractual marriage Helena that's good number. On the Hydro I'd use last juice. Petrol. and the bats properly. I Dunno I mean that. Oh up it's Gonna look like but right now January a lot of. Course the thing though they might they might come back and say oh by the way it's better the year A1 It's 9 point it could always have and but certainly below the

ramo rights go now on year and now. The more sophisticated in tech manufacturing and the just headquarters at Company headquarters in silicon valley bad Rolling blackouts you don't like electricity the how did you ever used and be cared that damn thing to work perfect so much promise. Well no just Freaks me out of time has come out and say that. We're not going to be rest of the country not going to be impacted the you know how old is got. The work was problem and. The for the rest of the company of you OK heard rest of the country. Where the Hell are these guys later. Well earned. Nasdaq. NASDAQ index is probably 580% and Cal. Ahead. head you said by NASDAQ and say the rest of the clutch it doesn't get affected well you know majority of the company if that would represent the NASDAQ going to have an impact of the prices rise by step substantial figure. You've heard the I feel a cop that than and know working with you in saying that this is call a good thing to do then we did that. Take a look at the Excel spreadsheet I like it a little bit I think it's not only from the standpoint of like it out that price for it and just right now looking for to say that er it's bullish but also because are you guys better said of I do there yeah I'm what you told me if that's the way that's the way I model of the well so we always take the you know the um the risk of the market craps out of what are you guys on prudent you'd like to sit and and have yeah feel that yeah that's that's always there but er can they always come to the other way I knew if they'd let him bless put up with family um. Oh no amazing that a steam which coming and going right. But I think mum 1 is got buy off. To go ahead of like some of the stuffing got a do it what a dynamic fired. What are you know where we're kind of. We're looking at some other stuff in this was brought up. 1 345 years from now were a set of sell to be and so it's had flexibility 10 extend this you know we want to make about plateau trough. So. good Let's. So take a look at it again hopefully Tomorrow morning I'll be able to get your exactly what it is that we need. To talk to

# Insights: Additional Extractors and UI Improvements

The screenshot displays the Adobe Insights v2 web interface. The browser address bar shows the URL: `xd.adobe.com/view/1c4ad69d-7cab-4f46-ace0-7ed1aa047e43-4919/screen/489e8f34-6837-4ec4-aa35-992bcea20241/?fullscreen`. The interface features a blue header with the Adobe logo and navigation links for "Matter Name" and "ZyLAB\devtest2".

The main content area is titled "Extraction Rules Library". It includes a search bar labeled "Search by Entity rule name" and a list of extraction rules. The "E-mail" rule is selected and highlighted in orange. The rule list includes:

- NER Money
- PTM Reynen Court
- Regex E-mail (selected)
- Regex Persons
- NER Geolocation
- Query Money
- NER Persons
- NER Location
- Query Vehicles

The right-hand panel shows the configuration for the "E-mail" rule. It includes the following fields:

- Name:** E-mail
- Extraction Type:** Regex
- Entity Type:** E-mail
- Extraction Query:** A complex regular expression for email extraction: `(?([a-z0-9!#$%&*+=/?^_{}~]+(?[a-z0-9!#$%&*+=/?^_{}~]+)*)"(\x01-\x08\x0b\x0c\x0e-\x1f\x21\x23-\x2b\x2d-\x2f\\[\x01-\x09\x0b\x0c\x0e-\x7f])*)@((?([a-z0-9]([a-z0-9]|\x01-\x09\x0b\x0c\x0e-\x7f)+)\.)(3((2(5[0-5]([0-4]([0-9])1[0-9]([0-9])1[0-9]([0-9]))\.)|(3((2(5[0-5]([0-4]([0-9])1[0-9]([0-9])1[0-9]([0-9]))\.)|([a-z0-9]([a-z0-9]|\x01-\x09\x0b\x0c\x0e-\x7f)+)\.)))`
