

About the Company

Operating professionally and responsibly are key goals for us. We ensure continuous improvement in our team through membership of the Energy Industries Council, the Institute of Directors and Institute of Export.

Quality is key to our product and the service conditions it is used for, consequently our management systems meet the requirements of ISO 900:2015 and all stock fulfils the requirements of NACE standards where appropriate.

To demonstrate our keen commitment to both Health & Safety and environmental matters we have adopted an Integrated Management System meeting not only the requirements of ISO 9001:2015 but also ISO 14001:2015 and OHSAS 18001:2015. This helps to ensure that we minimise our impact on the environment and maintain a safe and productive working environment and this system has been fully audited by BM Trada Exova.

Customer Care is our priority and we pride ourselves on being able to tackle complex issues quickly and effectively. Our extensive market and product knowledge allows us to provide beneficial and complete solutions for our customers.

No client problem is too big or too small.

Fittings and Flanges

Tolerances: ANSI B16.5 Grades: ASTM B564 Inconel Alloy 625 (UNS N06625), ASTM B564 Incoloy Alloy 825 (UNS N08825)
