## Aggressive Portfolio

31<sup>st</sup> October 2021

**Investment Strategy:** kōura KiwiSaver has six Funds that clients can invest into. Unlike other providers Koura portfolios are customised for each client, into a mix of these six funds based upon our digital advice tool. These fact sheets have been prepared to allow an investor to compare how a kōura “aggressive” portfolio might have compared against other multi asset funds.

This is a portfolio of kōura funds that is appropriate for an Aggressive Investor with a long term investment horizon. This portfolio is suitable for people that are at least 10 years away from retirement and have a higher tolerance for risk.

*These performance numbers are calculated by kōura Wealth based on a blend of the performance of the underlying Koura Wealth Investment Funds as applicable above, the performance is net of fees and gross of tax.*

The Koura Aggressive Fund had a return of 1.68% in October, and is up 23.41% for the year.

US Equities fund performance had a strong month following last months fall. Corporate earnings in the US delivered extremely strong results ahead of high expectations, and the market closed the month reaching new records.

New Zealand Equities and Fixed Interest were the detractors this month.

Rising yields pushed bond valuations lower, and the NZ equity market didn't enjoy the rally seen offshore. It did see strong performances from the Consumer led sector, with the Warehouse and Briscoes performing well, along with A2 Milk and Synlait Milk.

The market environment for equities may remain volatile for a few months as the market waits for more certainty over interest rates, inflation, growth outlooks and the re-opening of economies around Covid restrictions.
