What we can do for you!

Our registration software provides a seamless experience for your divers. We streamline complex configurations, collect waivers and renewals, sell merchandise & more.

For more information on our features, [click here](#).

Registration for Club Activities, Events & Membership

Provide your members with a streamlined registration process to join the club, the PSO and any activities or programming. Save time spent reconciling and validating club and program registrants have valid memberships.

Administration & Reporting Tools

From your club dashboard you can generate reports, manage registrations and member records, edit registration processes, integrate MailChimp, adjust prices and offer discounts, set up event registration, edit confirmation emails, forms and branding and more.

Waiver & Health Declaration Collection & Storage

A key part of return to play is making sure that all participants, coaches, officials and volunteers complete a COVID-19 self-declaration of informed consent. Interpodia's advanced waiver and digital agreement technology helps mitigate risk and ensure compliance.

Customization & Branding

Every step of your member's experience, right through to their credit card statement, can be styled to reflect your club's branding.

Club Store

Create a new revenue stream. Our platform enables you to integrate with a third party merchandise fulfillment centers so athletes receive directly.

Fundraising Integrations

Offer members the option to donate during registration and easily create personal fundraising pages to campaign for donations and issue tax compliant receipts.

Managing your club's activities and events in H2OReg is *fast* and simple!

We make it easy to set up activity registration for your club with rules that validate and integrate the registrants membership with the club and Diving Canada.

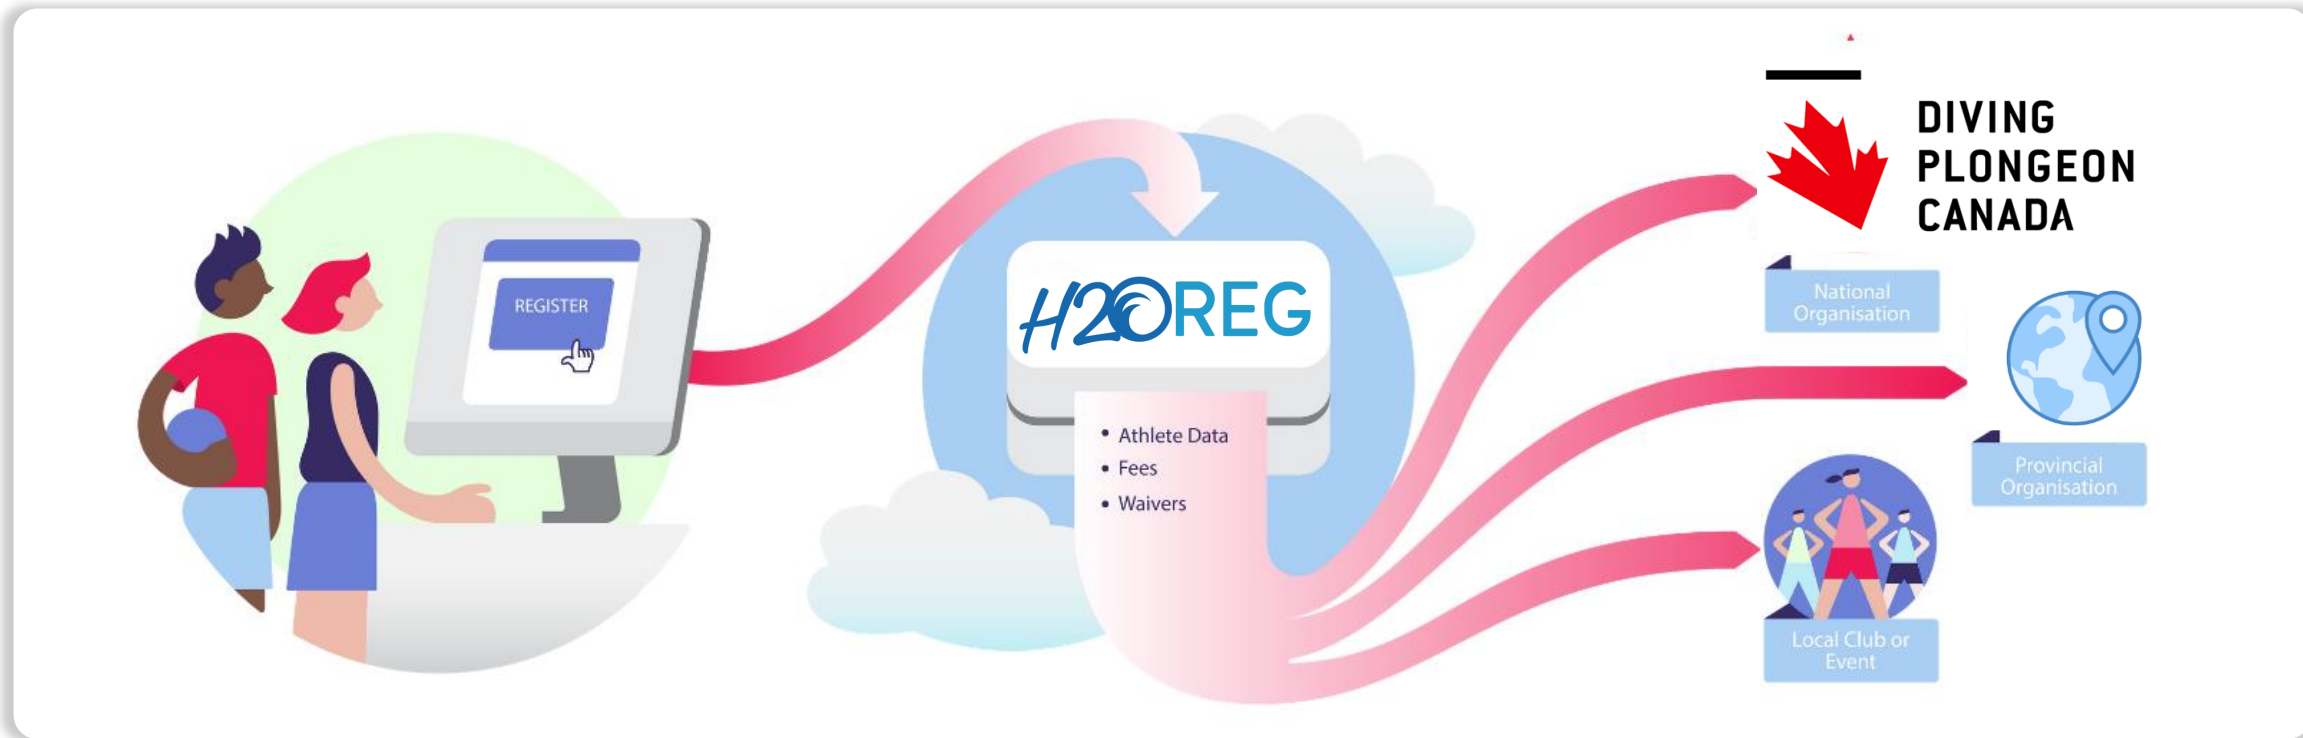

Are you a club administrator? Experience H2OReg for yourself. Let us set you up with a registration process and a free trial.

What this means for your divers.

Members can register online using H2OReg and pay by credit card or offline payment method (Cheque, cash, EFT). **Here's the fun part!** In one online transaction, we can manage for your diver multiple registrations (including for your activity, club and PSO), along with any insurance fees or merchandise purchases.

Then on our backend, our integrated system splits the fees, athlete data and waivers to the correct organization. Saving time and avoiding confusion for you and for athletes, and mitigating risk for your organization.

— How to Get Set-Up with H2OReg

The transition to H2OReg is easy! Once you have a requirements consultation, our team will configure a prototype of your club's H2OReg portal based on your information.

Then two representatives from your club will attend a H2OReg training session which will cover how to create and manage a diving activity or event, and cover all the administrator and financial tools.

Once you are satisfied with your configuration, sign-off and you are good to go!
