

FACTORS THAT INFLUENCE BULK STORAGE BUILDING DESIGN

TYPE OF PRODUCT

What will you be storing?
What are the properties (weight, particle size) of that product? Is it corrosive?

TONNAGE

How much product will you store?

NUMBER OF PRODUCTS

How many storage bins will you need?

EQUIPMENT

What equipment will be used in the building?
Where will it be placed?

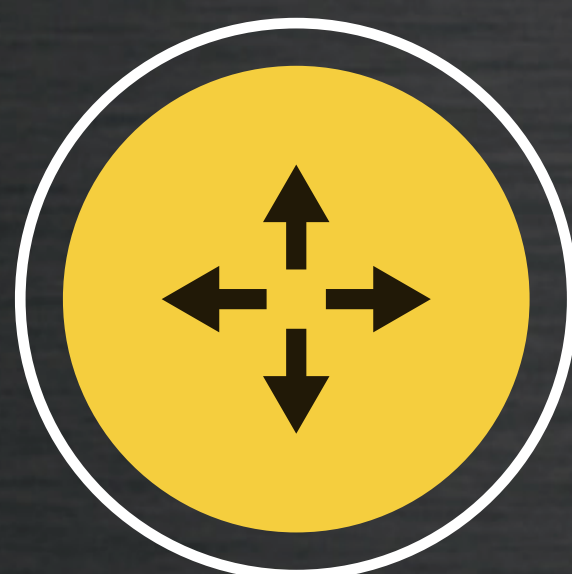

BUILDING USE

In addition to storage, what will you do in the building?

AVAILABLE FOOTPRINT

How much space is available?

LOADING

How will product get in and out of the building?
