THE SOURCE FOR FENCE PROFESSIONALS

MASTER HALCO®

Wholesale Only Policy

CREDIT - To establish credit account, Customer must contact their local branch of Master Halco for further details.

PAYMENT - For qualified customers, terms of payment are 0.5% 15 days, net 30 days unless otherwise indicated on the face of this document. Cash, COD and credit card transactions are not eligible for payment discounts. Sales on credit and payment discounts will not be allowed when account reflects a past due balance or payment has not been made in accordance with Terms of Sale. Unearned payment discounts will be charged back on regular invoices.

MINIMUM ORDER - A $5.00 handling charge will be added to orders totaling less than $25.00.

SERVICE CHARGE - All past due balances are subject to service charge of 1 ½ % per month (18% annual), or the maximum permitted by law, whichever is less. Should an action be brought to collect any balances past due or other terms hereof, the prevailing party shall be entitled to recover court costs and reasonable lawyer's costs.

RETURNED CHEQUES - For cheques returned due to insufficient funds a $30.00 charge lor the maximum charge permitted by law) will be assessed for each cheque returned. If payment discount is applicable on the transaction, this discount will be disallowed and charged back on a separate invoice.

WARRANTY POLICY - Supplier warrants that materials sold hereunder are free from defects in material and workmanship and conform to the product description on the face hereof. Certain materials are covered by additional written limited warranties which provide warranty coverage for a specific duration of time and which are incorporated herein. Copies of these additional written limited warranties are available upon request at all Supplier offices.

THERE ARE NO WARRANTIES OR CONDITIONS, INCLUDING BUT NOT LIMITED TO WARRANTIES OR CONDITIONS OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, EXPRESS OR IMPLIED, BEYOND THE TERMS OF THIS EXPRESS WARRANTY AND THE WRITTEN LIMITED WARRANTIES AND CONDITIONS APPLICABLE TO CERTAIN MATERIALS INCORPORATED HEREIN. SUPPLIER DOES NOT AUTHORIZE ANY OTHER PERSON OR AGENT TO ASSUME FOR SUPPLIER ANY OTHER LIABILITY OR OBLIGATION IN CONNECTION WITH MATERIALS SOLD. CUSTOMER'S EXCLUSIVE REMEDY IN RESPECT OF NON-CONFORMING MATERIALS OR FOR DELAY OR NON DELIVERY FOR WHICH SUPPLIER IS RESPONSIBLE, SHALL BE LIMITED TO THE RETURN OF SAID MATERIALS AND THE REPAYMENT OF THE PURCHASE PRICE PAID BY THE BUYER; OR IN THE CASE OF NON-CONFORMING MATERIALS, AT THE OPTION OF SUPPLIER, THE REPAIR OR REPLACEMENT OF SUCH MATERIALS OR COMPONENTS THEREOF. IN NO EVENT SHALL SUPPLIER BE LIABLE FOR ANY CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS OR ECONOMIC LOSS, REPLACEMENT COSTS, HANDLING INSTALLATION OR LABOR IN MAKING SUCH REPLACEMENT OR REPAIR, OR ANY OTHER SPECIAL OR INDIRECT LOSS, OR FOR INCIDENTAL DAMAGES, INCLUDING BUT NOT LIMITED TO EXPENSES INCURRED IN INSPECTION, RECEIPT, TRANSPORTATION, STORAGE, CARE OR CUSTODY OR EXPENSES INCURRED IN CONNECTION WITH EFFECTING COVER.

This warranty is subject to the following terms and conditions:

a. Damage from abnormal or improper use, accident, alteration, neglect, abuse, improper service or installation, or damage caused by flood, fire or act of God Is not covered by warranty.
b. This warranty is applicable only to the initial purchaser and is non-transferable.

MISCELLANEOUS CHARGES - Prior authorization must be obtained before return of materials sold hereunder. A 15% handling charge will be assessed on all materials sold hereunder and returned for Customer convenience. A minimum order charge, and other handling charges apply to transactions if separately itemized on the face of this document.

INSPECTION AND CLAIMS - Customer shall inspect all materials for shortage, damage, or non-conformity immediately upon receipt. All claims must be submitted by Customer in writing within three (3) days of receipt of materials. Materials are sold F.O.B. Supplier's warehouse of origin. In cases where materials are transported by common carrier, title and risk of loss is transferred when material is tendered to the common carrier. Claims for shortage or damaged materials must be made by Customer directly to the common carrier.

QUOTATIONS - Quotations are based on the Customer's list of materials. When plans are submitted, Supplier shall assist, but does not assume any responsibility for Customer's list of materials. Customer assumes all responsibility for the accuracy, acceptance and compliance with any plans or specifications for all materials sold hereunder, and Supplier assumes no responsibility for same. Materials sold by Supplier are not sold to any standard specification or origin unless reference to such standard specification is reflected on the face of this document. Valid quotations must be obtained in writing, and are subject to availability and change in price unless such written quotation states otherwise. Verbal quotations will not be honored.

LIMITATION OF LIABILITY - In no event shall Supplier be liable for any damages with respect to, arising out of, or in connection with, the materials sold hereunder in excess of the price for such materials stipulated on the face of this document, irrespective of whether such damages are based on breach of contract, strict liability or otherwise.

ENTIRE AGREEMENT - This Sales Confirmation and Invoice and Terms of Sale, together with any written credit agreement(s), are the entire agreement of the parties with respect to this transaction.

GOVERNING LAW - These Terms of Sale shall be interpreted and construed in accordance with the laws of the State or the Province in which the materials are sold.

INSTALLATION INDEMNIFICATION - Supplier is not responsible for the handling or installation of materials sold hereunder. Customer indemnifies and holds Supplier harmless from all claims, damages and losses (including lawyer's costs on a full indemnity basis) arising from or related to installation or use of materials sold hereunder.

DELIVERY INDEMNIFICATION - Master Halco is not responsible for any damages or liability from the delivery of materials sold hereunder. Customer shall hold harmless Master Halco for any claims, damages, and losses arising from the delivery of the materials. Any claims for liability related to the delivery of material should be directed towards Master Halco's delivering agent.

Mission Statement

We create opportunities for our customers and associates to succeed through our continuous commitment to manufacturing and distribution excellence.

Commitment & Partnership

We are the premier manufacturer and wholesale distributor in the fencing industry.

- **Integrity**
  - We strive to build honest and dependable relationships that allow us to become a partner in our customers' successes
  - Our goal is to meet or exceed our customers' performance expectations
  - We approach all transactions and negotiations with complete transparency within the boundaries of moral, ethical, and legal standards

- **Quality & Service**
  - We strive to manufacture and distribute the highest quality fence products
  - Our goal is to provide a "One-Stop-Shop" materials sourcing environment that saves our customers time and money
  - All Master Halco associates have the same goal of exceeding our customers' expectations for exceptional service at all levels

- **Business Success**
  - We continue to review our product offering to improve and expand into new products that help our customers reduce costs and increase profitability
  - We offer financial services such as Line of Credit and Project Accounts that give our customers the working capital flexibility to grow and expand their businesses
  - We conduct our business in such a way as to be Good For The Buyer, Good For The Seller, and Good For The Industry!

For more than 50 years, Master Halco has been committed to partnership and success with thousands of Fence Professionals. We would like to extend our gratitude to all of our customers and our best wishes for continued, mutual success.

Fence - Fabric, Line Post

Fabric
Same length as fence, minus gate openings.

A

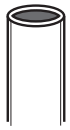

Rail

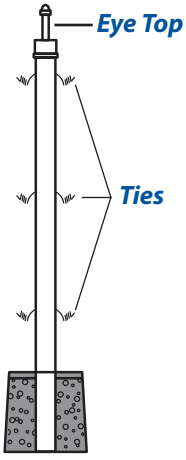

Same length as fabric.

B

Line Post
Space line posts equally, maximum 10' span.

B

Bottom Tension Wire *(Optional)*
Same length as fence, minus gate openings.

D

Sleeve
Use to join Plain End top rails.

C

Eye Top
1 for each line post.

C

Hog Rings *(Optional)*
Clips tension wire to fabric, 1 for every 24".

D

Ties
Connects top rail to fabric, 1 for every 24" of top rail.

C

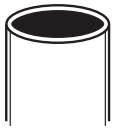

Ties
Connects line post to fabric, 1 for every 12" of line post.

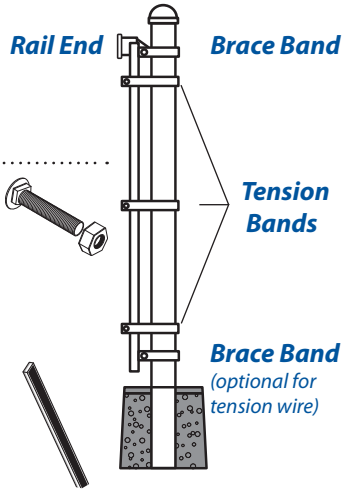

C

Fence - Terminal Post

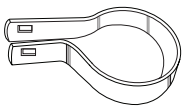

Terminal Post
Larger diameter for end, corner posts, pull posts.

B

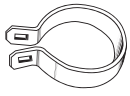

Tension Band
Secures tension bar/ fabric to posts. Use 1 for each foot in height.

C

Brace Band
1 for each rail end.
1 for each tension wire connection.

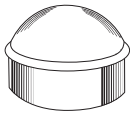

C

Carriage Bolt
1 for each tension band.
1 for each brace band.

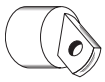

D

Post Cap
1 for each terminal post.

C

Rail End
1 for each terminal post.
2 for each corner post.

C

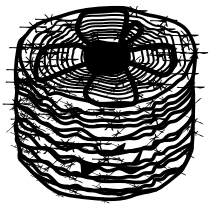

Tension Bar
1 for each end post.
2 for each corner post.

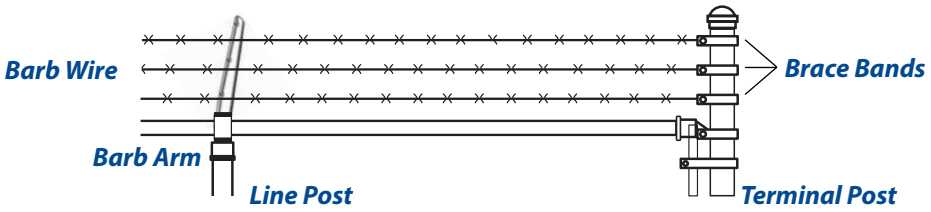

C

TOOLS

Concrete, Tape Measure, String & Stakes, Post Hole Digger, Wheelbarrow, Shovel, Carpenter's Level, Pipe Cutter, Fence Stretcher, Hand Winch, Pliers, Hog Ring Pliers

Fence - Add Barb Wire

Barb Wire
Same length as fence.

D

Barb Arm
1 for each line post.
Replaces eye tops.

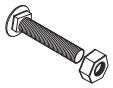

C

Brace Band
1 for each rail end.
1 for each barb wire connection.

C

Carriage Bolt
1 for each brace band.

D

Fence - Add Middle Rail or Bottom Rail

Rail

Same length as fence, minus gate openings.

B

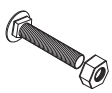

Option 1 ***for Line Posts***

180° Brace Band
1 for each line post.

C

Carriage Bolt
2 for each 180° brace band.

D

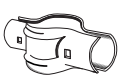

Rail End
1 for each terminal post.
2 for each line or corner post.

C

Option 2 ***for Line Posts***

Line Rail Clamp
1 for each line post.

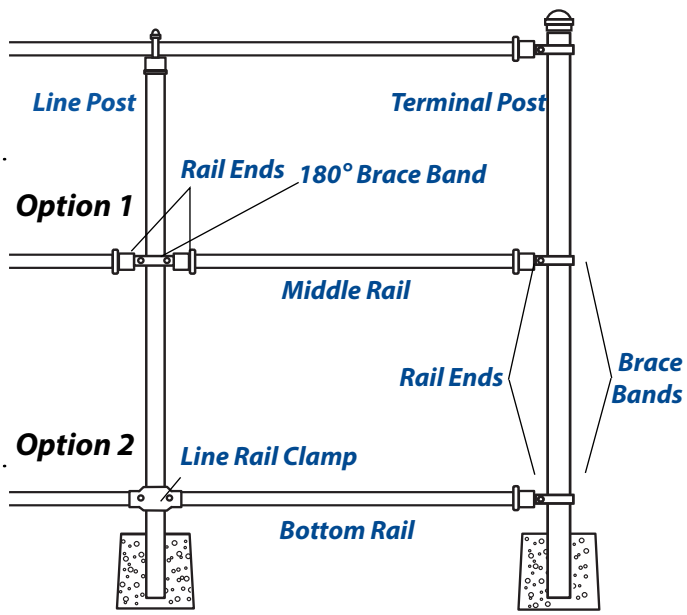

C

Carriage Bolt
2 for each line rail clamp.

D

Fence - Add Brace and Truss

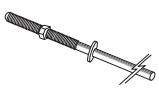

Rail

Length from term post to line post

B

Truss Rod
1 for each end post.
2 for each corner post.

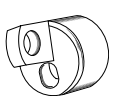

C

Truss Tightener
1 for each truss rod.

C

Truss Rail End
1 for each truss rod.

C

Brace Band
1 for each rail end.

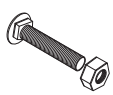

C

Rail End
1 for each terminal post.

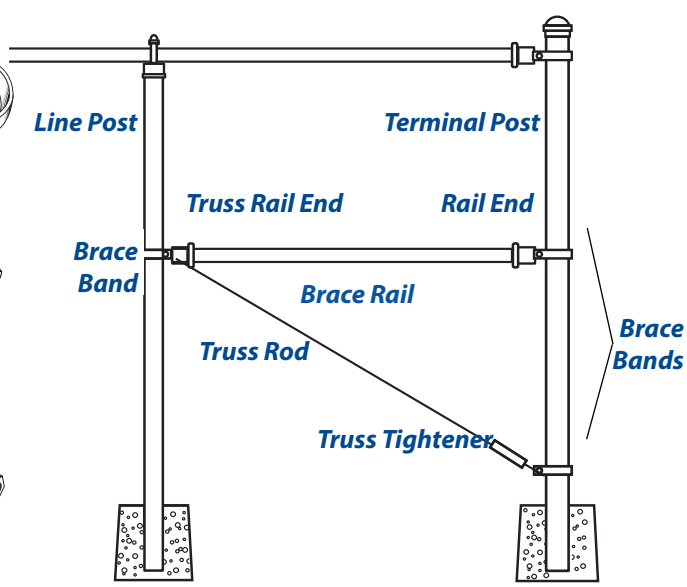

C

Carriage Bolt
1 for each brace band.

D

Chain link fabric (a.k.a. "wire") is manufactured by Master Halco at several US locations.
Selvage describes how the ends of the chain link wires are finished for the top and bottom of the fabric. Knuckle means that the ends of the wires are folded over each other. Twist means the wires are twisted together to form pointed prongs. Residential fabric uses larger mesh sizes and smaller gauges, and commercial/industrial uses smaller mesh sizes and larger gauge diameters. The smallest mesh sizes, from 1-1/4" to 3/8", are High Security/Mini-Mesh.

Galvanized Before Weaving (GBW)

In this process, the wire is pre-galvanized before it is formed into a fabric. The weaving process creates an exposed cut end that will lack coating and be more apt to some minor rust in wet and severe weather conditions.

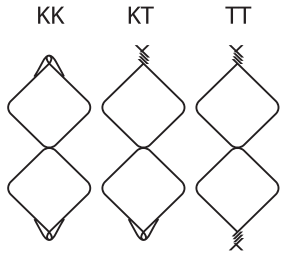

Galvanized After Weaving (GAW)

This process forms or weaves chain-link into a fabric first, and then soaks it in a large galvanized bath which adheres the zinc coating. This ensures that all the wire is coated, even the cut ends created during the weaving process.

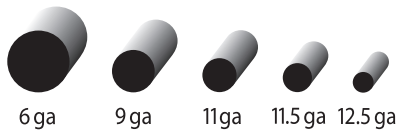

Aluminized

Aluminum coated steel chain link fence fabric is made by cold drawing good commercial grade steel rod into wire of the appropriate diameter. The steel rod from which the wire is drawn is produced by the open hearth, electric furnace or basic oxygen process. The coating process consists of passing the cleaned wire through a molten bath of aluminum metal.

Spectra

The galvanized steel core wire for producing extruded PVC coated steel chain link fence fabric is produced by cold-drawing good commercial grade steel rod into wire of the appropriate diameter. The steel rod from which the wire is drawn is produced by the open hearth, electric furnace or basic oxygen process. The galvanized coating is produced by passing the cleaned wire through a bath of molten zinc which conforms to ASTM B6. The extruded PVC coating is produced by extruding PVC at a coating thickness of 0.015" (.38mm) - 0.025" (0.64 mm) over a galvanized core wire.

Spectra Bond

Extruded bonded vinyl is a better alternative to simple extruded wire. With extruded bonded wire, the extruding process is taken one step further: an adhesive is applied to the wire before being extruded with the vinyl coating. This seals the vinyl to the wire to bond provides greater protection against nature.

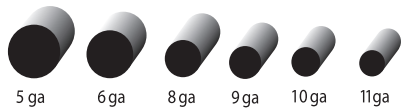

Permafused

Fused and Adhered vinyl coating. Coated using a polyolefin coating, the galvanized wire is first heated, then coated, causing the wire and the plastic to bond together, creating a better protective coating to prevent moisture from penetrating to the steel core of the wire.

Pipe and Tube make up the framework for the Chain Link fence system. ASTM specifications, wall thickness, and outside diameter (O.D.) sizes determine a framework's strength. Pipe and tube can be galvanized or color coated.

Different manufacturing processes:
- Hot-Dip
- Pre-Galv
- Flo-Coat
- Spectra Polyester (color)
- Heavy Mil (color)

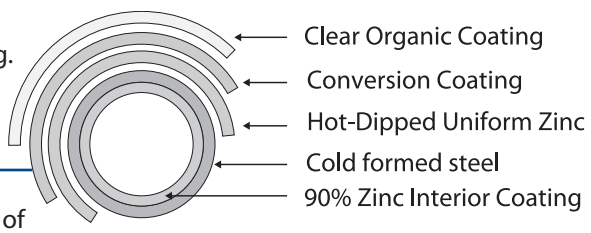

Hot Dip

Hot-Dip galvanized pipe is formed before being galvanized and coated with chromate inside and out for protection against corrosion and white rust.
Meets or exceeds ASTM F 1083 and ASTM F 1043.

Pre-Galv

Pre-Galvanized pipe is made from hot-dip galvanized flat roll that is then formed and welded. It is treated with Conversion Coating inhibiting white rust and with a clear exterior seal coating.
Pre-Galv meets or exceeds ASTM F 1043 – 6 Standard Specification for Strength.
Pre-Galv also meets or exceeds ASTM F 1043 – 10 Type B, 0.9oz Zinc Coating.

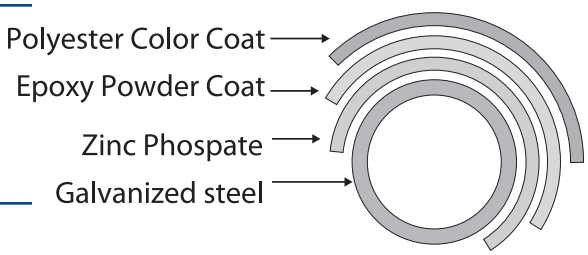

Flo-Coat

Flo-Coat Galvanized is high yield, high tensile cold formed steel that is molded and welded and then given a uniform hot-dip zinc coating. On top of the hot-dip coating, there is added first a Conversion Coating and above that, a Clear Organic Coating.
Flo-Coat meets or exceeds ASTM F 1043, Group IC.

Spectra Polyester (color)

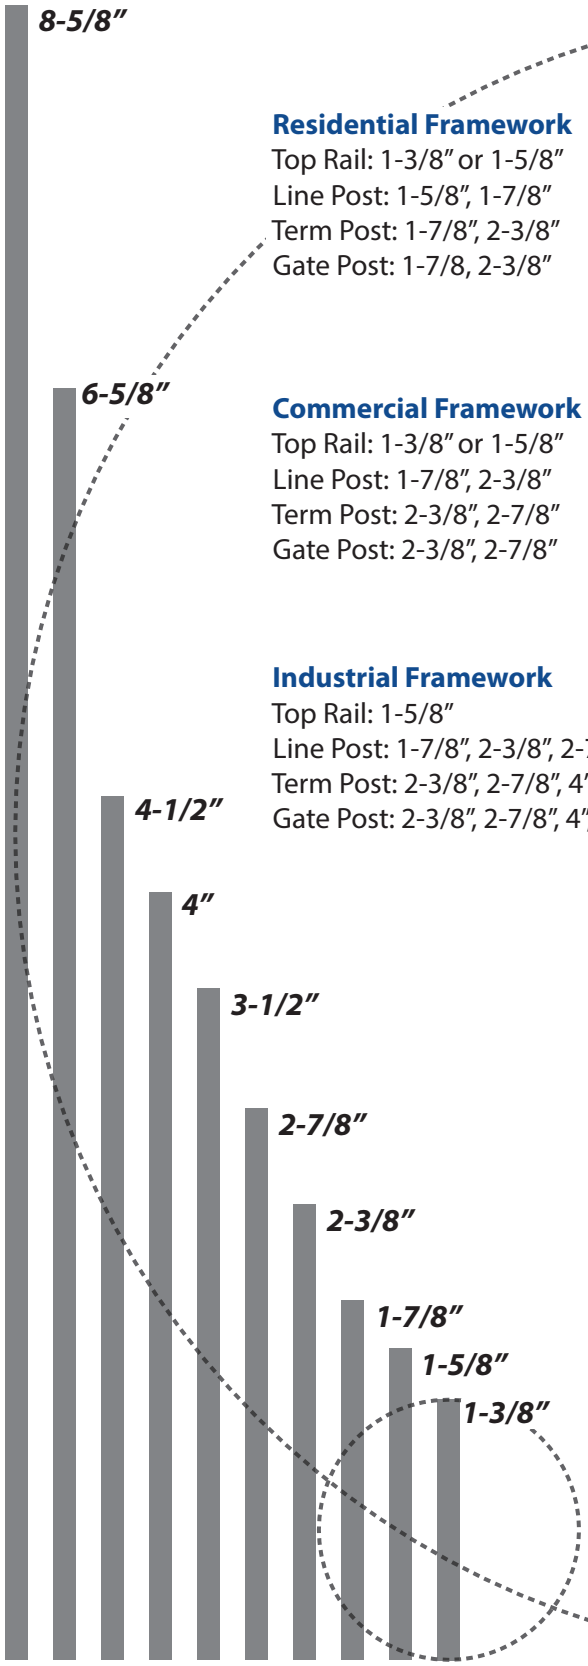

Spectra Polyester has an 11 stage pre-treatment and coating process. It is corrosion resistant and UV resistant.
Spectra Polyester meets or exceeds ASTM F 668 and ASTM F 1043 3-5 Mils.

Heavy Mil (color)

Heavy Mil is coated in Poly Vinyl Chloride powder and has an 8 stage pre-treatment and coating process. It is corrosion resistant and UV resistant.
Heavy Mil pipe meets or exceeds ASTM F 668 and F 1043 Type A 12-15 Mils.
Heavy Mil Domestic Schedule 40 and Heavy Mil Flo Coat and Pre-Galv are both USA Certified.

High Tensile Barb Wire / Class 3 Galvanized • Meets ASTM A 121

DESCRIPTION	PART NO.	QTY. PER REEL	WEIGHT EA.	NOTES
4 pt. 15-1/2 ga. 5" Barb Spacing	013511	1320'	43.00	

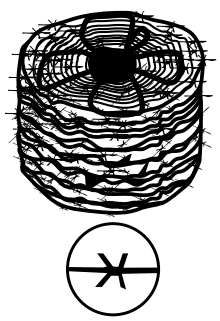

NOTE: Sold only in full reels. 1320' = 80 Rods

Barb Wire, Spec / Class 3 Galvanized • Meets ASTM A 121

DESCRIPTION	PART NO.	QTY. PER REEL	WEIGHT EA.	NOTES
4 pt. 12-1/2 ga. 5" Barb Spacing	013526	1320'	88.00	

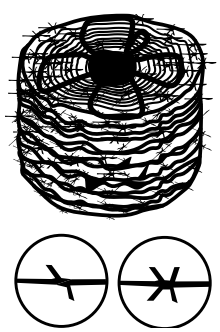

NOTE: Sold only in full reels. 1320' = 80 Rods

Aluminized Barb Wire, Spec / Steel • Meets ASTM A 121

DESCRIPTION	PART NO.	QTY. PER REEL	WEIGHT EA.	NOTES
4 pt. 12-1/2 ga. 5" Barb Spacing	013522	1320'	81.00	

NOTE: Sold only in full reels. 1320' = 80 Rods

Barb Wire, Non-Spec / Commercial Galvanized

DESCRIPTION	PART NO.	QTY. PER REEL	WEIGHT EA.	NOTES
2 pt. 12-1/2 ga.	013502	1320'	69.00	
4 pt. 12-1/2 ga.	013501	1320'	77.00	

NOTE: Sold only in full reels. 1320' = 80 Rods
NOTE: Non-spec Barb Wire will void systems warranties.

Barbed Obstacle Wire / Stainless Steel Barbed Tape with .098" Galvanized Core Wire .80 oz./ft² Zinc Coating

DESCRIPTION	PART NO.	LENGTH PER ROLL	COIL WEIGHT	NOTES
Single Coil Galv Core 33 loops 18" loop spacing	013515	50'	12.00	
Single Coil Galv Core 33 loops 24" loop spacing	013514	50'	18.20	

NOTE: Sold only in 50' coils; 50' based on installation at 18" on center spacing. Bulk packaging - 5 coils per box.

LIMITATIONS: The manufacturer recommends the installation of barbed tape obstacle on fences or walls that have a minimum height of 7 feet; or installed in such a manner as to avoid contact by all pedestrian traffic.

Adaptrack Gate Conversion Kit

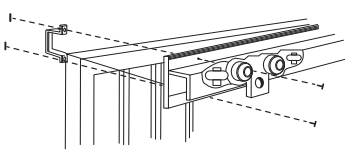

The adaptable conversion kit is a complete set of track, hardware and accessories designed to convert a standard gate into a smooth sliding cantilever gate. The track is a specially designed aluminum extrusion. The shape of the extrusion provides an enclosed chamber through which the truck assemblies roll. Brackets are included to mount the track to either round (2-3/8" O.D.) or square (2") horizontal top rails. The flat-back design of the track makes it possible to mount the track, without brackets, directly to the flat surface of a wood gate.

Adaptrack

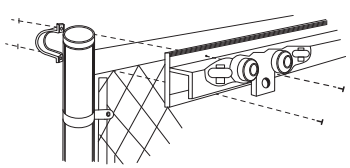

NOTE: APPROXIMATELY 4" FROM FACE OF POST TO FACE OF GATE FRAME.

Adaptrack Gate Conversion Kit

Load Master™ II Nylon Cantilever Roller

(Loadmaster exploded)

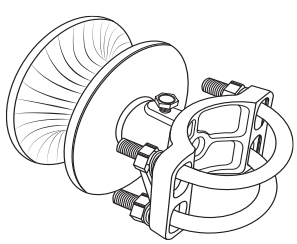

- **4000 Pound rating operates the heaviest of gates**
- **Sealed bearings provide maintenance-free operation**
- **Strong aluminum alloy cast body for durability**
- **Easy rolling for manual and electrically operated gates**
- **UV impregnated nylon/fiberglass wheel for discoloration protection**
- **1-1/18" Stainless steel shaft for added strength and corrosion protection**
- **Slot in axle and set screw allows wheel to move in and out of body for perfect alignment**
- **Nylon dust covers to prevent damage to the bearing on each end of the shaft**
- **Polyester coated body to eliminate oxidation**
- **Polyester coated snap rings to prevent rust**

SWING GATE SPECIFICATIONS

(Industrial and Commercial)

Frame Size

Standard gates are manufactured from the pipe sizes listed. Other sizes are available on special quotation (All Industrial Gates — Non Stock).

Construction

All gates are welded corner construction. Gates include the necessary Bracing and Truss Rods. Gates are manufactured to fit the opening between posts. Specify type and size of gate hardware (sold separately), so gate can be manufactured with proper clearances. Ground clearance is 2".

Fabric

Standard fabric will be 2" mesh, 9 gauge, zinc-coated steel. Other sizes and finishes are available on special quotation.

Hardware

Single Gates include caps; Double Gates include caps and industrial drop rod assembly. Please refer to the Gate Fittings section for your specific hardware needs.

Barb Wire

Gate height is based on overall height of the gate, either with or without barb wire. Barb wire will be 3 strands of 12 1/2 gauge, 4 point.

Gate Posts

Gate Posts are sold separately. Refer to post chart for recommended size.

Gate Post Recommendation

O.D. FRAME SIZE	GATE HEIGHT.	GATE LEAF WIDTH	O.D. PIPE SIZE.	DQ 40 MIN. WT. (LB. PER FT.)	F.W. MIN. WT. (LB. PER FT.)

1-5/8"	OVER 6'	OVER 12' TO 18'	6-5/8"	*	18.97
1-5/8"	OVER 6'	OVER 18' TO 24'	8-5/8"	*	28.55
1-7/8"	ANY HEIGHT	UP TO 6'	2-7/8"	4.64	5.79
1-7/8"	ANY HEIGHT	OVER 6' TO 12'	4"	6.56	9.11
1-7/8"	ANY HEIGHT	OVER 12' TO 18'	6-5/8"	*	18.97
1-7/8"	ANY HEIGHT	OVER 18' TO 24'	8-5/8"	*	28.55

Refer to ASTM F567 for minimum requirements for setting gate posts.

Extras

For Gate Ells add: Single – $15.00; Double – $30.00.
For SlatMaster™ chain-link fabric, a per square foot charge will be added.

ROLL GATE SPECIFICATIONS

(Industrial and Commercial)

Frame Size

Standard gates are manufactured from the pipe sizes listed. Other sizes are available on special quotation (All Industrial Gates — Non Stock).

Construction

All gates are welded corner construction. Gates include the necessary Bracing and Truss Rods. Gates are manufactured to fit the opening between posts. To allow for rear pipe track wheels, the actual gate will be 9" longer than opening. Ground clearance is 4" to allow for the ground carrier.

Fabric

Standard fabric will be 2" mesh, 9 gauge, zinc-coated steel. Other sizes and finishes are available on special quotation.

Hardware

Gates include caps only. Please refer to the Gate Fittings section for your specific hardware needs.

Barb Wire

Gate height is based on overall height of the gate, either with or without barb wire. Barb wire will be 3 strands of 12-1/2 gauge, 4 point.

Gate Posts

Gate Posts and Safety Post are sold separately. Refer to the post chart for recommended size. Maximum post spacing is 7 feet. Safety Post required.

Gate Post Recommendation

GATE HEIGHT	END POST/SAFETY POST		LINE POST	
	DQ 40	FULL WEIGHT	DQ 40	FULL WEIGHT
LESS THAN 6'	2-3/8" (3.12/FT)	2-3/8" (3.65/FT)	1-7/8" (2.28/FT)	1-7/8" (2.72/FT)
6' AND OVER	2-7/8" (4.64/FT)	2-7/8" (5.79/FT)	2-3/8" (3.12/FT)	2-3/8" (3.65/FT)

Refer to ASTM F567 for minimum requirements for setting gate posts.

Track

1-5/8" DQ 40 (1.83/ft) or Full Weight (2.27/ft). Not included. Ordered and priced separately.

Extras

For SlatMaster™ chain-link fabric, a per square foot charge will be added

Safety Note:

Safety Post required (sold separately).
Single panels greater than 30' not recommended.

CANTILEVER GATE SPECIFICATIONS

(Industrial and Commercial)

Frame Size

Standard gates are manufactured from the pipe sizes listed. Other sizes are available on special quotation (All Cantilever Gates — Non Stock).

Horizontal top & bottom members . . . . . 2-3/8″ full weight or DQ 40

Vertical end members. . . . . 1-7/8″ full weight or DQ 40

Vertical braces . . . . . 1-7/8″ full weight or DQ 40 spaced evenly but not more than 5′ on centers

Horizontal & Diagonal braces . . . . . 1-5/8″ structural or CQ 20

Construction

All gates are welded corner construction. Gates include the necessary bracing. Gates are manufactured to fit the opening between posts. Ground clearance is 6″ to allow for bottom Cantilever Rollers.

Fabric

Standard fabric will be 2″ mesh, 9 gauge, zinc-coated steel. Other sizes and finishes are available on special quotation.

Hardware

Gates include caps only. Please refer to the Gate Fittings section for your specific hardware needs.

Barb Wire

Gate height is based on overall height of the gate, either with or without barb wire. Barb wire will be 3 strands of 12-1/2 gauge, 4 point.

Gate Posts

Gate Posts and Safety Post are sold separately. Refer to post chart for recommended size. Post spacing should be 6″ less than support panel length. Extend Roller posts 6″ above fence line to allow for attachment of top rollers. Safety Post required.

Gate Post Recommendation

GATE OPENING WIDTH	O.D. PIPE SIZE	DQ 40 - MININUM WEIGHT (LB. PER FT.)	FULL WEIGHT - MININUM WEIGHT (LB. PER FT.)
UP TO 12'	2-7/8″	4.64	5.79
12' TO 24'	4″	6.65	9.11
24' AND OVER	6-5/8″	*	18.97

Three 4″ posts may be substituted for two 6 5/8″ posts.

Refer to ASTM F567 for minimum requirements for setting gate posts.

GATE OPENING WIDTH	SUPPORT PANEL LENGTH
5' THROUGH 6' 11″	SAME AS OPENING SIZE PLUS 6″
7' THROUGH 13' 11″	7' 6″
14' AND UP	1/2 THE DISTANCE OF OPENING PLUS 6″

Extras

For SlatMaster™ chain-link fabric, a per square foot charge will be added

Safety Note:

Safety Post and roller covers/guards are required (sold separately). Single panels greater than 36′ not recommended.

SURTRAC™ ALUMINUM CANTILEVER GATE SPECIFICATIONS

Frame Size

Standard gates are manufactured from square aluminum members conforming to ASTM B 221, Alloy and Temper 6061-T6.

Single Track Top Track Rail..... 2-3/4" x 4-3/4" rectangular aluminum weight 4.62/ft.

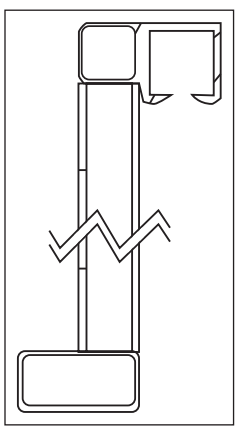

Dual Track Top Track Rail ..... 2-3/4" x 9" rectangular aluminum weight 7.95/ft.

Horizontal bottom member..... 2" x 4" aluminum weight 1.73/ft, 0.25" thickness.

Gate Frame..... 2" square aluminum weight 1.12/ft, 0.25" thickness.

Vertical Interior Bracing ..... 2" square aluminum weight 1.12/ft.spaced evenly but not more than 6' on centers.

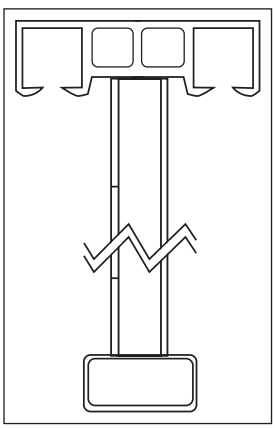

Single Track

Single Gates
up to 30'

Double Gates
up to 60'

Dual Track

Single Gates
from 30'1" to 50'

Double Gates
up to 100'

Construction

All gates are welded corner construction. Gates include the necessary bracing. Gates are manufactured to fit the opening between posts. Ground clearance is 4".

Hardware

4", 6-5/8", and 8-5/8" hardware is available, ordered separately.

Fabric

Standard fabric will be 2" mesh, 9 gauge galvanized/aluminized (aluminum-coated steel). Other sizes and finishes are available on special quotation.

Barb Wire

Barb wire will be 3 strands of aluminized 12-1/2 gauge, 4 point.

Posts

Gate Posts and Safety Post are sold separately. Refer to post chart for recommended size. Post spacing should be 6" less than support panel length. Extend Roller posts 6" above fence line to allow for attachment of top rollers. Safety Post required for Single Track gates.

For any gate where Support Posts are greater than 10' apart, a line post must be installed, centerd between the two Support Posts that is supported on each side with top rail and cross trussed to Support Posts.

Single Gates - Post Recommendation

Reversible SurTrac Aluminum Cantilever Gates

NOTE: Without hardware.

FEATURES:

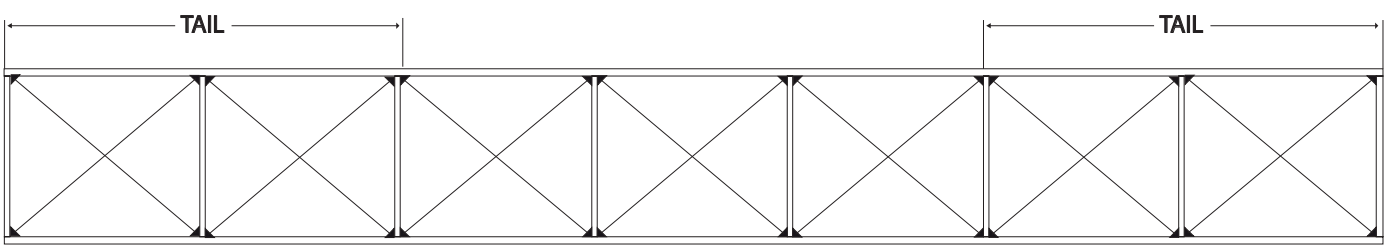

- Standard Size gates that can be hung on right or left side and still maintain perfect balance
- Barb Wire Arm kits can be added for additional security (Barb wire sold separately)
- On the ground availability for immediate replacement when accidents occur
- Ideal for high security and high volume applications
- 5 year warranty on the Gate System

6' HIGH

Stabilizer Brace / For Single Track and Dual Track SurTrac Aluminum Cantilever Gates

NOTE Use with:

- SurTrac gates installed with a gate opener
- Manual SurTrac gates with an opening greater than 24'
- SurTrac gates in high wind areas

DESCRIPTION	GALV	NOTES
2" x 4" Stabilizer Brace Bolt-on (sold by foot of opening)	429U00

Fences Types

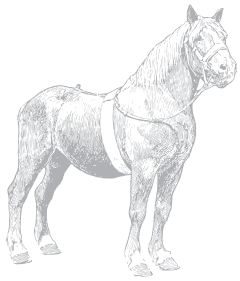

Cattle Fences

RECOMMENDED

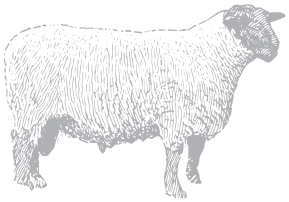

- 4 to 5 strand Barb Wire fences
- Woven Wire fences with 1 or more barb wire strands above the Woven Wire
- Wire Panel fences
- Heavyweight and Extra-Heavyweight wire
- Clearly visible fences
- Minimum fence height: 60″

Horse Fences

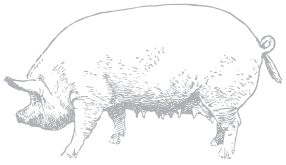

RECOMMENDED	NOT RECOMMENDED
Square Knot Woven Wire horse fences with less than 4" openings	Barb Wire fences
Heavyweight and Extra-Heavyweight wire	High-Tensile Wire fences
Clearly visible fences	
Minimum fence height: 48″	

Sheep and Goat Fences

RECOMMENDED	NOT RECOMMENDED
Woven Wire fences for non-horned sheep and goats	Barb Wire fences
Mesh Wire fences for non-horned sheep and goats	Temporary fencing
Heavyweight and Extra-Heavyweight wire	
Minimum fence height: 39″	

Hog Fences

RECOMMENDED	NOT RECOMMENDED
Woven Wire fences with 1 or more barb wire strands along the ground	Barb Wire fences
Small openings between the woven wires	Cable fences
Fences built close to the ground	
Medium and Heavyweight wire	
Maximum fence height: 54″	

Wire Basics

Wire Types

HIGH TENSILE

With approximately 0.28% carbon content, high tensile wire is significantly stronger and longer lasting than low carbon wire.

LOW CARBON

Low Carbon wire is made from steel rod of approximately 0.10% carbon content. This wire is easy to work with and fairly forgiving.

Products that are not labeled as High Tensile use Low Carbon wire.

Wire Coatings

BEZINAL

95% Zinc + 5% Aluminum

2-3 times more corrosion resistant than zinc wire with same coating weight

CLASS 3

0.80 oz. of zinc/ft^2

Meets or exceeds ASTM A 121, A 116, and A 641

More than 2.5 times thicker than Class 1 coating

CLASS 1

0.28 oz. of zinc/ft^2

Commonly used to coat low carbon wire

Industry standard

COMMERCIAL

Zinc coating with no minimum ASTM coating weight

Commonly used on welded wires, poultry netting, and hardware cloth.

Lowest grade

- 9 gauge
- 10 gauge
- 11 gauge
- 12-1/2 gauge
- 14 gauge
- 14-1/2 gauge
- 16 gauge
- 17 gauge
- 18 gauge
- 20 gauge

Barb Wire and Electric Wire

ELECTRIC WIRE

Consists of one strand of smooth, conductive wire

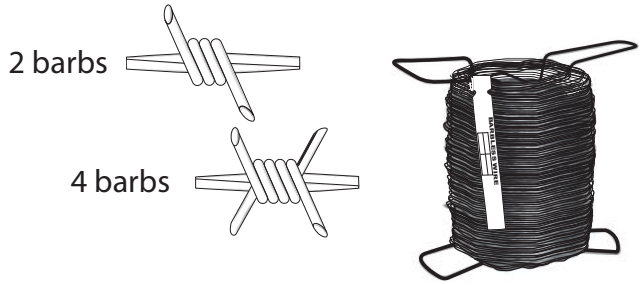

BARB WIRE

Consists of two strands of wire twisted together with barbs evenly spaced.

Comes in 2 point barbs or 4 point barbs

BARBLESS WIRE

Consists of one strand of smooth wire

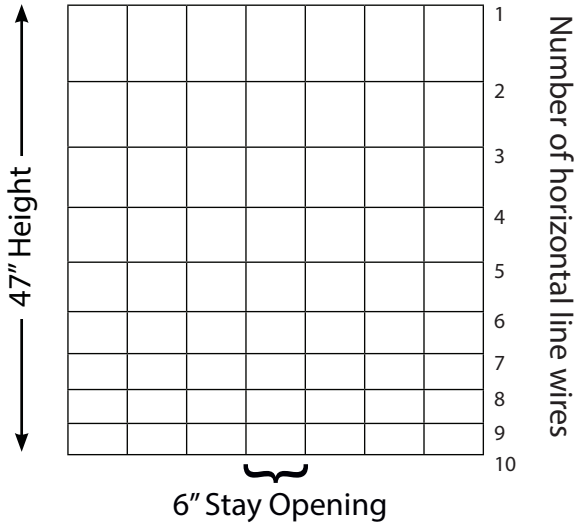

Specifications Subject To Change Without Notice. For Policy and Terms, Please Refer to Page COV-1. Copyright © Master Halco, Inc. 2018

Woven Wire and Welded Wire

Woven Wire

1047 - 6 - 12-1/2 ga.

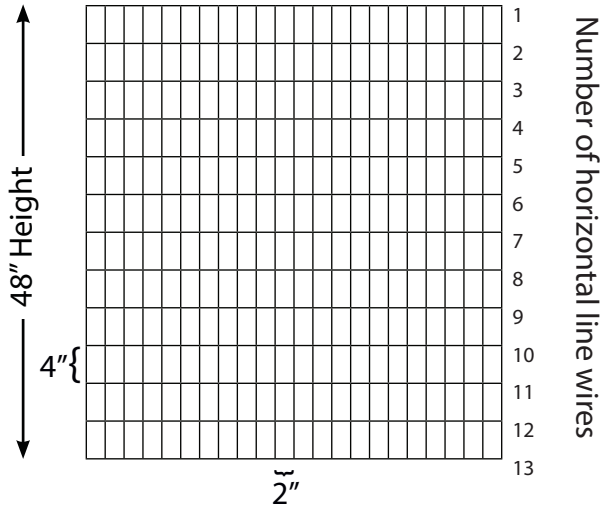

- 1047 — horizontal line wire quantity
- 6 — roll height
- 12-1/2 — distance between vertical wires (stays)
- ga. — wire gauge

Welded Wire

2"x 4" x 48"

- 2" — mesh width
- 4" — mesh height
- 48" — roll height

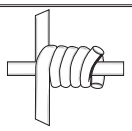

Knot Types for Woven Wire

HINGE KNOT

The Hinge Knot stretches and gives, allowing it to absorb animal impact without damage.

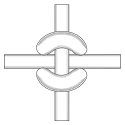

Uniform crimps keep the hinge knot fence tight under strain.

SQUARE KNOT

Square Knot woven wire has extra vertical strength to withstand heavy impact.

The knot construction is smooth to prevent snags and cuts.

FIXED KNOT

The Fixed Knot uses solid vertical stay wires to allow for increased post spacing.

The knot cannot come apart under pressure, making it highly resistant to impact.

Uniform crimps keep the hinge knot fence tight under strain.

Saddle Clamps / Without bolts • Approximately 1-1/8" spacing between frames

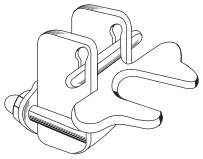

DESCRIPTION	PART NO.	PER SACK	WEIGHT EA.	NOTES
1-3/8" x 1-3/8"	015511	100	0.59	
Use 5/16" x 1-1/4" Carriage Bolt – Pt. #010701				
1-5/8" x 1-5/8"	015512	50	0.71	
1-7/8" x 1-7/8"	015513	50	0.76	
Use 3/8" x 1-1/4" Carriage Bolt – Pt. #010703				

Panel Clamps / Without bolts • Approximately 3/8" spacing between frames

DESCRIPTION	PART NO.	PER SACK	WEIGHT EA.	NOTES
1-3/8" x 1-3/8"	015516	100	0.50	
Use 3/8" x 2-1/4" Carriage Bolt – Pt. #010707				
1-5/8" x 1-5/8"	015517	50	0.67	
Use 3/8" x 2-1/2" Carriage Bolt – Pt. #010708				
1-7/8" x 1-7/8"	015518	50	0.75.	
2-3/8" x 1-5/8"	015519	50	0.82	
Use 3/8" x 3" Carriage Bolt – Pt. #010710				

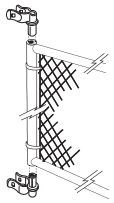

Kennel Flip Latch / Pressed Steel – Galvanized • Includes bolts and nuts • 7/8" Clearance

DESCRIPTION	PART NO.	PER SACK	WEIGHT EA.	NOTES
1-3/8" x 1-3/8" - Poly Bag	016550	10	1.00	
1-3/8" x 1-3/8" - Bulk	016551	50	1.00	

NOTE: Patent No. 3,907,345

Kennel Hinge / Pressed Steel – Galvanized • For square welded gates

DESCRIPTION	PART NO.	PER SACK	WEIGHT EA.	NOTES
1-3/8"	014451	50	0.49	
Use 5/16" x 2" Carriage Bolt – Pt. #010715				

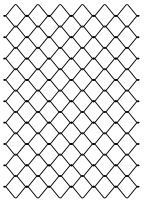

NOTE: This Hinge reduces clearance between Frame and Gate to approximately 3/8".
The Gate itself (one side) becomes a part of the Hinge Assembly, and takes the place of the regular Frame Hinge.

STAINS

Available stain colors: Dark Brown, Medium Brown, Redwood, Dark Redwood, Medium Redwood, Dark Walnut, Mahogany, Natural Cedar, Pecan, and Clear

GRADE TERMINOLOGY

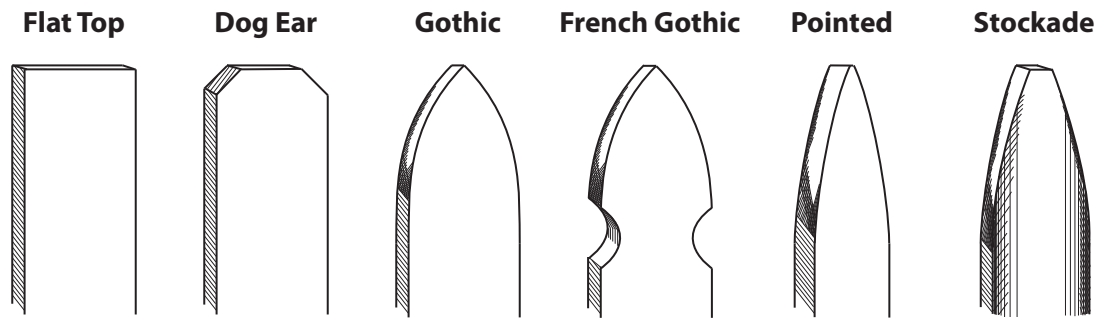

Appearance	Superior appearance that is nearly clear of all knots or blemishes.
Clear	Its limited number of natural characteristics make it the grade to specify when you want a fence board with the highest quality appearance.
Premium	Also known as #1-2F. Small tight knots. Graded for same appearance both faces. WCLIB paragraph 117a both faces.
#1	Small and few knots. High quality wood with a high level of finish.
Select	Also known as #1-1F. Same natural characteristics as a Premium on one face, it allows limited defect characteristics on the other face. WCLIB paragraph 117a one face.
Standard/Better (Std./Btr. or #2 & Btr.)	Mixture of Standard, Select, Premium and Clear. Grade mixture ratio changes, depending on suppliers.
#2	Allows well spaced, tight knots that are generally small.
Standard	Also known as #2. Allows more appearance defect than Select or Premium on one graded face and limited defect characteristics on the other face. WCLIB paragraph 117b.
Quality	Also known as #3. This economical grade has greater limiting characteristics and is low cost. Knots that may become knot holes can be expected with this grade of product.
Rustic	The lowest grade, it permits all characteristics that do not interfere with usage.
No Prior Selection (NPS)	The term "No Prior Selection" is combined with Standard/Better to indicate that the higher grades have not been removed from the mixture.
No Hole (NH)	The term "No Hole" is appended to grades like Standard and Quality to specify that the boards do not have holes.

TREATMENT TERMINOLOGY

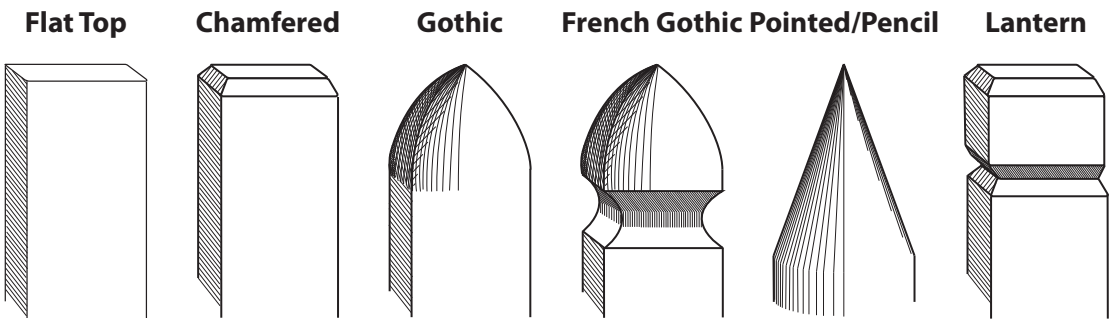

Above Ground		Generally, boards and rails are treated for above ground.
Ground Contact		Posts are treated for ground contact. Standard 4A rails are treated for ground contact.
ACQ	**Alkaline Copper Quaternary**	ACQ contains an added biocide to kill fungi and insects. The copper is dissolved in an organic alkaline solvent, and then in water, before treating the wood. ACQ with cannot come into contact with aluminum. The treated wood is a darker green when first purchased.
MCQ	**Micronized Copper Quaternary**	Micronized copper particles are smaller than the ones in ACQ treatment and therefore can be injected without a solvent. It is can come into contact with aluminum. Wood treated with MCQ keeps more of its natural color.
MCA	**Micronized Copper Azole**	Micronized copper is coupled with micronized tebuconazole and suspended into a wood preservative solution without a solvent. It is can come into contact with aluminum. Wood treated with MCA keeps more of its natural color.
CCA	**Chromated Copper Arsenate**	Chromated Copper Arsenate is a toxic chemical preservative used for commercial and industrial projects. It is not recommended for residential use.

Redwood Grade Terminology

Construction Heart (Con Heart)	Allows for tight sound knots. Only allows for heartwood so there is a uniform red color. Suitable for ground contact.
Construction Common (Con Com)	Similar to Construction Heart, but may contain sapwood (a white color). Suitable for ground contact.
Merchantable & Better (Merch & Btr.)	Permits stock of usable size and quality, and may contain sapwood. Knots are allowed and can be of mixed quality. Holes are limited to the maximum size of the knots.

Style, Beauty & Protection in Residential Steel Fencing

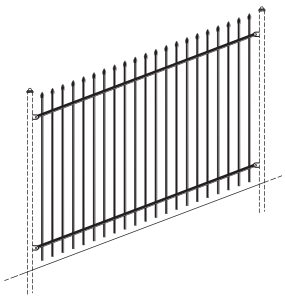

Product Features

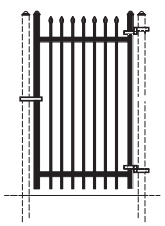

- **Pro-Fusion welding process creates a virtually invisible structural connection at every picket-to-rail connection**
- **E-Coat finishing process delivers maintenance-free ownership for a lifetime**
- **Biasability (up to 30 inches over 8 feet) to follow the contour of the landscape**
- **Available in both 4″ air gap traditional fencing and 3″ air gap Pool, Pet, and Play fencing for added strength and security**
- **Wide selection of styles to complement any residential property**
- **Pre-assembled sections for quick and easy installation**
- **Gates are welded rail and picket for added strength and durability**
- **Full line of accessories available**
- **Made in USA**
- **Lifetime Limited Warranty**

8′ Length ATF Panels • 3/4″ SQ x 18 ga Pickets • 1-7/16″ W x 1.5″ H x 14 ga Rails

The Preferred Choice for Residential and Light Commercial Steel Fencing

Product Features

- **Pro-Fusion welding process creates a virtually invisible structural connection at every picket to rail connection for unmatched strength and durability**
- **E-coat finishing process that is unparalled in the industry that delivers maintainence-free ownership and superior corrosion protection in any climate**
- **Biasability of a minimum of 25% allows the fence to follow the contour of the landscape to enhance and secure the property**
- **Available in both 4″ air gap traditional fencing and Pool, Pet and Play 3″ air gap that is designed for added strength and security**
- **Wide selection of styles to complement any residential or commercial property**
- **Pre-assembled sections for quick and easy installation**
- **Gates are welded rail and picket for added strength and durability**
- **Full line of accessories available to customize the fence**
- **Over 30 year of demonstrated excellence and Made in USA**
- **20 Year Limited Warranty**

Monumental Iron Works®

MASTER HALCO®

Special Order Riveted Steel Ornamental

Crafted Elegance, Customized Construction for Residential, Commercial and Industrial Steel Ornamental

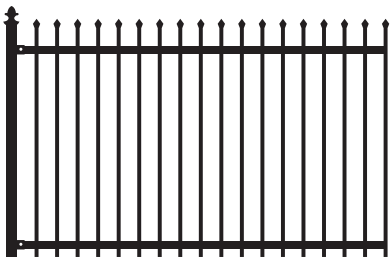

Product Features

- **Riveted, pre-assembled panels provides strength and biasability to accommodate uneven surfaces**
- **Pro Arc architectural swivel brackets adjust 30° up/down/left/right to professionally handle complex installations**
- **Durable, high performance polyester powder coating provides gloss and color protection in the harshest environments and is maintenance free**
- **Wide selection of styles to complement any residential, commercial, or industrial property**
- **Style matching, fully welded Swing Gates and Cantilever Gates are available for a complete fence system**
- **Full line of decorative accessories available**
- **Custom design capabilities**
- **Made in USA**
- **15 Year Limited Warranty**

Collins Pipe Cutter

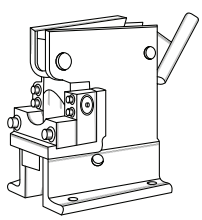

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
E-Z Cutter Model A - 115V, 2-3/4 HP	070049	#00032	120.00	
E-Z Cutter Model C - 115V, 2-3/4 HP	070067	#00033	125.00	
E-Z Cutter Model C - 230V, 3 HP	642K00	#00534	125.00	
Stationary Support	070058	#3405	3.00	
Foot Switch 115V	070050	#14330	8.00	
Cutting Wheel for Pipe	070052	#3221	0.75	
Feed Wheel Hub	549C00	#3216	0.75	
Set Screw Wheel Hub	550C00	#H-201	0.25	
Roller Support - ball bearing type	070057	#13206	4.00	
Rack & Pinion Gear Conversion Kit	070055	#3444	2.00	
Replacement Brush Set (qty 6)	070059	#1340	0.11	
Roller Guide for Rack & Pinion	002360	#3441	0.50	

- Model A: 1 pipe cutter wheel + 1 foot switch
- Model C: 1 pipe cutter wheel + 1 foot switch + 2 roller supports + 2 stationary supports

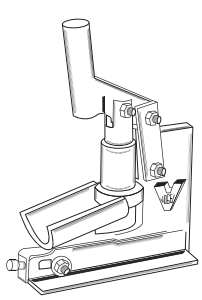

NOTE: Additional replacement parts available on special order.

Vogel Hand Press / For high volume notching

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
Hand Press w/o Housing	070060	#1400	37.00	
Housing with 2 Springs	070061	#35	10.00	
1-3/8" Die for Mild and Stainless Steel	070062	#9202	6.00	
1-5/8" Die for Mild Steel	070063	#9203	6.00	
1-7/8" Die for Mild Steel	070064	#9204	6.00	
2-3/8" Die for Mild Steel	070066	#9205	6.00	
Spring Die Holders for Notcher	070065	—	0.10	
1.5 HP Hydraulic Power Unit 110V	986V00	#CSP-25-SA	300.00	
Woodruff Key	006541	#W-806	0.25	

Vogel Econo Hand Press / For low volume notching

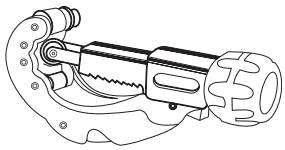

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
Econo Hand Press	070071	#25	10.00	

NOTE: Includes dies for notching 1-3/8", 1-5/8", and 1-7/8" tubing.

Specifications Subject To Change Without Notice. For Policy and Terms, Please Refer to Page COV-1. Copyright © Master Halco, Inc. 2018

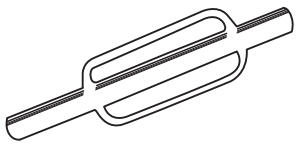

Hand Tube Cutter - Ridgid / Ratcheting enclosed feed

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
1/4" to 2-3/8" O.D. capacity	070715	#205	2.00	

NOTE: Includes spare cutting wheel.
Replacement parts available on special order.

Hand Post Drivers / With handles

DESCRIPTION	PART NO.	WEIGHT EA.	NOTES
Post Driver - up to 2-3/8" diameter	070653	16.00	
T-Post Driver	008593	16.58	

Digger Bars - Seymour

Digger Bar

Posthole Digger Bar

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
1" x 72" Digger Bar with diamond point and chisel head	070162	85367 (DG-23)	22.00	
1"x 72" Posthole Digger Bar with tamper head and chisel head	070168	85366 (DG-19)	17.00	

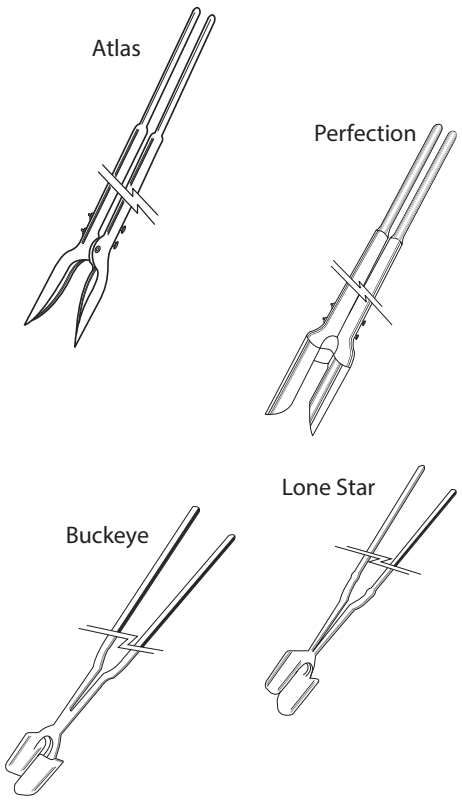

NOTE: Legacy model part numbers are in parentheses( ).

Post Hole Diggers - Seymour / 48" Handle

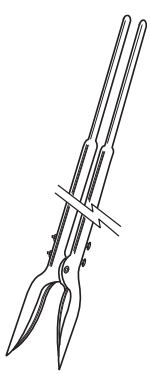

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
Atlas, 5" Hole, Wood Handle 15 ga. sharpened blade	070650	21105 (DG-10)	8.00	
Atlas, 6" Hole, Fiberglass Handle 15 ga. sharpened blade	070661	21110 (DG-100FG)	7.50	
Hercules, 6-1/4" Hole, Wood Handle 11 ga. hardened and sharpened blade	070651	21200 (DG-11)	10.50	
Lonestar, 6-1/2" Hole, Steel Handle 11 ga. hardened and sharpened blade	070656	21220 (DG-15)	15.50	
Perfection, 7-1/4" Hole, Wood Handle 13 ga. sharpened blade	070648	21244 (DG-12)	8.60	
Buckeye, 6-1/2" Hole, Steel Handle 11 ga. sharpened blade	070655	21230 (DG-16)	16.00	
REPLACEMENT PARTS				
4' Fiberglass Handle	070645	(FG-48H)	1.50	
4' Wood Handle	070652	SP21095 (DG-10H)	1.90	

NOTE: Replacement parts are available on special order.
Legacy model part numbers are in parentheses( ).

Post Hole Diggers - Tru Pro / 48" Handle

DESCRIPTION	PART NO.	WEIGHT EA.	NOTES
Truper, Post Hole Digger, Wood Handle	070667	9.00	

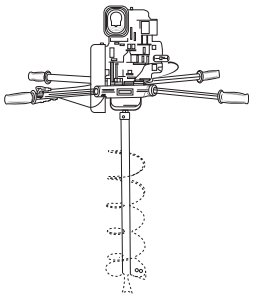

Specifications Subject To Change Without Notice. For Policy and Terms, Please Refer to Page COV-1. Copyright © Master Halco, Inc. 2018

Diggers - Ground Hog / 7/8" square auger drive • Fits up to 12" augers

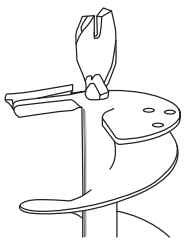

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
5.0 HP Ground Hog Digger	070836	C-71-5	78.00	
5.5 HP Ground Hog Digger with Honda engine	171G00	C-71-5H	85.00	

NOTE: Augers not included
Replacement parts are available on special order.

Standard Augers - Ground Hog / Bolt-on hardfaced blades • fishtail pilots

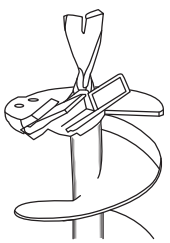

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
6" x 36" L	070845	#SD6	14.00	
8" x 36" L	070846	#SD8	20.00	

Combo Augers - Ground Hog / Cast alloy steel boring heads • steel side blades • fishtail pilots

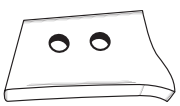

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
6" x 36" L	070837	#CSD6	16.00	
8" x 36" L	070838	#CSD8	23.00	
10" x 36" L	070839	#CSD10	28.00	
12" x 36" L	006342	#CSD12	25.00	

Best suited for compacted, rocky soil conditions

Cutting Blades - Ground Hog

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
Side Blade for 6" and 7" Augers	070842	#670	0.25	
Side Blade for 8" Augers	070843	#800	0.25	
Side Blade for 9" and 10" Augers	070844	#910	0.30	
Fishtail Pilot	070849	#100	1.00	

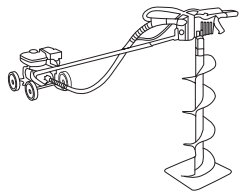

Side Blade

Fishtail Pilot

Earth Drill - Little Beaver

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
10.7 HP Hydraulic Drill with Honda engine	376P00	#HYD-PS11H	260.00	
8 HP Mechanical Drill with Briggs & Stratton engine	772L00	#MDL-8BR7	180.00	
8 HP Mechanical Drill w/ Honda engine	968F00	#MDL-8HR7	180.00	

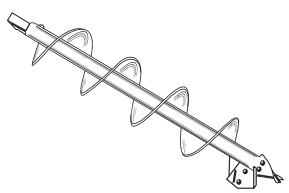

Power Units - Little Beaver

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
5 HP Briggs & Stratton engine	002207	#MDL-5B	125.00	
8 HP Briggs & Stratton engine	070817	#MDL-8B	140.00	
5 HP Honda engine	070840	#MDL-5H	150.00	
8 HP Honda engine	070865	#MDL-8H	160.00	

8" Semi-Pneumatic Wheels (for 5 HP) or 10" Pneumatic Wheels (for 8 HP)
NOTE: Auger, Points and Blades sold separately.

Snap-On Augers - Little Beaver / Standard

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
5" x 36" L	025Y00	#5x36-SSS	16.00	
6" x 36" L	070822	#6x36-SSS	17.00	
7" x 36" L	070868	#7x36-SSS	19.00	
8" x 36" L	070823	#8x36-SSS	20.00	
9" x 36" L	070869	#9x36-SSS	25.00	
4" x 42" L	408X00	#4x42-SSS	15.00	
6" x 42" L	070824	#6x42-SSS	19.00	
8" x 42" L	070825	#8x42-SSS	25.00	

Best suited for soft, sandy soil conditions

Snap-On Augers - Little Beaver / Heavy Duty with Pengo Blade

DESCRIPTION	PART NO.	MODEL PART NO.	WEIGHT EA.	NOTES
6" x 36" L	682H00	#6x36-SSP	20.00	
8" x 36" L	547L00	#8x36-SSP	25.00	
12" x 36" L	000W55	#12x36-SSP	40.00	
6" x 42" L	078D00	#6x42-SSP	20.00	
7" x 42" L	041Y00	#7x42-SSP	25.00	
8" x 42" L	084D00	#8x42-SSP	25.00	
10" x 42" L	070965	#10x42-SSP	30.00	

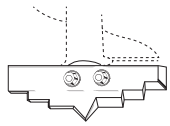

Best suited for compacted, rocky soil conditions
