Projects!**

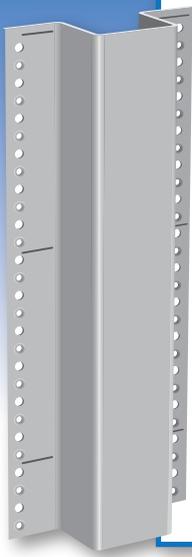

▶ **What is PostMaster + Fence System**

3 STEEL POSTS - LINE - CORNER - GATE

- Exclusive from Master Halco Inc.

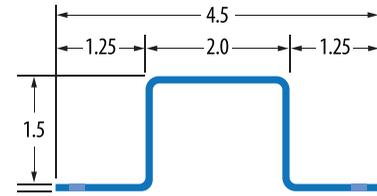

▶ **Why PostMaster +**

- Differentiate Yourself - Make "Innovation & Quality" your brand
- Profitable - Save Time & Money - Sell More Projects
- Versatile - Build traditional or contemporary fence styles
- Strength - Gate post eliminates call backs
- Steel To Steel - The strongest gate hardware connection possible
- Engineered - System designed to withstand 73 mph windload
- Warranty - Limited Lifetime Structural Warranty

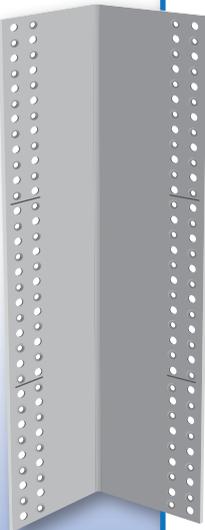

LINE POSTS

- Wider flanges provide stronger holding power and reduces splitting of rails
- Shorter “hat” section allows a flush cover for a clean fence line
- Multiple hole patterns allows for screws or lag bolts
- Countersunk holes for flush seating and ease to cover
- Concrete lock adds system strength and performance

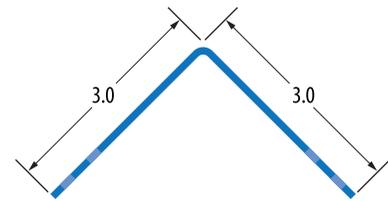

- Material - Pre-Galvanized G90
- A653 SS Grade 50
- Thickness - 0.100 inch
- Yield Strength - 50 ksi
- Tensile Strength - 65 ksi
- Windload - 73 mph (ULT, ASCE 7-10, IBC 2012)
- Concrete Lock

CORNER POSTS

- Strong .120” steel with a concrete lock for the strongest corner that supports 2 lines of fence
- Multiple hole patterns provide options for outside rail or inside rail installation for the style of fence you install

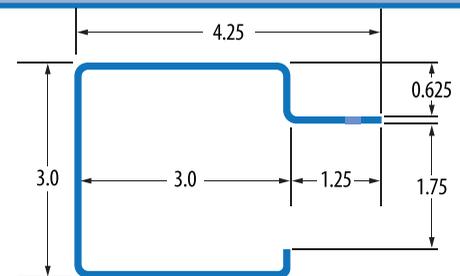

- Material - Pre-Galvanized G90
- A653 SS Grade 50
- Thickness - 0.120 inch
- Yield Strength - 50 ksi
- Tensile Strength - 65 ksi
- Windload - 70 mph (ULT, ASCE 7-10, IBC 2012)
- Concrete Lock

GATE POSTS

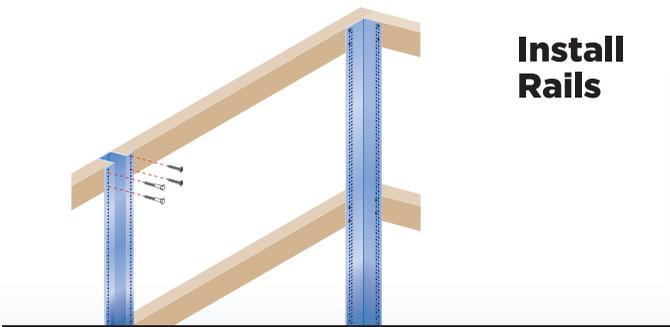

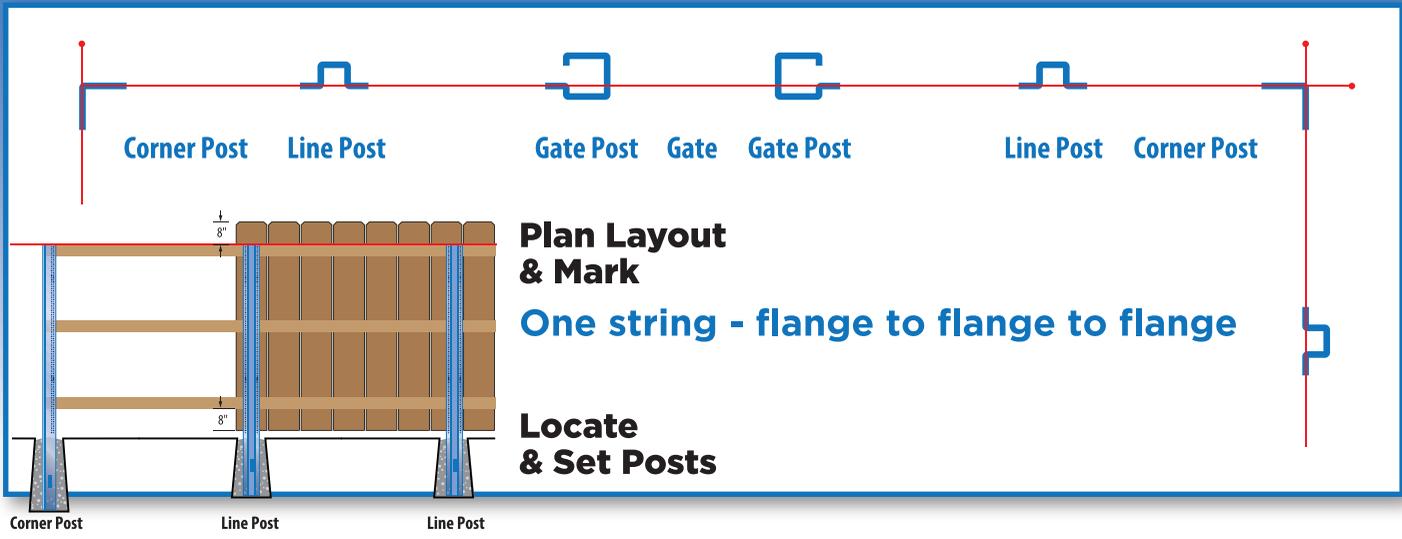

- Robust steel design that holds the hardware and gate straight and square for years of worry free service and no call backs
- Rails slide inside the post to maximize holding strength with screws
- Powder coated black finish adds a style accent to the gate or can be covered for the natural look of wood
- Can be used for right or left hung gates or used as a Gate and Latch Post.

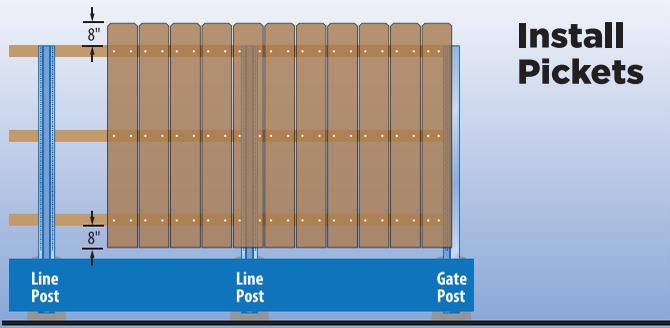

- Material - Powder Coated Black
- A653 SS Grade 50
- Thickness - 0.100 inch
- Yield Strength - 50 ksi
- Tensile Strength - 65 ksi
- Windload - 112.6 mph (ULT, ASCE 7-10, IBC 2012)
