

## WESTERN RED CEDAR

Western Red Cedar's botanical name is *Thuja plicata*. Fence pickets, rails, and posts are one of the most decay-resistant Native American wood types with high durability when exposed to weather. Western Red Cedar is grown and harvested from sustainably managed North American forests. Western Red Cedar can be left natural, painted, or stained. Pre-Stained Western Red Cedar is available with a water-based stain that can be matched to your outdoor living environment.

**Lengths:** 4', 5', 6', 8'

**Widths:** Nominal: 4" 6" 8"  
Actual: 3 1/2" 5 1/2" 7 1/2"

**Thickness:** Nominal: 1" 1"  
Actual: 5/8" 3/4"

**Grading:** Fencing is appearance-graded and categorized by knot size/type and defect, which impacts the visual appeal and performance as a fence board. Boards are graded for 2-face appearance or 1-face appearance.

Availability for Western Red Cedar fencing is the United States and Canada. Typical Fences styles include Solid Board Vertical, Solid Board Horizontal, Board-on-Board, and Alternating Panel. Versatile and easy to work with, you can construct and install any fence style for your project. Longevity can be increased by installing the WRC boards and rails on a PostMaster Plus steel post for wood fence systems. Natural wood texture and colors range from rich amber to cinnamon brown and if left natural, it will age to a silvery grey.
