Trade Show Lists

- Exhibiting companies at that trade show
- NOT attendees
- Company profile is already in the Gazelle.ai platform
- Access to the company profile,
 G-Score, and associated
 contacts

THE G-SCORE EXPLAINED

Our G-Scores are estimates of an individual firm's propensity to announce an expansion in the next 12-18 months.

- The Gazelle.ai research involves model comparisons and comparative analysis of multiple models and model elements.
 - 'G-Score 1 no propensity to expand or not enough information available
 - G-Score 2-5 increasing 25th quartiles of propensity to expand
 - G-Score 6 direct outreach confirmed planned expansion (Verified Projects)

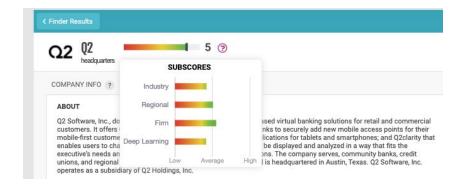

THE SUBSCORE EXPLAINED

The *G-Score Subscore Tool* breaks down a firm's overall propensity to expand in an industry (G-Score) into its Subscores that represent the main groups of drivers. It helps to understand what is primarily responsible for a company's growth signals. It is visible for all displayed G-Scores by NAICS through a hover-over.

Subscores illustrate a firm's performance for:

- Firm: Drivers specific to the individual companies such as its age, size, funding status, trade show attendance, past expansions, etc.
- Regional: Drivers representing the performance of the region such as business costs or the existing ecosystem, etc.,
- Local Industry drivers measure the industry's performance in areas such as financial performance or trade, etc.
- The impact of the Al's Deep Learning that represents any possible combination of drivers such as the interaction between current or past firm and industry signals; for example, low state business costs in combination with a strong workforce could have a significantly higher impact on the G-Score than either of the variables on their own.

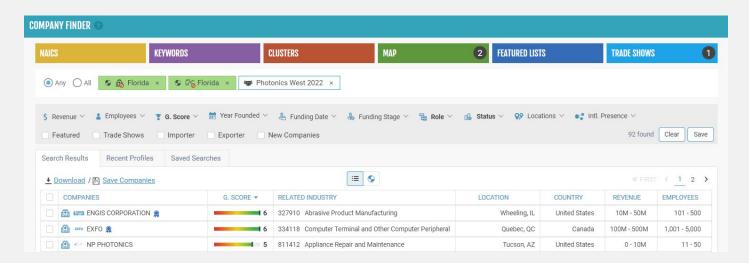

HOW TO LEVERAGE THE TRADE SHOW FEATURE Use Case 1

Compliment your physical attendance at a trade show

- Schedule meetings for the show in advance
- Profile companies who are attending
- Prioritize who you want to speak to based on key criteria in Gazelle, such as G-Score, funding information, and company profile data

HOW TO LEVERAGE THE TRADE SHOW FEATUREUse Case 2

Support research and meetings when not attending the show

- Reach out to exhibitors who are at the show and request a meeting post show
- Find similar companies to those you are interested in

Key filters to support your search

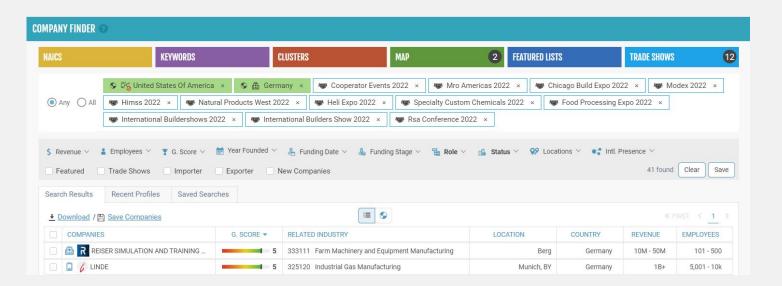

- G-Score
- Funding Stage
- Funding Date
- Map

HOW TO LEVERAGE THE TRADE SHOW FEATURE Use Case 3

Finding companies that are attending a trade show in a specific country but headquartered in another country

Eg. Companies headquartered in Germany that are attending a show (or shows) in the U.S.

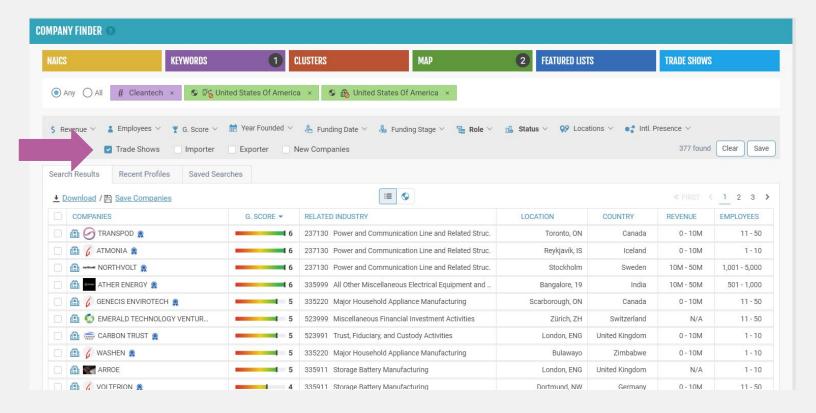

HOW TO LEVERAGE THE TRADE SHOW FEATURE Use Case 3

Using the trade shows button to filter your list down to companies that are exhibiting at trade shows

- We know that the is a correlation between a company's attendance in trade shows and their likeness for expansion
- Example Cleantech companies that do not have a presence in the U.S. and are involved in trade shows. When the 'trade shows' button is selected, the list goes from 1,674 to 377

Using the trade shows button to filter your list down to companies that are exhibiting at trade shows

HOW TO LEVERAGE THE TRADE SHOW FEATURE Use Case 4

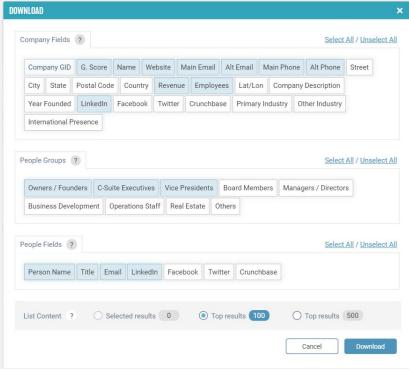

You have a colleague attending a trade show and you want to run a report of the show exhibitors and pull your top list for that colleague

- Run your search using the specific trade show and narrow it down with filters
- Save your company list into a folder
- Download the list

Download the list for yourself or your counterpart

- Go into your folders and find the folder you are interested in, and click the download button
- Select the fields that you are most interested in
- This will download as a CSV file
