A. CALL TO ORDER

B. ADOPTION OF THE AGENDA

MOTION TO APPROVE THE MEETING AGENDA

MOTION – Matthew Goldstein

SECOND – Rudy Besikof

MOTION APPROVED

NO ABSTENSIONS

C. CHANCELLOR'S REPORT

i. Special Presentation on HyFlex at BCC (Presenters: VPI Kuni Hay & Professor Cora Leighton)

- This item is timely because we are beginning to work on the Educational Master Plans, which will inform our Facilities Master Plans.
- BCC planning to launch the concept of HyFlex as a pilot for the District to learn from. This could be a potential District-wide implementation for a new standard. Exploring to see IF this would be a good thing to implement District-wide.
- HyFlex was defined – Hybrid Flexibility – Blending two or more modalities (i.e. blending online and face-to-face instruction).
- Principles –
 - It's all about the learners choice
 - Equivalency to student learning outcomes
 - Reusability – so don't have to build from ground up. Can work to improve on it over time
 - Accessibility of materials and accessing higher learning for whatever modality works for the individual student
- It allows for increased enrollment opportunities
- Infrastructure needs – Will need 360 cameras to fully implement this
- Instructor training is needed
- This will be a cultural transition for PCCD
- BCC has developed an Integrated HyFlex Taskforce to explore this.
- The timeline for implementation was shared.
 - To have TF in place by the end of the semester.
 - First meeting in Spring 2022.
 - To begin conducting research and development
 - To work to secure technology
 - Secure trainers to come in
 - To conduct a Marketing and Awareness campaign
 - To begin pilot in fall 2022
- Secured \$50K in funding from the Strong Work Force Funds. To also request funds from HEERF (primarily for technology).

ii. Chancellor's Report-back on Action Items from 10/29/2021 PGC Meeting.

- The Chancellor accepted the PGC's recommendations to approve the Board Policies (BPs) /Administrative Procedures (APs) that were presented at the previous PGC meeting. The BPs will move forward to the 12/14/2021 Board meeting for approval.
- The Chancellor accepted the PGC's recommendation to approve the Updated Budget Calendar, as is with no changes.

iii. Chancellor's General Update

- Implementation of BoardDocs – The Chancellor is allocating an additional \$8,500 in funds to secure and implement BoardDocs Plus for the District PBIM committees. This will serve as the repository for maintaining all District participatory governance committee/council documentation.
- The Peralta Colleges Foundation (PCF) put in for a grant with PepsiCo. in the amount of \$200K for 3 years. We are now

finalists. The focus of these funds will be to provide wrap-around services for our disenfranchised students/students of color. To be working with the colleges in the area of STEM.

- Update on Strategic Planning Timeline – An evaluation committee has been convened to review and rate the responses to the RFP. The plan is to make a decision on a contractor by January.
- Update on the Mission – If Board adopts the new 2022 Board Calendar, it will include a work session for the Board to focus on the Mission, Vision and Values.
- VC Siri Brown is going back to the faculty ranks and will be on special assignment to lead the Teaching and Learning Center. To be launched in January. To hire an interim replacement for Dr. Brown for the spring semester, and a permanent replacement to start July 1. To recruit to hire a Registrar as well.

D. APPROVAL OF PREVIOUS PGC MEETING MINUTES

- i. October 29, 2021 Meeting Minutes

MOTION TO APPROVE THE PREVIOUS MEETING MINUTES

MOTION – David Johnson

SECOND – Ron McKinley

MOTION APPROVED

NO ABSTENSIONS

E. PUBLIC COMMENT

- i. Scott Barringer – Noted that Anthony Edwards no longer employed by the District. Mr. Barringer noted that he is willing to serve in this spot if desired.
- ii. Scott Barringer – Spoke about the change in engineering staff to a contracted staff
- iii. Lowell Bennett – Concern about student vaccinations and how we handle students who decide not to get vaccinations. We should remain in contact with them and shepherd them to other options if they can't take online classes.

F. COMMITTEE/COUNCIL REPORTS

- i. District Academic Affairs and Student Services Committee - Siri Brown / Matthew Freeman
 - No report today. Next meeting is after the holiday.
- ii. Planning & Budgeting Council - Thomas Renbarger/ Adil Ahmed
 - Met this morning from 9-11am.
 - Received an update on the status of the BAM Handbook what the BAM Taskforce is working on. C.M. Brahmhatt has collected feedback and comments and will distribute an updated draft on 12/5, which will be presented for approval to the PBC at its 12/9 meeting.
 - Passed a motion to establish an exploratory Taskforce to strategize on how to decrease spending and increase revenues in order to prepare for when the hold harmless funds go away.
- iii. District Facilities Committee - Atheria Smith / Rachel Goodwin
 - Not in attendance. No report provided.
- iv. District Technology Committee - Antoine Mehoulley /Matthew Goldstein
 - Reviewing and discussing the Delineation of Functions document.
 - Discussion about PeopleSoft Upgrade

- v. Update from the PGC subcommittee on Equity, Diversity & Inclusion – Royl Roberts
 - No update provided.

II. CARRIED OVER AND NEW ITEMS

Topic:	Presenter:	Purpose:	Discussion
<p>1. Approval PGC Master Calendar for FY 2021-22</p>	<p><i>Donald Moore Chancellor Jackson</i></p>	<ul style="list-style-type: none"> • The new BAM is to be used for the 2023-24FY – ACTION – Make this change to the calendar. • Chancellor Jackson asked about what happens if the Budget items that are slated to be approved in May aren't approved by the Chancellor or Board? There will be no time for an additional meeting. This will be during the summer, so how does it come back for consideration of possible changes? Additionally, it was noted that the Board likes to have a 1st Read to review items like these, and then be able to act on the items at a 2nd meeting. What would be the process for follow-up on this given that by law we have to adopt a tentative budget by July? The Chancellor suggested the following – The PGC delegates authority to individuals within this group to review and make decisions during non-meeting periods (summer). • In order to have a Tent budget in place by July, we will need to continue using the current BAM model. • The Budget Allocation Model (BAM Model) is for next fiscal year 2023-24. ACTION – Change the 2nd to last bullet in the May Meeting to note for FY 2023-24 (not 2022-23) • To come back to the next meeting for final approval. 	
<p>2. Update on Upgrade to the Peralta Website</p> <ul style="list-style-type: none"> - <i>ADA-accessibility</i> - <i>Mobile-friendly</i> - <i>Integrated with HubSpot Marketing</i> - <i>Timing of launch</i> 	<p><i>Mark Johnson</i></p>	<ul style="list-style-type: none"> • The new website will be: <ul style="list-style-type: none"> ○ ADA-accessible ○ Mobile-friendly ○ Integrated with HubSpot Marketing ○ Built in HubSpot ○ Allow ability to use State Chancellor's Office Pope Tech software • Timeline Shared: <ul style="list-style-type: none"> ○ Currently moving PDFs and content from WordPress to SharePoint so that it can be available when website moves over. ○ Suggested Timeline – Soft Launch during holidays and Hard Launch in January. ○ Another option is to delay the hard launch to February. ○ Jeff Sanceri asked about translation functionality for other languages. Response: To be implemented once the English content is complete. • Asked all to send feedback to Mark Johnson and Aaron Habour. 	
<p>3. Chancellor's Work Group (CWG) Update</p> <ul style="list-style-type: none"> - <i>Confirmed</i> 	<p><i>Chancellor Jackson</i></p>	<ul style="list-style-type: none"> • The Chancellor's Work Group (CWG) is to work directly with the Chancellor in order to move some of our ideas and initiatives forward. • The membership of the CWG has been confirmed.

(Provided in the mtg. materials) • Chancellor Jackson asked – if this CWG body comes to a recommendation, can it be trusted to move forward with it? • It was asked whether there was a Local 39 rep amongst the membership? Response: Yes. Selwyn Montgomery.
<p>4. PGC Business - Check-in on PGC Goals for 2021-22 - Taskforces?</p>	<p><i>Donald Moore Chancellor Jackson</i></p>	<ul style="list-style-type: none"> • We're making progress towards our goals. <p>PGC Goals for 2021-22:</p> <ol style="list-style-type: none"> 1. Identify a standardized platform for committee materials and implement it. Maintaining committee documentation from year to year. → Moving to secure and implement BoardDocs Plus for all PBIM Committees. 2. Regular Assessment of committees. → Working on developing a draft of the criteria for all PBIM committees. To bring this draft back to the PGC for feedback/recommendation for adoption. 3. Develop a Master Calendar for the PGC. Align with critical activities at State level, as well as colleges and District levels. → Goal Complete. 4. Create Sub-committees for key areas of PGC responsibility/scope (Accreditation, Master Planning, monitoring PBIM effectiveness, etc.) → Pending. 5. Review the PBIM Structure for possible necessary/appropriate updates. → Pending. Included within the priorities of the CWG.

Administrative Procedure 6325 PAYROLL

I. Payroll Periods

All District employees receive pay on a monthly basis. Classified full time employees and Faculty receive pay for the current month. Classified part time hourly employees receive pay from the 16th of the previous month to the 15th of the current month. Student workers receive pay for the previous month.

II. Pay Dates

The normal pay dates for all District employees (except Student Workers) is the last working day of the month. If the last working day of the month falls on a weekend or a holiday, the pay date is the preceding workday. December pay dates shall normally occur on the last workday prior to the winter holiday break.

The normal pay dates for all Student Workers is the 15th of the month. If the 15th is on a weekend or a holiday, the pay date is the preceding workday.

III. Deadlines

Written authorization for payroll deductions, tax withholding changes and direct deposit updates will apply on the current payroll for the month if received by the Payroll Department no later than the first day of the month prior to the effective date. If the first day of the month falls on a weekend, the previous workday is the deadline.

Submission of Timesheet due dates are posted annually on the Payroll webpage. The colleges may require timesheets to be submitted earlier than these posted due dates for Business Office approval prior to the submission to the District Payroll Department for processing.

IV. Garnishment of Wages

The law requires the District to comply when served with an income execution, wage assignment, Family Court Support Order, or Federal tax levy against a faculty or staff member, to make deductions from the individual's wages until the debt has been satisfied, or as otherwise required by the order. Upon receipt of a garnishment order, the employee will receive a notification of the order and a deduction schedule will apply according to the terms contained in the order.

V. Underpayment/Overpayment of an Employee

Once an underpayment or overpayment occurs, the Payroll Department shall proceed according to the process for correction as defined by the applicable collective bargaining agreement if applicable, by mutual agreement with the employee and coordination from the College Campus or District Office.

INTRODUCTION

The purpose of this *Peralta Community College District New Budget Allocation Model Handbook 2021* is to provide a detailed description of the process used by the Peralta Community College District (PCCD) to allocate unrestricted General Fund resources.

To communicate the PCCD budget allocation model to campus constituencies, this *Peralta Community College District Budget Allocation Model Handbook 2021* will be available on the District's website. In addition, the Vice Chancellor of Finance and Administration and the District Director of Fiscal Affairs will schedule annual campus-wide meetings at each site to communicate the PCCD budget allocation model suggested changes and/or updates. As this step will be repeated each year, the information presented to campus constituencies will also communicate any changes to the model that occurred as a result of the model's evaluation component described in the Evaluation of the Budget Allocation Model section of this document.

Contained within this Handbook is a general description of the PCCD Planning and Budget Council, the timeline and process for budget development, and guiding board policies and administrative procedures. The next section of the handbook provides a narrative explanation of the budget allocation model.

This *Peralta Community College District Budget Allocation Handbook 2021* describes the components of the budget allocation model at the District level. Each of the PCCD entities, Merritt College, Laney College, College of Alameda, and Berkeley City College, also has a budget allocation model for the internal distribution of funds including evidence of how budget allocations are linked to campus and District planning.

PLANNING AND BUDGET COUNCIL

The function of the Planning and Budget Council (PBC) is to make recommendations regarding policies, planning, and other matters related to PCCD fiscal resources. Recommendations from this governance group are forwarded to the Participatory Governance Council (PGC). After consideration of input from the PGC, and other recommendations, the Chancellor makes the final recommendation which is then submitted to the Board of Trustees for approval.

In addition to making recommendations related to PCCD fiscal resources and facilities, the purpose of the PBC is to:

- Ensure that PCCD resources are tied to the District Strategic Plan and the Comprehensive Master Plan
- Monitor PCCD's fiscal solvency
- Review and revise budget assumptions
- Review and discuss implementation of policies related to fiscal resources
- Coordinate practices as needed related to administrative services
- Serve as a forum for dialogue on ongoing fiscal activities and reporting
- Review and share information on the state budget including all funds
- Review the draft budget in its developmental stages

DRAFT

PCCD BUDGET ALLOCATION MODEL NARRATIVE

Budget Concepts and Principles

The major budget concept is that revenues stay where they are earned. District Services is treated as a fifth budget center and we use a chargeback methodology for Districtwide expenses and shared services between budget centers.

Budget center allocations are expected to align with the PCCD Mission Statement and link District Strategic Directions and District Objectives to the resources needed to accomplish these institutional goals.

PCCD uses an incremental approach to budgeting. The process each year begins with the previous year's base budget, with adjustments as necessary, based on projections of available revenue for the current year.

The major principles that guide the budgeting process are to:

1. Balance on-going expenditures with on-going revenues;
2. Maintain a 10% reserve for economic uncertainties for the district, and 5% reserve for economic uncertainties at each college.
3. Maintain appropriate autonomy for each PCCD entity to use resources in a manner that best addresses the individual entity's needs.

Budget Centers

The PCCD budget model recognizes five budget centers for the purpose of budget allocation and expenditures:

- Merritt College (Revenue Center)
- Laney College (Revenue Center)
- College of Alameda (Revenue Center)
- Berkeley College (Revenue Center)
- District Services (Cost Center)

The Merritt College, Laney College, College of Alameda, and Berkeley City College budget centers comprise all budgetary information for these institutions.

The District Services budget center comprises all budgetary information for the Chancellor's Office, Public Affairs, Finance, and Department of General Services, Human Resources, and Educational Services and Technology units.

This handbook includes information on the allocation of resources to each budget center. However, the individual budget centers have discretion over their budget center allocations. The specific allocation processes for each budget center are determined by the respective budget center's allocation model and planning processes.

Building Blocks of the New Budget Allocation Model

Unrestricted General Fund

- Resource Allocation Model
 - Ongoing Funds
 - Self-Supporting Funds
- Prior Year Funds (Carryover Funds)
- Hold Harmless Funds

The Ongoing and Self-Supporting Funds are part of the District's New Budget Allocation Model. This activity makes up the structural analysis of the District. More information on the components of the Budget Allocation Model is included in subsequent sections of this handbook. The Prior Year (or Carryover) Funds and the Student-Centered Funding Formula Hold Harmless funds are considered one-time funds. The One-Time Funds are not considered on-going as they have no ongoing funding source associated with their activity.

DRAFT

New Budget Allocation Model

The District has implemented a new Budget Allocation Model (BAM) in efforts to more clearly align ongoing activities within each of its budget centers.

Principles

These are the guiding principles that were developed for the new allocation model.

- Recognize the District as the fiscal entity while honoring the unique legacy and culture of each institution
- The BAM will be fair, equitable, and transparent.
 - Fair - resource allocation decisions will be informed by objective, predictable, verifiable, and easily accessible data and will be made in an impartial and consistent manner.
 - Equitable - resources will be distributed in a manner that adequately supports the full array of programs offered at each college while ensuring compliance with statutory and regulatory requirements; efficient and strategic use of resources is expected, and inefficiencies will not be subsidized or supported.
 - Transparent - resource allocation decisions will be made in an open and consultative manner with representative stakeholder groups and that it is simple, easy to administer and communicate as possible.
- The goals and priorities for student success, equity, and access as articulated in the educational master/strategic plan of each college and the district office will align with the goals included in the district strategic plan and strategic vision plan adopted by the California Community Colleges Board of Governors, including benchmarks and actions for measuring progress, and the Budget Allocation Model will align accordingly.
- The BAM will provide operational cost predictability and stability to support college and district office strategic goals and objectives.
- Operational structural balance will be maintained by ensuring that ongoing expenditures do not exceed ongoing revenues resulting in a positive fund balance.
- Ongoing expenditures will be funded with ongoing revenues, and one-time expenditures will be funded with one-time revenues, with exceptions only under rare circumstances.
- Compliance with state, accreditor, and district reserve requirements will be maintained or exceeded, will be the first item funded in the BAM, and each college will maintain its own prudent reserve of no less than 1% of the previous year's expenditures. Reserves in excess of the minimum reserve requirements will be established in an expenditure holding account to meet unexpected and/or unanticipated expenditures that arise subsequent to budget adoption.
- The BAM will be assessed annually.
- The BAM will maintain and enhance FON requirements for the district.
- The BAM will maintain and improve 50% law calculation for future budget years.
- The BAM will support, maintain, and improve 75/25 ratio in future years.
- The BAM will provide a minimum funding for classroom 17.5 FTES/FTEF ratio to achieve expected classroom efficiency.
- The BAM will provide guidance to maintain staffing salary and benefits cost between 85% and 87% of available resources.
- The BAM encourages cooperation among and between colleges and district office to continuously find solutions to improve classroom offerings, student services and trim cost to seek fiscal stability within the district.

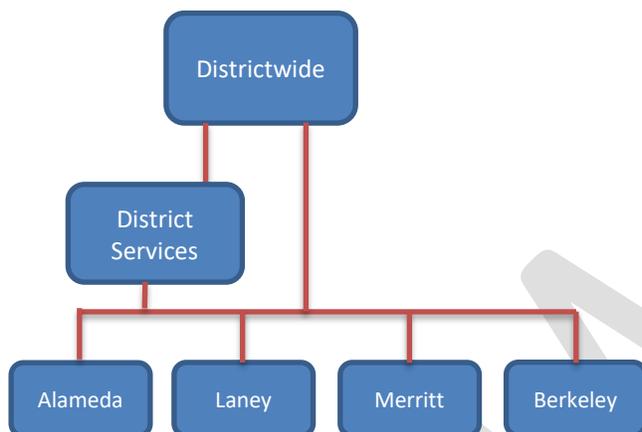

BAM Structure

The BAM is a revenue allocation model. It incorporates:

- Student Centered Funding Formula apportionment revenues
- Other state revenues
- Local revenues

It then uses those revenues to cover expenses:

- District-wide shared costs
- All personnel & operating costs by budget center

The four educational centers contribute revenue towards district services, creating the 5 operational budget centers. The 5 budget centers then all share in covering the costs identified as institutional, or district-wide costs.

Revenues

All ongoing and self-supported revenues are identified by budget center, either directly or by allocation formula. Those revenues form the basis for determining the operating budgets by each budget center. All revenue is considered District revenue because the District is the legal entity authorized by the State of California to receive and expend income and to incur expenses. However, the majority of revenue is provided by the taxpayers of California for the sole purpose of providing educational services to the communities and students served by the District. Services such as classes, programs, and student services are, with few exceptions, the responsibility of the four educational centers. It is the intent of the new BAM to allocate the majority of funds to the campuses in order to provide those educational services. The model intends to provide appropriate incentives for effective resource allocation decisions at the campus level. Each campus president is responsible for the successful operation and performance of their college or center as it relates to its operating revenues and expenses. The purpose and function of the District Services in this structure is to maintain the fiscal and operational integrity of the District and its individual colleges and centers and to facilitate campus operations so that their needs are met and fiscal stability is assured. District Services is also responsible for providing certain centralized functions, both to provide efficient operations as well as to assist in coordination between District Services and the campuses. Examples of these services include; human resources, business operations, fiscal and budgetary oversight, procurement, construction and capital outlay, educational services, institutional research, and information technology.

Student Centered Funding Formula (SCFF) Revenue

SCFF Revenue is the amount anticipated to be received by the District as State Apportionment. Apportionment is the primary source of revenue for the District. PCCD's total apportionment is comprised of property tax revenues, student enrollment fees, and a state allocation, calculated using the Student Centered Funding Formula. The SCFF uses Full-Time Equivalent Student (FTES) and student headcount data to calculate the apportionment. FTES targets for each college for the upcoming academic year are used to allocate the base funding and assumptions are applied to the headcounts that are used for the additional SCFF components. The SCFF revenue is computed in three parts:

- Base Allocation (70% of the SCFF): This is the enrollment-based component that is most similar to the prior, SB361-based funding formula. It is the sum of a Basic Allocation funding, derived from the number of colleges and centers in a district, as well as its size, and its funding for Credit, non-Credit*, CDCP*, Incarcerated, and Special Admit FTES.

* Noncredit & CDCP are funded 100% from the Base Allocation and do not participate fully in the other 2 components of the SCFF

- Supplemental Allocation (20% of the SCFF): This is the component of the SCFF that targets equity of access and opportunity for low-income students. The Supplemental Allocation is derived from the number of students who are receiving Pell Grants, Promise Grants, and who are AB540 students.
- Student Success Allocation (10% of the SCFF): This is the component of the SCFF that targets and incentivizes success outcomes of California Community College students. This allocation is based on a district's performance in the following eight outcome metrics: earned Associate's Degrees, Bachelor's Degrees, Associate's Degrees for Transfer, Credit Certificates; Completion of 9+ CTE Units, Transfer; Completion of Transfer Level Math & English in the first year, and Achievement of Regional Living Wage.

The assumptions used for the SCFF as part of budget development are:

- FTES on which we'll be funded will be the same based on targets set by the campuses. If no targets are possible or developed, the prior fiscal year FTES will be used.
- The last available headcounts are used for the Supplemental and Success components of the SCFF, which is in line with the advanced calculations prepared by the state. Ultimately, the headcounts for funding will use the actual current year submitted data.
- The allocated SCFF revenue is limited to the earned revenue.

Other Unrestricted Revenues

The BAM also includes additional unrestricted state revenues received as well as local revenues earned.

Other State Revenue:

- Lottery
- Faculty Compensation
- Mandated Cost

- Faculty Hiring and Parity
- Other State
- Homeowners Tax Relief

State Revenues included are allocated to the campuses based on its proportion of the District's SCFF Base Allocation of prior year.

- Enrollment Fee Waivers: This budget is made up of 2% of the enrollment fees collected, which are not used to off-set the apportionment calculation, and the amount received from the State for the 2% that otherwise would have been collected from students had they not received fee waivers.
- Full-Time Faculty Hiring Funds 2018-19: Funds tied to a calculated increase in the Faculty Obligation Number by the state. This allocation was received in 2018-19.
- Part-Time Faculty Compensation: Comprised of reimbursements for office hours and health benefits, and an allocation for compensation. The final amount the District will receive will be based on the total claims submitted system wide against the available funds. We have based our estimate on the prior year allocations, reduced by 15% factoring in estimated reductions from the state.
- Lottery (Unrestricted portion): The unrestricted lottery revenue is considered part of the core revenue that is used to fund operations. The District's total allocation is based on FTES and incorporates the early lottery estimates from the state.
- Mandated Costs: Allocation based on funded FTES, as part of a block grant to cover compliance costs incurred during the year. Based upon the many uncertainties over the mandated claim process, including the State Controller's Office audits of these claims, the District has elected to opt into the more certain funding offered by participation in the block grant. This decision is evaluated annually to be responsive to changes in the mandated cost reimbursement process.

Local Revenues

- Districtwide Activity revenues consist primarily of interest earned and are allocated in a manner similar to State Revenues discussed above.
- Budget Center Activity are funds that are received for various activities. Each budget center, Merritt College, Laney College, College of Alameda, Berkeley City College, and District Services, determined their revenue estimates based on their experiences. This also consists of self-supported activities that bring in revenue and are expected to cover their own costs.
 - Community Services Fees
 - Contract Education/Services
 - Facilities Rental Fees
 - STRS paid on behalf Others
 - Non-Resident Student Revenue
 - Student Health Fees
 - A/C Transit
 - Application Fees (Int'l)/Student Records
 - Capital Outlay
 - Other Local

Other Local Revenues distributed based on FTES of prior year:

- Interest
- 2% Enrollment Fee
- Miscellaneous Income

Revenue to the District Office

District Services is considered a budget cost center and is funded based on colleges covering actual net operating costs within an agreed upon percentage of overall revenue. As part of the implementation of the new BAM, several factors were considered in determining an appropriate percentage, including information on the level of service and allocations at other districts. A consideration was given to provide an allocation that was sufficient to allow District Services to operate as a budget center yet still leave each campus able to maintain its operations at the current levels.

Expenses

The expenses in the new BAM are allocated by budget center as well as the shared district-wide expenses.

District-wide Expenses

Districtwide expenses are costs that have been identified and determined to be shared across all entities within the District. Examples of these expenses include: retiree benefits, faculty sabbatical costs and related-activity expenditures, districtwide memberships, audit expenses, employee assistance program, and hospitality. Changes to the districtwide expenses may be made directly by the Chancellor or with a request through PBC then approved by PGC for recommendation to the Chancellor. The listing of approved Districtwide expense categories and amounts are included in the annual proposed budget reports.

Budget Center Expenses

Operating budgets included in the new BAM for the budget centers are separated into ongoing and self-supported activities.

Personnel

The budget center's operating expenses are comprised primarily of personnel costs.

The employee groups included in position control are:

- Full-Time Faculty
- Classified staff
- Confidential staff
- Academic managers
- Classified managers
- Executives
- Temporary Special Positions (including instructors, project coordinators, managers, and directors)

Full-Time Faculty

While most positions are determined based on the needs of the budget centers, there is a compliance component to the full-time faculty positions district-wide. A faculty obligation number (FON) is set by the state each year, based on the prior year's FON modified by changes in the FTES. The District must meet its FON or face paying a penalty. Full-time Instructors teaching credit classes, as well as full-time counselor positions are considered towards this obligation.

NONPOS (a.k.a. Non-Position Control)

The remaining operating budgets for each budget center are those costs outside of position control, also referred to as “NONPOS”. This includes estimated costs for Adjunct Faculty and other temporary hourly personnel, costs of departmental and campus office costs (e.g. supplies, services, equipment, etc.) and maintenance needs. As part of the implementation of the new Budget Allocation Model, each budget center is responsible for covering any increases in personnel costs, such as the costs of any negotiation settlements and increases in health plan costs. The budget centers may also set aside some contingency funds to help offset potential, yet unquantified costs.

Prior Year Funds

A district's ending balance for a fiscal period is referred to as its fund balance. Fund balance represents a point-in-time fiscal snapshot of a district's financial position. As this balance moves from the end of one fiscal year to the beginning of the subsequent fiscal year, it becomes categorized as one-time. One-time funds are unspent funds that remain after a fiscal year has ended, and primarily results from budgetary "savings." These funds would not necessarily be replicated in subsequent years. It is not fiscally prudent to use one-time funds for ongoing purposes such as to funding expenditures for salaries and benefits of permanent staff. Instead, these funds are more appropriately used to fund one-time items or projects. To properly differentiate one-time funds from ongoing sources of funds, the District accounts for these dollars in the One-Time Fund, a sub-fund of the Unrestricted General Fund. The Ending Fund Balance, or Carryover Funds, are broken down into 5 categories*:

- Non-spendable – This represents resources that are not readily available for expenditures, and includes inventory and cash held in the revolving bank account.
- Restricted – This represents the carryover funds from restricted programs that have legal restrictions for their use by State and federal government.
- Committed – These are funds that were specifically committed by Board action. The District continues to maintain funds committed to help cover future PERS/STRS rate increases.
- Assigned – These funds are assigned for a specified Districtwide purpose or at the budget centers.
- Uncommitted – These are funds which have not been designated for a specific purpose and are held available to use for specific needs that may arise during the fiscal year. However, included here is a contingency set aside per Board Policy 6250 requiring that unrestricted general reserves shall be no less than 10% of unrestricted General Fund expenditures. We continue to base this on the Chancellor's Office definition of minimum required reserve for economic uncertainty.

Non-spendable Fund Balance

Revolving Cash: The District maintains a bank account with a \$150,000 balance to facilitate issuing checks that are needed outside of the normal check process and which have associated with them legal requirements for more urgent issuance.

Inventory: Inventory maintained for some supplies, and which by itself is not spendable.

Restricted Fund Balance

These are the Restricted funds which may carryover their unused funds. If expenditures outpace the available funds, then the fund balances will show as negative. In such circumstances, additional available unrestricted general fund resources are required to supplement the shortfall.

Health Services: All PCCD colleges maintain a student health center, which is partially funded by health fees collected. Those fees may only be used for allowable health service expenditures.

Instructional Equipment: Funds remaining from allocations by the state for instructional equipment.

Parking: Each campus maintains parking on-site and charges a fee for non-employees to park on campus. The parking fees collected from parking permits and day passes may only be used towards costs associated with the maintenance of and security for the campus parking lots.

Lottery: As a community college, we receive a share of the lottery funds collected by the state and designated for education. The restricted lottery funds may only be used for instructional purposes as identified in Education Code.

Veteran's Services: funding received to provide education benefits for veterans, which are held and disbursed per the direction of the Department of Veterans' Affairs.

Administrative Allowance: All PCCD colleges participate in the Federal financial aid programs (i.e., PELL, FWS, SEOG). Those programs provide an administrative allowance to help defray some of the costs associated with administering the financial aid to students.

Committed Funds

Committed funds can only be used for the specific purposes determined by formal action of the Board of Trustees.

Assigned Fund Balances

These carryovers consist of:

- One-Time Funds allocated to the various budget centers.
- Funds assigned by the budget center for activities and needs identified by that budget center.

One-time Funds Allocated

These are carryover funds are considered to be in the Districtwide category and are allocated to the different budget centers for specific purposes. These allocations are discussed at various standing committees, including the PBC as well as the PGC, and are approved at PGC.

The one-time funds are to be used for the purposes for which they were designated. Any of the One-Time Fund Allocations that remain unused once their purpose is complete will be returned to be included in future allocations.

Funds Assigned by the Budget Centers

Each budget center maintains control over funds that have been conserved from the previous year. These assigned funds are allocated to needs as identified by that budget center. These items are usually one-time in nature, rather than on-going costs.

Fiscal Year Ending Balance

Ending Balance

District ending balance will be used as follows:

- 1) Priority 1. Allocate 10% reserve for contingency.
- 2) Priority 2. Allocate one-time expenses designated by the board for the benefit of district and colleges.
- 3) Priority 3. Allocate remaining funds to colleges based on overall FTES percentage to be used for one-time expenses as prioritized by the college.

Ending Balance (Less than 10%)

If the district ending balance is less than 10% then each college will be assessed to make up to 10% required for reserve for contingency based on overall FTES percentage of each college.

Ending Balance for Colleges

- 1) Each college will keep unspent dollars as a positive ending balance to be used for one-time expenses in the future.
- 2) Each college ending balance greater than 5% must be allocated in the following year for one-time expenses.
- 3) If a college has a negative ending balance their allocation for next year will be reduced by the same amount.
- 4) If a college has an ending balance greater than 10% for two consecutive years, excess funds must be returned to the district for distribution as district ending balance.

Hold Harmless Allocation

As part of the multi-year transition into the SCFF, a provision was added to ensure that districts would receive no less than they did for 2017-18, plus COLA, which is 2.71% for 2018-19 and 3.26% for 2019-20, 0.00% for 2020-21, and 5.07% for 2021-22. Funds received under the hold harmless allocation have been used in the ongoing funding incorporated into the BAM. The District will use the hold harmless funding to supplement BAM, as needed, and has included it in the discussions of uses for one-time funding. The hold harmless funding is expected to end after fiscal year 2024-25.

Stabilization

Consistent with the SCFF, should any element of the SCFF for a budget center fall below the prior year funding level, stability will be provided for one year. The funding for this stability will come from district-wide reserves.

EVALUATION OF THE BUDGET

Evaluation of the Allocation Model

In October of each year, the PBC will evaluate the allocation model for both the process and those allocations that are formula driven, and will prepare a report to the PGC. The primary current formula-driven allocation is the amount provided towards funding District Services as a budget center. Each budget center will provide input via their respective representative(s) on the PBC.

Closing the Loop – Budget Allocation is linked to District Strategic Directions

In order to meet the Accreditation Standard III.D3, which requires that the District/Institution(s) systematically assess the effective use of financial resources and use the results of the evaluation as a basis for improvement. PBC should establish a clear process for doing this work and documenting it.

PGC
GOALS for 2021-22

1. Identify a standardized platform for committee materials and implement it. Maintaining committee documentation from year to year.
2. Regular Assessment of committees.
3. Develop a Master Calendar for the PGC. Align with critical activities at State level, as well as colleges and District levels.
4. Create Sub-committees for key areas of PGC responsibility/scope (Accreditation, Master Planning, monitoring PBIM effectiveness, etc.)
5. Review the PBIM Structure for possible necessary/appropriate updates.
