THE **maker's**
COLLECTION

Finca is a multi-tonal print that mimics the worn textures of rustic interiors and architectural designs. Crafted and creative, Finca is finished in a semi-matte, hand dipped glaze, enhancing the character of the collection and leaving original 'makers marks' on the reverse of each piece. Decorated in-glaze for industrial toughness, The Maker's Collection is designed for professional use.

The Richardson Sheffield brand guarantees innovative, high-quality products. All kitchen knives will become less sharp over time.

You can keep your kitchen knives in optimal condition with the help of this whetstone.

The whetstone is placed in a stylish, bamboo block with anti-slip studs so that the whetstone stays in place during sharpening.

FN343

Whetstone Sharpener 240/1000
L: 9 1/16" W: 7 3/32" H: 4 1/8"
3 Pc.

This Whetstone Has 2 Sides:

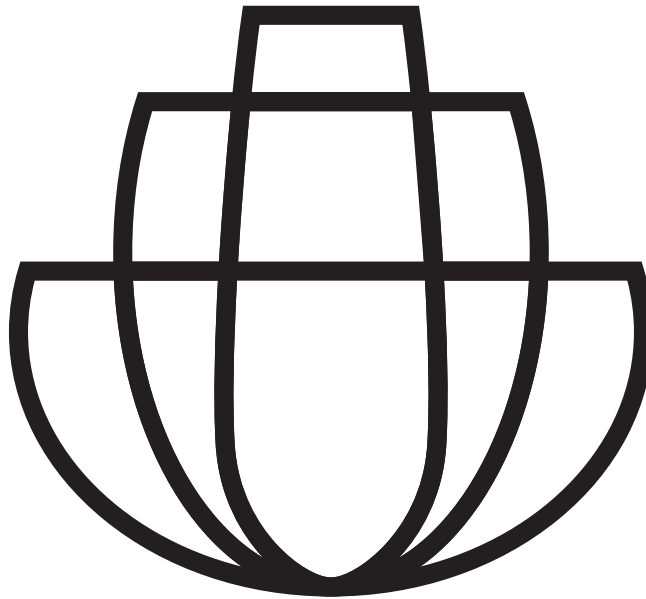

- **Blue side** has a coarse "240" grit to restore the sharpness of a blunt or damaged knife
- **White side** has a fine "1000" grit for finer sharpening and blade maintenance.

How To Use:

Before each use, soak the whetstone in lukewarm water for 5 minutes so that it can absorb water.

- Place the block on a stable surface and hold the blade at an angle of about 20 degrees.
- Sand the knife forward and backward over the whetstone with subtle and smooth movements. Make sure you do not use too much force, as more force does not provide a better sharpening result.

When sharpening, use the entire surface of the whetstone, this ensures even wear of the whetstone. If the blade is very dull, or hasn't been sharpened for a while, start with the blue side of the whetstone, then perfect the blade with the white side to remove any burrs on the blade. We recommend sharpening your knives once a week to maintain the superior sharpness of Richardson Sheffield knives.
