FOR OVER A CENTURY

We didn't just enter an industry, we created it. Today, the legacy continues. At Thermos®, we're driven to bring you better products and remarkable new experiences by relying on the same spirit of craftsmanship, adventure and originality that got us here in the first place.

PERFORMANCE YOU CAN TRUST

Thermos® products deliver what matters every time. As the leading manufacturer of convenient insulated products for over 116 years, Thermos® brand is trusted by consumers to provide innovative portable containers that are high-performing and durable. Thermos® brand delivers when it matters. All backed with NSF Certification and Warranty.

THERMOS. TRUSTED SINCE 1904.

ARCOROC

Arcoroc hot drink tableware perfectly complements the Thermos® brand - Both are work horse brands, approachable and trusted by the industry and never compromising on quality or cost.

Technology

With traditional containers, heat or cold finds its way inside through the process of convection.

Thermos vacuum insulation creates an airless space between two walls, virtually eliminating the convection process and temperature change.

Your drink will stay icy cold or steamy hot no matter what the forecast.

PERFORMANCE YOU CAN RELY ON

NSF Certification is the best way to tell if a product meets strict NSF food product safety standards including design and hygiene standards.

All Thermos® professional carafes and their corresponding accessories are dishwasher safe.

3RD PARTY TESTING

Thermos® brand uses 3rd party testing to ensure compliance with applicable safety standards.

QUALITY ASSURANCE

At Thermos®, we're proud of what we do, how we do it and who we do it for. We want every product to delight so we meet rigorous testing standards that is done on samples of each component or full product lines.
