*Affordable Food Guard Solutions*

English Manufacturing specializes in sneeze guards. We believe in doing one thing and doing it well. With a host of product lines, customizable options and accessories, English has a solution for any operation—and at nearly any budget. From concept to completion, our team is devoted to ensuring projects run smoothly, on-time, and on budget.

## MATRIX

Bent stainless steel tubing and discreet glass clips make Matrix the classic, affordable and dependable choice for food protection.

Matrix glass clips securely hold 1/4" or 3/8" tempered glass. Our unique glass clips are far superior to the channel/silicone method for holding glass. Bent tubing softens the design and can be powder coated in countless colors to complement any decor.

We offer more than twenty standard models. If one doesn't work for your application, let us design a custom, NSF certified guard to fit your unique situation.

Matrix is perfect for projects with a big vision and a tight budget.

- Quick serve restaurants
- C-Store POP displays
- Deli displays
- Fast casual
- K-12 cafeterias
- Salad bars

## ADJUSTAGUARD

Adjustaguard allows each glass panel to be fully and independently adjustable. By attaching vertical tracks to the operator's side of the posts, the Adjustaguard hardware is nearly invisible.

The unique E-Track system allows users to adjust the height and angle of each glass panel independent of the other sections to create pass-over, self-serve or a combination of both.

Adjustaguard not only provides exceptional functionality by concealing the bracket behind the posts, it makes the food the star of any food service operation.

Adjustaguard has a modern look and adjustability that makes it perfect for:

- *Fast-casual restaurants*
- *Hotels*
- *Upscale C-stores*
- *Concepts that offer self-service and full-service options*
- *Grocery-prepared food bars and islands*
- *Deli cases*
- *Bakery cases*

## VIPER

Viper was designed for maximum adjustability in an ever-changing industry. With the increase in serpentine counter designs, sneeze guards needed to adjust to these new shapes. Viper's unique bracket allows sneeze guards to wrap around curved or odd-shaped counters.

It's the most sleek, affordable, and versatile sneeze guard in the industry. The Viper guard allows for unlimited vertical and angular glass adjustability on any straight, angled, or curved counter.

The low-profile, tamper-proof glass fasteners give Viper a modern look. Made from 304 stainless steel, Viper is one of the strongest, most durable food shield brackets in the industry.

Stainless steel brackets, bent stainless posts and smart mounting options gives Viper an upscale look with a practical price.

**Viper is fully adjustable and is the perfect solution for curved or oddly-shaped counters.**

- *High-end corporate cafeterias*
- *C-Stores focusing on prepared foods*
- *Upscale grocery stores*
- *Anywhere style and design are important*

## CUSTOM

We also offer custom sneeze guards built to your specifications. No matter how simple or complex your design, we can create a guard tailored to your specific needs.

Our exclusive E-Track System lets you mount hardware to the back of nearly any size or style post and have complete adjustability. You're not limited to a one-inch round post any more.

Utilizing AutoCAD and Solidworks, our full-time design staff is dedicated to providing you with detailed drawings of your custom designs.

In addition, we offer:

- *Custom Colors*
- *Etched Glass*
- *Top Shelves*
- *Merchandising Accessories*
- *Heat and Lights*

## PORTABLES

When you're on the go, take English along to ensure the most attractive presentation for your food.

With our portables, if you have a countertop, you have a sales opportunity. From seasonal offerings, test marketing items, or weekly specials, our portable solutions make you look great.

---

## ACCESSORIES

### Lighting

Enhance your food presentation by adding fluorescent or LED lighting to your sneeze guard. UL listed, all wiring is concealed in the stainless tubing for a clean, polished look.

### Heat Strips

Heating units can be added to most sneeze guards. Choose from several options to fit your specific needs. Heat strips are mounted securely at the factory with all wiring safely concealed in the posts for an integrated look.

### Custom Colors

If you are looking for that “wow” factor, give us a call and we can help you find the perfect color. With a nearly infinite number of powder coating and finish options, English sneeze guards will blend with any décor.
