

#### **FOURQ PAYMASTER™**

# Pay Only What You Owe Always - Negotiate Better Terms and Pricing

A single source of truth for all global vendor invoices with line-item insight and 100% accountability

Empower your procurement team to negotiate better terms and pricing by knowing exactly what you're paying for with FourQ Paymaster™. Centralize large global supplier contracts while ensuring accurate and compliant payments and allocate these costs to any division, business unit, legal entity or cost center. Paymaster automates and centralizes all global invoice management processes, from invoice receipt and qualification to audit validation and approval and dispute management. By streamlining operations and helping drive increased productivity, Paymaster offers strong financial and operational benefits for both companies and their suppliers.

"Never pay a single dollar more than what owe."

## **Company Benefits**

- Consolidate global volumes reducing supplier proliferation
- Improve terms and pricing with master agreements
- Eliminate manual processes to validate invoices against contracts or purchase orders and increase productivity, improve accuracy and reduce costs
- Eliminate late fees and past-due invoices
- Improve vendor relationships with guaranteed 100% on-time payments

## **Supplier Benefits**

- Consolidate payments with 100% paid-on-time and single point of contact for all collections
- Achieve 90% reduction in aged receivables, reducing need for manual collections efforts
- Gain real-time visibility into status of each invoice resulting in no misapplied or missing payments
- Drive effective and fair dispute management with automated online issue and query resolution
- Achieve payback in under one year with competitive pricing
