

Pay & Comprehensive Benefits

Because you are more than a healthcare professional, we provide more than a contract

Beyond our comprehensive benefits and rewards package, there are many reasons why international nurses choose to start their U.S. nursing career with Conexus MedStaff, the top RN recruiting agency.

Free Visa Sponsorship

From the moment you sign a contract with Conexus MedStaff to start your journey to America, you will be supported and guided by our team of in-house immigration experts who will lead you through the full immigration process.

Supported by Experts

At Conexus MedStaff, we want our nurses to consider us experts in the field. Our team is fully educated on every aspect of your career pathway to the U.S. from legislative law to immigration policies, to regional knowledge of the United States. You need to feel confident and supported as you embark on your new life-changing career in the United States.

No Fees

At Conexus MedStaff we do not ask for any fees or any upfront costs, nor do we take any money from your paycheck once you are here. This is part of our promise and commitment to you.

One facility per assignment

Unlike other nurse recruitment agencies, we don't burn you out crisscrossing wide geographies to get to work every day. Our placements allow you to work at a single facility.

Endless assignment options

We have assignments to suit your long-term career goals. With hospital and long-term care clients nationwide, and facilities of all sizes we have a career pathway for everyone.

No abandonment

We are recognized for helping international nurses develop a career path beyond their initial assignment, and are there to provide support for all aspects of life in the U.S.

Commitment to your success in the U.S.

Our award-winning educational growth program will help you achieve your career goals and set you up for success for the rest of your career.
