

One team, passionately improving the wellbeing of communities, one nurse at a time

Investing in you and the community around you

At Conexus, our vision is to help communities be healthier. We do this by investing in the growth, skills and education of our nurses so they can thrive and take care of themselves and others.

From the moment you become part of our Conexus Community, you become part of something bigger than you, that feels like a 'home away from home,' supporting you throughout your growth as a nurse in the U.S. We provide on the ground support and care, a personalized growth and education plan, and guidance every step of the way.

You're so much more than a healthcare professional

So we provide the care and support you need not only as a nurse starting a career in the U.S., but as a person starting a life here too.

Personal

We personalize each nurse's growth journey to make sure that your goals and needs are met.

Geography

We have hundreds of opportunities throughout the U.S. Let us know what your ultimate goals is and we can help get you there.

Sponsorship

Our in-house expert Immigration team has years of success and experience navigating the very difficult and always changing immigration landscape. We always have your best interest in mind as we move through the process together.

Wellness

We know that you need to be well to take care of others. We support your wellbeing with check-ins and support as a member of our Conexus Community.

Growth Plan

Your personal growth plan helps us plan for your future by taking the right first steps today.

Education

Our award-winning, state of the art educational program begins when you become part of the Conexus family and follows you through your growth with us. Whether you are part of our NCLEX sponsorship program or a recipient of our EARN scholarship, we invest in expanding your clinical and non-clinical knowledge.

Giving

We believe in giving back - to you, the community from which you come, and the communities to which our healthcare professionals go. This is how we build the future together.
