Washing Instructions:

Pre-treat stains with Dawn dish soap or use any automatic dishwasher soap. These soaps are designed to break up oil and grease on dishes but also works great on massage table sheets. For the best chance of getting oil out of your linens you must pre-treat within 24 hours.

When washing your sheets avoid using bleach, as it will damage the cotton fibers and over time you will notice holes. If you need to brighten your white sheets, add 1/2 cup of vinegar or 1/4 cup of lemon juice to your wash. Wash your linens in warm water with a cold water rinse.

After all oil stains are out you may dry your sheets as normal. We recommend using a low heat setting and throwing in a few tennis balls to reduce the drying time. Remove linens as soon as the dryer stops to avoid wrinkles.
