

PAPELES Y CONVERSIONES DE MÉXICO

Our goal, consistent growth.

WHO ARE WE?

We are a leading Mexican company with international presence that for more than 27 years has been dedicated to the manufacture, conversion and commercialization of paper related products.

We are recognized for offering high quality printing, packaging and identification solutions that exceed your customers' expectations.

We have 18 automated plants with state-of-the-art technology. In addition, we have 4 distribution centers located in Mexico City, Guadalajara, Tijuana and Merida, 2 Business units and more than 1,900 members in our team.

MISSION

To manufacture, convert and commercialize paper-related products that offer printing, identification and packaging solutions, satisfying the needs of our customers and meeting the profitability expectations of our shareholders.

VISION

To be a leading company at a national level and with international presence in the market segments in which we participate, offering integral solutions to our customers.
